Elements

Sophomore Chris Parodi '14, shown right, says sports are very important to him and are key elements in his life. He participates in Water Polo, Basketball, and Baseball for the school.

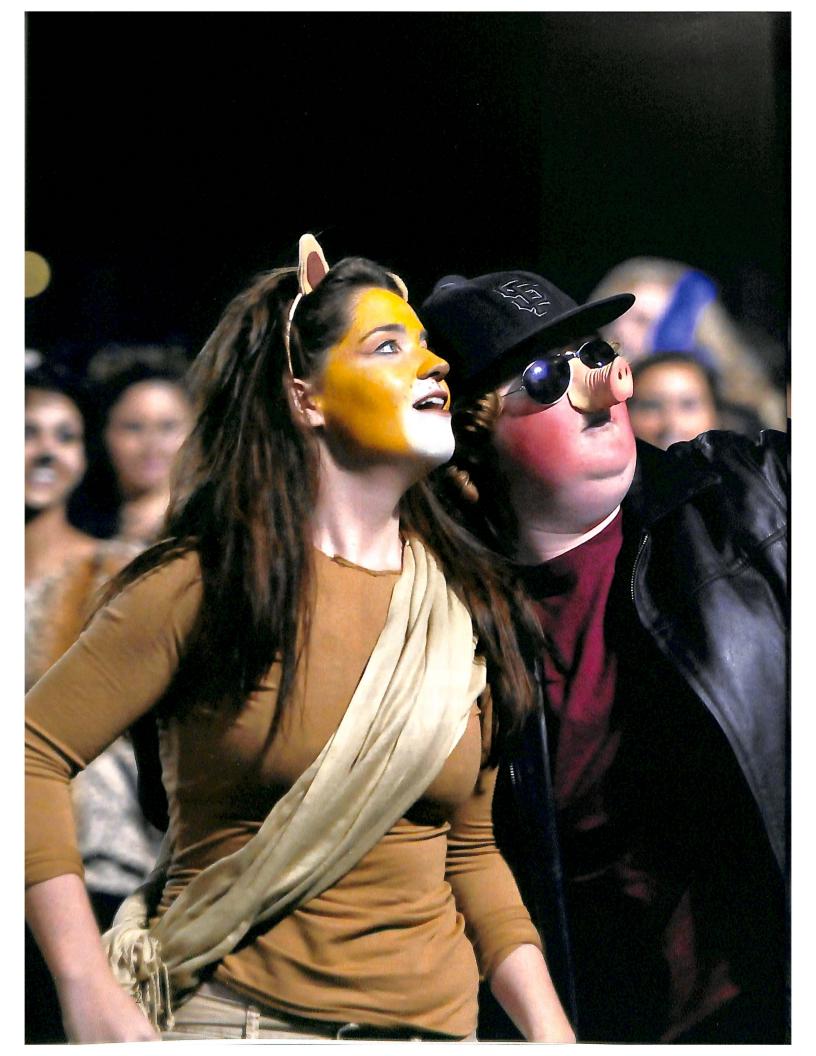

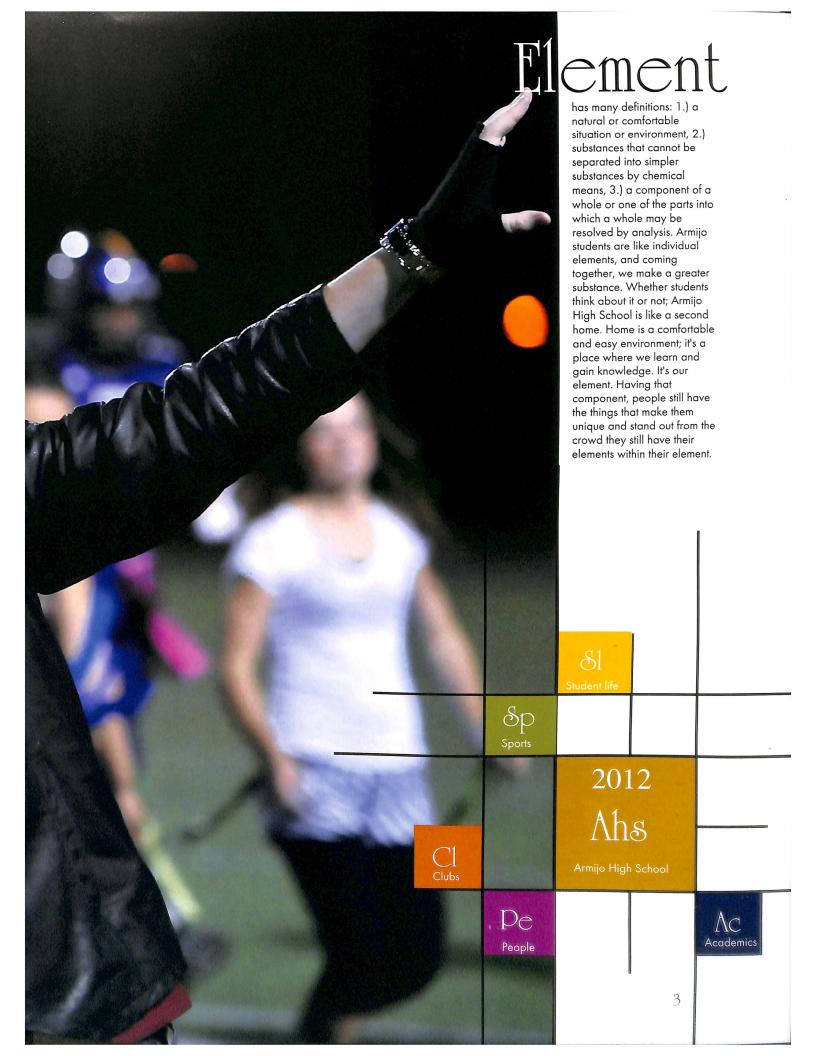

Armijo High School

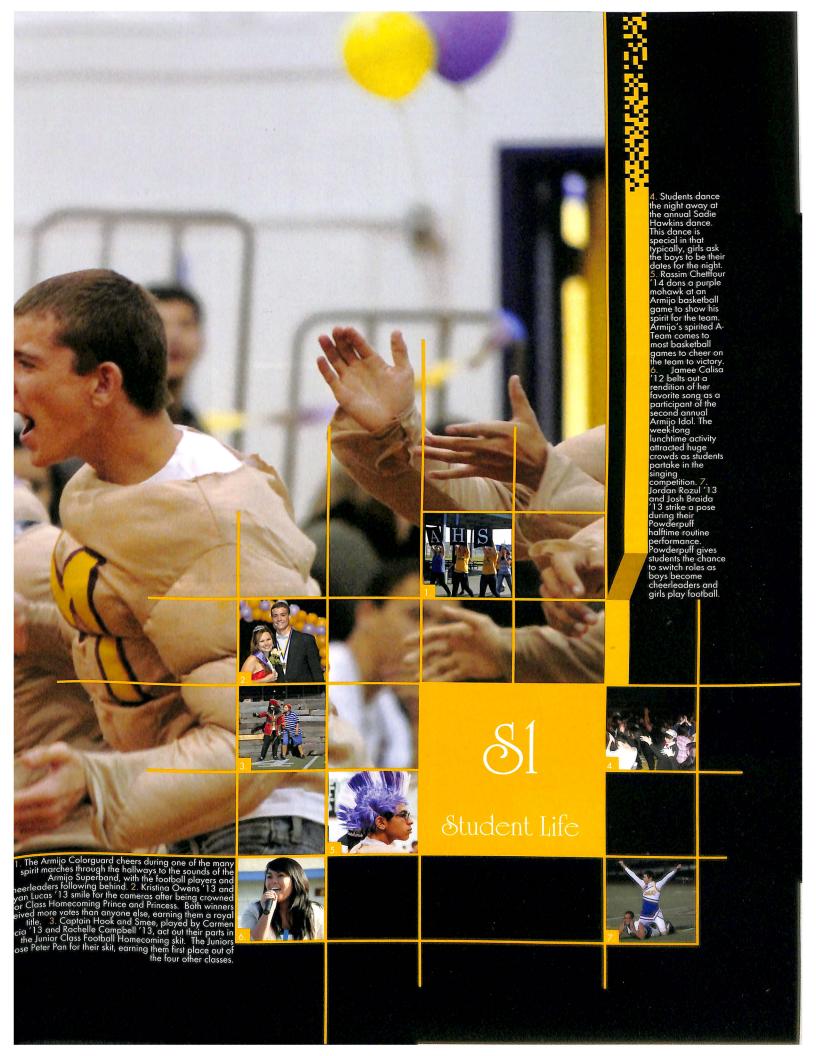

824 Washington Street Fairfield, CA 94534 Phone: (707)-422-7500 Fax: (707)-438-3390 ww4.fsusd.k12.ca.us/schools/armijo

Look around Armijo and you will notice a key element to the school. The obvious thing would be the students. However, at Armijo High School, students here bring energy and excitement to the school that is incomparable to other schools. Whether it's cheering on the football team on a Friday night, dressing up to show their spirit during the week leading up to homecoming, or even just singing in a lunchtime competition for a school-wide title, Armijo students are fulfilling every moment they to create the best memories possible. The elements of life and spirit that students bring to Armijo are one-of-a-kind and unique. There is no one else out there that can measure up to the legacy of being an Armijo Indian.

Happiest Homecoming On Earth

The theme for this years football homecoming floats was Disney movies. Freshmen did Monsters Inc., Sophomores did HIgh School Musical, Juniors did Peter Pan and Seniors did Lion King. Each class did their best and put everything they had into their skits.

Most people assume that the Freshmen don't know what they are doing, that their skit wont be as exciting, but they proved everyone this year. class of 2015 did their own spin on Monsters Inc. They came in Fourth place.

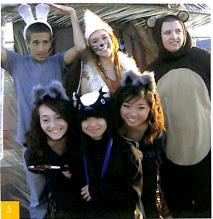

As usual, class of 2014 pulled out a great skit. The Sophomores most definitely gave the upper classmen a run for their money. Compared to last years skit, class of 2014 improved and showed what they can really bring. They placed third.

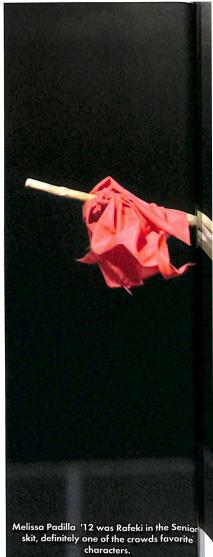

The rival between Juniors and Seniors happens every year, but this year the tension was more intense then usual. As long as anyone can remember Seniors have won first place in homecoming skits, but this year that cycle ended. Juniors, class of 2013 pulled out a win! Juniors weren't expecting to win just because of the continual winning of Seniors in homecoming. Both skits were truly amazing, great props, dances and music. Class of 2012 and class of 2013 both put in great effort!

4 After the Freshmen finish their skit, they group up and chant. 5 The lost boys, Leeza Oyoung '13, Trevor Flynn '13, Christina Cieslewicz '13, Sarhea Reyes '13, Wyatt McCampbell '13, and Ileana Pichardo '13, chill in front of the lost boy hut during

the Junior skit.

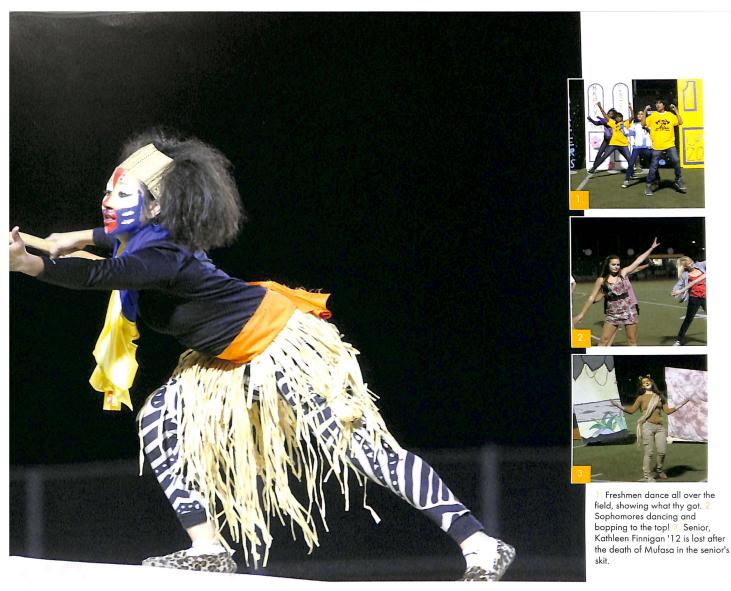

Seniors Austin Panush '12, Katheen Finnigan '12, and Michael Mcleod '12 preform in the Senior Lion King Skit. Playing Timon and Pumba, they show Simba the way of "Hakuna Matata."

Sophomores Brad Davis '14 and Megan Savko '14 dance their way to be the best. B Juniors Paul Mooradian '13 and Kyra Gillespie '13, as Peter Pan and Tinker Bell, fly to off Neverland in the junior's skit.

Victoria Renteria '15 plays a monster who stole Armijo's pirit in the Freshmen Monsters Inc. skit. Class of 2015 really now their best moves during their performance.

Who? What? When? Where? How?

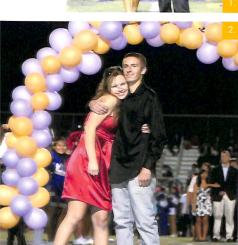

How is the theme chosen?
Leadership teacher Mr. Burzynski and ASB officers come up with a long list of different possible themes, then handed off to the leadership students which then choose their favorites or suggest new ideas. The list then shortens to about four or five ideas. Leadership students then vote and which ever theme gets the most votes, thats our homecoming theme.

1 Sophomore nominees, Shanon Farney
114 and Segan Woldai 114, walk down the
field under the balloon arch. We asked
Shanon how he has changed since he
became a nominee and he responded
saying, "it hasn't necessarily changed me
but it was a great experience for me to
have."
2 Junior nominees, Kristina Owens 113 and

Trevor Flynn '13, smile for the camera as they walk out onto the field.

Who Nominated Whom?

Have you ever wondered where the homecoming nominees come from? We did too and so we tracked down this year's nominees and the clubs who nominated them.

3 All of the winning female nominees, Lelani Reyes '14, Jennifer Dessel '12, Lacey Konstantinopoulos '12, Kristina Owens '13, and Justina Le '15, pose after winning their titles. This group of girls and all the other ones who didn't get a crowned looked beautiful, they shinned brighter than the stars!

4 Senior princess and prince, Jennifer Dessel '12 and Alan Ruiz '12, have a huge smile on their faces' after being awarded their title during football homecoming. The crowd was huge, and all the attention was on them and their composure stayed perfect. When Jennifer Dessel was asked how being a nominee changed her, she replied, "it has made me more friendly i am also more willing to get to know people who I don't already know."

Stephen Yoo '12 and Lacey Konstantinopoulos '12, the enior king and queen, pose after they won their first own for homecoming. Lacey said,"I was chosen by the DVD yearbook my teacher has a lot of trust in me because I am very hard ker in a very easy class.

Night To Remember

This year's football homecoming was a very special night. All of the students were selected by their class members, because they have achieved something special to make the school a better place for the students here at Armijo. From playing well in a sport to having great academic achievements these are all elements of having great students at a great school. This is the reason why these students were selected by their clubs to represent them.

Yes, all the people nominated were proud and happy that night, but at the same time they had a lot on their minds. When Alan Ruiz '12, a senior here at Armijo, was asked, "How has being a Nominee changed you?" he said, "Being a nominee has made me feel special because it's made me feel more recognized by people who aren't my peers." Whether it was the stress of wanting to win or just the attention being brought to them because of this honor, all of them stayed strong.

Dressing up very nicely, all of the nominees were called out onto the field to receive their awards. It really was a night to remember for all of the nominees.

- 5 Lelani Reyes '14 and Corey Stewart '14 walk out with smiles on there faces onto the football field. They are very proud to represent to sophomore class and are happy they have been chosen to represent the school.
- 6 Naama Angulo Rios '13 and Dennis Gage Mattiuzzi '13 walk under the balloon arch after nominees are announced for the juniors.

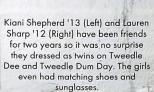

- Noah Dennis '12 and Maria Salinas '12 both nominated by the National Honer Society. They both put in hard work to get to the field as nominees.
- Akena Reyes '14 and partner Darius LeVan '14 make there way front and center as their names are called. We interviewed Akena Reyes '14 about how she felt to be out on the field her thoughts were, "it was fun for me to be at the center of attention I have always been a quiet girl and when I was out there, it was great to be noticed."
- 9 This is Wendy Valdovinos-Fonseca '12 who was nominated by DECA club and her partner Key Vang '12 who was nominated by Key Club.

Neek Of Disney

Everybody saw them; the kids decked out in purple and gold, the ones in monster-sized clothes, togas, dressed as twins, and even mismatching clothes. All those people dressed up for the football homecoming spirit week; the theme was Disney. The whole week was to pump up the spirit, but does it really work? Does spirit week actually raise the school's spirit? Does it pump the football players up? According to Jacob Maher '14, "it helped bring the school together". Jacob feels that "more people come to the game because of spirit week". Jacob is a football player so he was also asked about his performance in the game. "I did do really good that game so maybe it [spirit week] did help." Courtney Hall '15 agreed with Jacob about spirit week helping the school and when asked why she dressed she stated "I think it is important to show that it's okay to have spirit and it is a good way to have fun with your friends". Vanessa Villanueva '12, agreed with Courtney and Jacob as well. Vanessa dressed for every day except for monster-sized Monday because she exclaimed "I think it's fun to get dressed up all week!" Although this is only the opinion of three students out of hundreds at Armijo, many people decided to dress for spirit week and it's safe to say that our football homecoming spirit week succeeded in lifting the spirit's of all of Armijo's students.

- Tuesday was Tweedle Dee and Tweedle Dum day, which is why we see Kristina Owens '13 (left) and Kaytlin Holbein '13 (right), dressed as twins. Brad Davis '14 and Ashlee LeCheminant '14 pose for a picture in B-hall. They decided to go all out for Toga Tuesday this year.
- 3 Darren Evans '12 is pictured here dressed for Goofy Get Up, also known as Mis-matched day. Not only was this hard for Darren to do, but for the longest time he couldn't even find clothes to mismatch.
 - 4 Part of the Football Homecoming Spirit Week is definitely the Spirit March after school. Here, some JV football players participating in the march walk around B-hall.
- 5 The Football Homecoming Spirit Week includes all the purple and gold in the stands at the homecoming game.

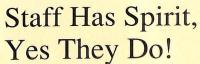

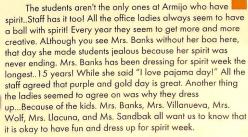

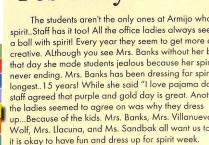

- 6. Justin Cox '13 was happy to pose for this picture. He has his monster sized shirt on to show his school spirit.
- (Left to Right) Briana Belluomini '13, Vianey Miranda '13, Ileana Pichardo '13, Leeza Oyoung '13, Kyra Gillespie '13, and Christina Cieslewicz '13 all decided to take a group photo to commemorate this years Toga Tuesday.
- 8. Lauren Banks '14 is seen walking to class dressed in her toga. Lauren went with a simple toga design to show her school spirit.
- 9. Shelby Mischke '13 scares Rachelle Campell '13 with her monster-sized clothes during Spirit Week.
- O Jessica Miller '14, Shannon Farney '14, and Seghen Woldai '14, took Tweedle Dee and Tweedle Dum day literally, each one writing a different part of the phrase on their

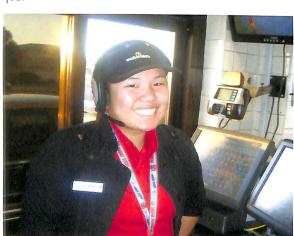

Time consuming, yet rewarding. Having a job as a high school student is challenging, especially when homework waits in your backpack. It may be overwhelming when a job takes away the time you could have to yourself, but students with jobs will gain more than just money in the long run. They are able to get a glimpse of what "real life" is like as they learn about time management, responsibilities and how to budget their money.

Jobs have their ups and downs, but students try to make the best of them and make their time enjoyable. For senior Diego Sanchez, his job as a tutor at the Matt Garcia Youth Center has been especially rewarding because he is able to help his peers. "I like how I can hang out with people I can relate to," says Sanchez. As an IB Diploma candidate, Sanchez is proving that handling a job and receiving good grades can be a reality. "It's possible to manage academics with a job." he says.

Insight has shown that jobs, although hard at times, can be very helpful and rewarding as an outcome. The life of a high schooler may be overwhelming, but these students are up for the job!

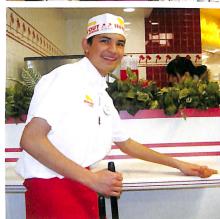

Above Joleena Sarteun '12 takes a customer's order at a McDonalds'

Far Below Bryan Ard'12 cleans a table at a busy In-N-Out Burger.

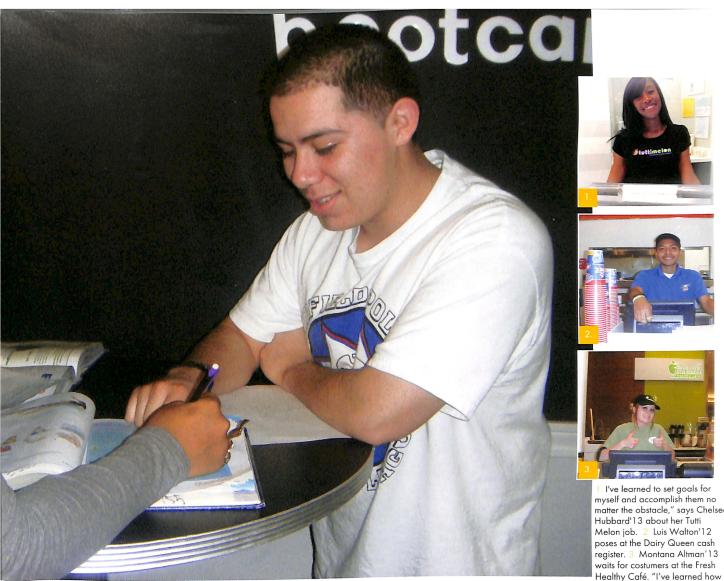

Above: Cornelius Johnson' 12 poses at the Shoe Palace at the mall. "I get to see shoes before they come out," says Johnson.

Tips on Managing Work and School 1. Take advantage of your free time. If you have free time during class, use it

to be responsible with money," she says about her job.

- 2. Have priorities. With a job, priorities are needed to rank responsibilities and complete them appropriately.
 - 3. Set up a schedule. Budget and organize your time
- 4. Don't procrastinate. Finish your assignments ahead of time so that you don't feel stressed the day before an important assignment is due.

Don't Have a Job?

Tips on Getting a Job

- 1. Apply to a variety of places, do not limit yourself.
- 2. Ask classmates, friends and acquaintances if they know of anywhere that may be hiring.
- 3. Appear presentable if you score an interview and be prepared for probable questions.

Top 3 Places that Hire High School Students

- 1. Six Flags Discovery Kingdom
 - 2. City of Fairfield
 - 3. McDonalds Fast Food Restaurants

Fam<mark>ily</mark> is Everlasting

Sharing a school with your siblings can bring you closer or draw them farther apart from each other. Whether they spend their time together or apart the will always be close because of their blood lines. Twins, Tyler Brouchard '14, and Derrick Brouchard '14, say that going to school with older brother, Ian Brouchard '12 is very annoying because he hates seeing them around campus.

Even though some siblings have a rough school experience, others such as Melissa Gomez-Lopez '12 and Anellely Gomez-Lopez '15, love going to school together and spending time together. Melissa says that she enjoys taking care of her little sister and looking out for her. From close bonds to distant bonds all siblings find ways to make their school experiences together unique.

The time siblings spend together whether it is fighting each other or hanging out spending time together it all brings them closer together. They also learn more about each other, even when they feel as if they know everything; it is always cool to find something new about the people you know so much about. Friends come and go but family lasts forever!

Below Chance Udell '14 and Taz Udell '13 love hanging out and spending time together because they say every moment they share together are

For Below: Older brother, John Williams '12 loves seeing his little sister Jada Williams 14' follow his footsteps as one of the lead scorers on the Armijo

always fun..

basketball team.

Above Courtney Bojorquez '13 and Melissa Bojorquez '13 are twin sisters that love each other dearly. They explain that they are "not like most twins," they do not like the same thing such as clothes and activities.

Right Brothers Alan Ruiz 12' and Saul Ruiz 15' are not only brothers they are also best friends and love working out together.

Brothers Tyler Greives 12' and Wyatt Greives 14' love to play soccer together and they enjoy hanging out.

Above Right Twins Trevor and Trenton Finley '15 are going to miss big brother Paisley Finley 12' as he leaves them and goes off to college. The three brothers spend a lot of time together whether they are playing football or watching television at

Megan Webster '13 likes going to school with younger brothers Matthew Webster '15 and Jared '15 Webster even though it was seen them around at first. 2. Jai-Nice Robinson '14 loves her older sister Justice Robinson '13. They both enjoy playing on the Varsity basketball team together. They spend a lot of time together out side of school and even though they are sisters, they are also best friends. 3 Garlind Webster '14 enjoys going to school with his little sister Kylee Webster '15 because they have been going to school together since he was in the 1st grade. 4 John Arrington '14 does not really see her little sister, Marlie Arrington '15, around campus, so the only time they see each other is after school when they are about to go home. 5 Lucas Bowers '14 loves to play football and baseball with his older brother Nicholas Bowers '12 because it brings their relationships with each other closer. Nick and Lucas are very out goings and are never afraid to take risks and try new things. 6 Jaimi Garlington '14 attacks Zhane' Galington '13 with love because she says next year when Zhane' is a senior she will miss her wen she graduates an goes off to college.

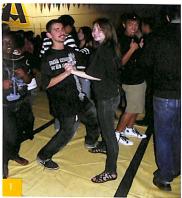

Soroush Ghaffarpour '12 and his date tango it out to one of the many fan favorite songs played by DJ Christian. Not only did Soroush admit he had a wonderful time you could see it on his face!

A group of students pose for a quick picture while waiting to take their photo with the photographer. Cute as buttons, this group shared laughs the whole night. Although they probably had some awesome dance moves they weren't caught on camera.

Senior Kathleen Finnigan '12 and Senior Nicole Cooper '12 raise the roof with a group of friends. You could catch these two all over the floor that night as they danced the night away.

Line
Up,
Line
Up
Every
Body
Line
Up

Students swarmed together to form a Conga Line that went around the dance floor. Sadies definitely brought every student together this year. Whether everybody was dancing to the Cha Cha Slide or Jerking with one another not one person was left out.

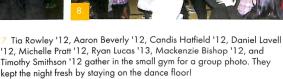

4 Richard Wilson '12 and his date Brittany Simmons '13 are caught boogieing on the dance floor.
5 "Hands on your knees! Hands on your knees!" Garrett Wiess '12 joins many of his friends on the dance floor getting down to the Cha Cha Slide.
6 Leo Saavedra '12 and Andrea Cruz '15 show off their salsa skills when dancing to Suavemente Besame by Elvis Crespo.

lance with somebo

There is no doubt that this year the ladies were very bold when finding a date to Sadie Hawkins dance. The dance floor was filled with matching couples dancing the night away. Sadies is the one dance where the tables turn and it's the girls chance to get creative and ask that special

opportunity. Stephanie Kelley '12 cleverly asked her date, Tyler Fuston '12, with a hamburger. She said, "I made a question mark out of cheese and wrote 'sadies?' in ketchup." Stephanie and Tyler were one of many on the dance floor that night. DJ Christian Adsuara '12 played

someone. Many jumped at this

countless crowd favorites that had everybody dancing, including Vice Principle Mrs. Marley. Songs like Cupid Shuffle and Cha Cha Slide brought everyone together dancing. The night was filled with smiles, laughs, dancing, and

'Everybody clap your hands!" Every student in the gym fled to the floor when the Cha Cha Slide was played. Senior Alan Ruiz '12 states

"The cha cha slide is a must every year!"

success.

Throwing down some interesting dance moves, Senior Mary Salvani '12 and Antony Zaghloul '12 pleased the crowd watching. The two battled moves all night. Back and forth wasn't just a phrase with those

"Go DJ! That's my DJ!" Christian Adsuara '12 was the DJ for the night, playing many songs the students loved and grooved to all night long. Everyone knows the most important part of a dance is the music, and everyone on the dance floor was feeling the music being played that night.

The Sophomore class has a team of unforgettable cheerleaders, led by their coaches, Kayla Vidal '14 and Klara Recce '14. Their coaches led them and taught them a good skit.

14 makes a run with the ball for an Erika H attempted touchdown for the Sophomores. She was being chased down by the Freshman ladies.

Howie Thompson '14 and Austin Wedemeyer '14 of their adorable personalities from their skit.

The Bernie

"The Bernie" was demonstrated through out a lot of cheer leading performances. The sophomores in the above picture are doing a part of "The Bernie." The 1989 movie "Weekend At Bernies" is about two insurance workers who discover several instances of insurance fraud. They find their boss dead at his beach house. Through out the movie, the two employees try to find out how he died. They then put their boss between to make it appear like he was walking The rapper Isa then made a song called "Movin Like Berney" and made a dance to go with it.

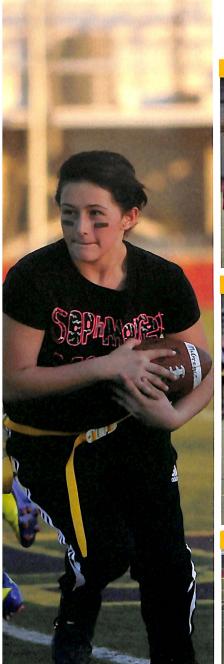

4 Andrea Cruz '15 carries the ball for the freshman in the hope for a touch down. She has the help of her fellow classmate and teammate that helped block the other players.

Monique Evans '14 makes a run for the Sophomore class to gain some yards. With her fast speed, she made it passed the other players

Kyle Elidge '14 and Brad Davis '14 representing the Sophomore class and posing cute for their halftime skit for powderpuff night. they put on a good show to watch

Another

Victory

The Junior Varsity Powderpuff game was a close one. The Sophomore class scoring 28 and the freshman class scoring 13. Erika Houk '14 and Monique Evans '14 led the Sophomore class to a win that night. The Sophomores always come prepared when it comes to Armijo's Powderpuff games. The Sophomores have many talented players including Alexandra Azzopardi '14, Jasmine Calderon '14, and Monique Evans '14 scoring the four touchdowns by the class of '14. The Freshman put up a great fight by scoring some touchdowns too and not letting the sophomores get away with an easy win. The Cheerleaders for the Sophomore class put on a good performance showing off their "cute" side during the dance. They showed off their legs in those mini skirts and were looking really cute with those bows in their hair. The cheerleaders left the crowd in awe with their dance skills and cute poses.

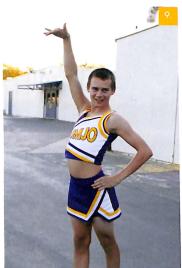

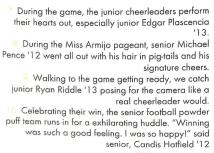

- 7 Adriana Cruz '15 throws the ball to one of her fellow Freshman players to try to score a touch down. She led the Freshman class in scoring some touchdowns.
- 8 Sophomore kicker, Ashlee Lechemanant '14 tries for a extra point. Lauren Banks '14 helped Ahlee in hopes of a scoring extra point.
- Sophomore boys in a kick line showing off their legs during their halftime skit. The cheerleaders tried their hardest in showing off their personality in their skit
- 10 Hector Rodriguez '14 and Hayden DelDotto '14 pose strong for the end of their halftime skit at the powderpuff game. they ended their skit with a strong and cute pose to leave the crowd wanting more.

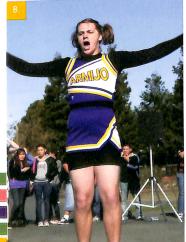

Pivals Until the End

The classes of 2012 and 2013 have had a large rivalry ever since the class of '13 came in their freshman year. That year, the freshman weren't as experienced when it came to powder puff football or being cheerleaders. Coming back to play against each other once again, they are now juniors and seniors playing the same game they played two years ago with more experience. This year, compared to a shutout game the last time they played with a win for the class of 2012, the juniors only lost by one touchdown. First-time player, Dixie Byrd '13, said "I had so much fun playing and even though we lost, we were all really proud of how well we played." It was a close game, but the halftime performances by the cheerleaders really brought everybody's spirits up and prepared them to play the second half of the game. Jerry Sheiring '13, 3-year cheerleader said, "It was really fun cheering for our class, but i think we could've been more spirited." Everybody who participated had fun and tried their hardest.

- 1. Quarterback Melissa Padilla '12 runs the ball when she finds no open players and makes the first down.
- 2 As Allyson Doolittle '13 holds the ball ready for the field goal attempt, Kyra Gillespie '13 runs up and kicks it high and far for the extra point.
- Senior, Jordan Wilson '12, catches the ball preparing to have her flag pulled by junior, Naama Angulo-Rios '13. "It's such a rush once you have a chance to grab their flag and stop the play," Naama says.
 Once the ball is kicked off for the beginning of the second
- 4 Once the ball is kicked off for the beginning of the second half, junior Britney Wheeler '13 runs back the kick return all the way to the forty-seven yard line.
- 5 Running back, Katherine Boatright '12 tries to run around the linemen to break through for a first down. What she didn't see was that Emily Lamb '13 come around quickly to pull her flag and stop her where she stands.
- Preparing for the senior introduction for the rally, seniors:
 Richard Wilson '12, Tim Smithson '12, Daniel Garcia '12, and Savion Murray '12 build a stunt to walk out together for their performance.

Last Year, First Year Senior, Alexis Rojas '12 enjoyed her first experience with playing and being involved in powder puff. "I was really excited to play and it was really fun, too!" she said. She also told us that she finally played it her senior year because it was something new to try and she had never known about until this year. Once they won, she scream and shouted for joy. They also came to a huddle to celebrate their win. "We were really motivated to beat the juniors as redemption for them winning homecoming," she told us about the game.

Armijo Is In A **R**elationship

Hearts are pounding and cheeks are blushing as Armijo students romance each other. Whether asking someone out, or just to a dance, everyone has their own romantic flare. A big tool Armijo students use is technology. The cutest text and the latest relationship status is always part of conversation.

"If technology didn't exist I probably wouldn't talk to him as much because he doesn't go to school with me," Says Lauren Corn '13 about her boyfriend. Technology has become a big helper in letting the resident love birds keep in touch. If they don't have classes together they can easily keep in contact with a quick text.

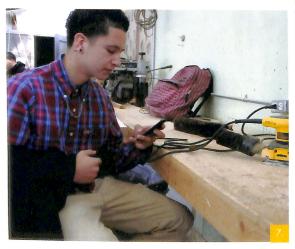

Even though technology has become such a large part of today's world, Armijo is still able to do some "old fashion" things. Easy ones to spy are giving flowers, holding hands in the hallway, and trading sweaters. These things are sweet, but no one can deny the big smile they get from reading a sweet text, or the butterflies they feel when they can change that status from "single" to "in a relationship."

8 Anna Castro '12 gets a thumbs up for her opinion. "I think our generation is into technology, but when you're in person you connect more."
9 Alyssa Pickett '12 giggles as she thinks about her boyfriend. "My boyfriend and I text probably 60% of the time, but call each other a lot."

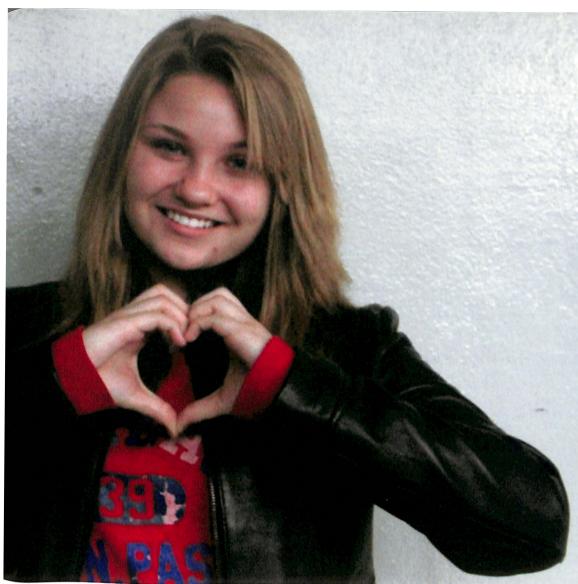

5 When it comes to texting or talking
Alexio Garcia '13 is on the fence. "I can
express myself through texting, but it's better
to talk to people face to face than text."
6 May Saenkaew '13 blows a kiss to all
her texting buddies. "I'm more of a girl who
likes to talk in person, but sometimes I can
say things more confidently in a text
message."

1 Dylan Beck '13 stops to think about his girlfriend who goes to another school. He said," I enjoy texting her to keep in contact."
2 Adrain Lozoya '12 can never keep a grin off his face since he switched to Armijo to be with his girlfriend. 3 Caitlin Lea '12 texts her boyfriend everyday to know what the other is doing. "And the smilies and wink-y faces are cute too."

4 Tyra Holt '14 has a big smile as she takes a moment to text her boyfriend. "I don't like texting so we call, but we do text sometimes, still."

This school year I had the BIGGEST crush on	
because	

The Element of Friendship

Below Caption: Dalana Bluford '14 and Dmitra Lucas '14 smile for the camera while remembering all the great times they've had together. Far Below. What kid doesn't like candy. Bluford '14 and Lucas '14 get ready for a night of trick or treating

From the sandbox to the quad, from childhood to pre-adulthood, these best friends have been there for each other for most of their lives. Whether they met in kindergarten or day care, elementary school or through family these friends have been together for a long time and have stayed together through middle and high school which are very rough and important times in a young teens life.

Take seniors Alexis Rojas '12 and Chelsea Hubbard '12, these two have been friends since fourth grade when they meet at Dan Root elementary, and they've gone to school with each other ever since. In high school, both Rojas '12 and Hubbard '12 played softball and junior year they joined the cheer leading squad together. With Alexis' fun and bubbly personality and Chelsea's laid back and warm loving spirit these two young ladies perfectly balance each other out. And as graduation quickly approaches for these two young ladies they stand buy each other as they go on and start a new chapter of their lives, always remembering to be there for each other in the end.

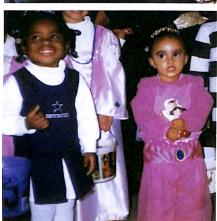

But best friends don't always get along or agree with one another. DaLana Bluford '14 explains how her and best friend Dmitra Lucas '14 don't always get along," Me and Dmitra '14 don't always get along but, I think thats something that keeps our friendship strong because we are able to come to one another and work it out."

If there's one thing true about all these friends it that there love and loyalty to each other hasn't changed, from the time they meet and up until now these friends have stood the test of time and have captured the true element of friendship.

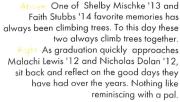

Above Shelby Mischke '13 and Faith Stubbs '14 have been friends since January 23, 1998. Here they are photoed at Chevy's in Fairfield with their mouth's full of delicious food!

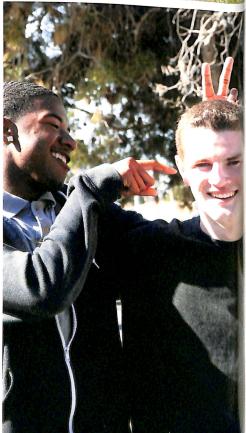

Above: Friendship is the most important thing in life.. So when you have been friends as long as Malachi Lewis '12 and Nicholas Dolan '12 have that is something you truly treasure.

What is you favorite memory with your best friend?		
	Marie Dispersion of States	

Sing it Loud, Sing it Proud!

The hosts, May Saenkaew '13 and Jared Webster '15, announce your name and you walk through the purple and gold streamers out of the Indian Outpost to a crowd of screaming students. About 40 students started in the competition and now you're one of the final 12. You made it so far, but wait, who are you? Well, you're one of the the 2011 Armijo Idol competitors! This year's competition was fierce, the original 40 competitors auditioned to a couple teachers and the committee heads. They were judged based on stage presence, song execution, wow factor, and performance. The top 12 then moved on to round 1, which took place on Monday and Tuesday. Round 1's theme was "Songs From Middle School," in which each competitor had to sing a song from when they were in middle school. Votes were then cast on Facebook and at school to see who would make it to the top 6 for round 2. The second round's theme was "Songs From the 90's," in which each competitor had to sing a song from the 90's. Votes were then cast again and 3 moved on to the final round on Thursday. Joy Acuyoung '14, Selah Brown '15, and Justina Le '14 all moved on to the round 3. Votes were then cast again to find out the next Armijo Idol. For the last day, all 12 competitors returned to sing "All I Want For Christmas" by Mariah Carey in honor of the upcoming holidays and the winner was announced. Joy Acuyoung '14 was made the 2011 Armijo Idol!

1. Selah Brown '15 sang in the first round, "Knocks You Down" by Keri Hilson; in the second round, "Angel of Mine" by Monica; and in the third round, "Thinking Bout You" by Frank Ocean. Coming in 2nd place, the crowd loved her. 2 Justina Le '14 sang "Who are you" by Jesse J in round 1. In round 2, she sand "Without You" by Mariah Carey and in Round 3, she sang "If I Ain't Got You" by Alicia Keys.

3. Joy Acuyoung 114 sang "Hate That I Love You" by Rihanna in the first round, "You're Not Alone" by Saosin in the second round, and "Nothing on You" by B.o.B. in the third round. She also played the guitar along with her singing. 4 Jenny Diaz '14 sings passionately to "Hey, Soul Sister" by
Train in the first round. 5 Isabel Jones '14 tributes the late Amy
Winehouse by singing her song, "Rehab." 6 De'Vona Battle '14 sings her
heart out to "Take a Bow" by Rihanna in the first round. 7 In round 1, Jesikah Angelo '13 sings "Thunder" by Boys Like Girls. 8 Xylina Rusit '14 graciously sings "Halo" by Beyone. Matt Santos '12 sings a remix of Rihanna's song, "Umbrella." 10 Students place their votes one of the Indian Outpost and on Facebook for who they want to be the 2011 Armijo Idol.

In Armijo Idol, there were three judges everyday, Mrs. Cerda, Mr. Toliver, and Mr. Kalaf-Hughes. All though they didn't get a vote in the actual competition, they did play a role in judging the top 40, and the people with the highest scores moved on to the top 12 for Round 1 of Armijo Idol. When students were asked which American Idol judge they'd compare the judges to, they responded that Mrs. Cerda would be Paula Abdul, Mr. Toliver would be Randy Jackson, and Mr. Kalaf-Hughes would be Simon Cow.

Pump, Pump, Pump it Up!!

Rallies are all about showing spirit, and spirit is all about having fun. No wonder they go great together! At Armijo, we hold a lot of pride in our spirit, and a lot of work goes into our rallies.

The goal of it all is to get the excitement to last throughout every event and game. Armijo is the spot to be for spirit, because no matter what the outcome, the stands will be full of supportive students, cheering their hearts out.

All varieties of students attend the rallies and games, and that is because of what they get out of it. Michelle Pratt '12 explains what rallies and spirit mean to her, "Being at rallies gets all of the classes united, and showing spirit is always something to look forward to."

All grade levels, from Freshmen to Seniors, get the high school experience of football and basketball games and get to unite with one another to have memories that they'll never forget.

After all is said and done, Armijo students wear that purple and gold with pride and keep the saying going, "You wish you were an Indian, Whoo Hah!"

Below: Even a face full of pie doesn't stop contestants. The activity was successful because everyone stayed entertained and had a great laugh! Far Below: Dressed as the dynamic duo Minnie and Mickey Mouse, Naama Angelou-Rios '13 and Stephen Yoo'12 MC the first rally of the school year.

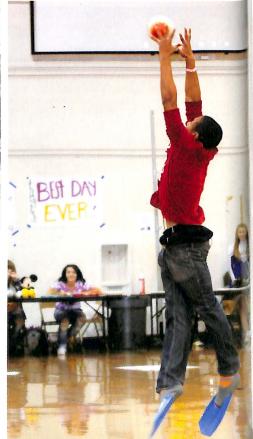

The stands are filled as Armijo students are brought together at the football Homecoming rally, waiting for the festivities to begin. The stands are full and the anticipation is growing. Every rally is as important as the last for what it does to the students, like those who have the thoughts of Dulce Armas '14, that rallies "Get me pumped up and excited for the games! They are cool and I have a lot of fun going to them."

Above: Cory Brozick '15 is literally number one in the giant foam finger. Right: Rallies always have games to get the crowd off their feet. Timothy Sharp '13 makes an amazing catch while competing in the Donald Duck catch at this year's Football Homecoming rally.

great excitement.

Above Right: Armijo spirit even brings in outsiders as Bob joyfully attends every game, a kid again, the best mascot Armijo has.

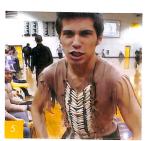

- 2. The A-Team section is always filled with excitement. The crowd reacts to a great play by the Armijo boys team. No one is afraid to shout out and be a
- nine siny.

 3 The spirit and excitement doesn't stop in the gym. Outside at the football games, the A-Men Tim Smithson '12 and Aaron Beverly '12 lift up Austin Liddicoat '12 to start up the cheering.

 4 A's up! The traditional symbol to support our basketball players in their free
- throws.
- Shayne Taylor '12 shows a pumped up face for the camera, dressed as an Indian.
- Homecoming rallies are filled with music and entertainment, and the A-Men can't help but show their stuff and groove with the cheerleaders.

 Here goes our armijo friends in a group picture at David Wier Elementary school.
 They were doing there Read Across America helping out at for some community service.
 Lataj Johnson '13 on the right on

2 Lataj Johnson '13 on the right on Stephanie Garcia '12 on the left are talking to some kids about the importance of reading and some cool facts about Dr.Seuss!

Giving Back More

Danielle Dobos 12' is a very inspiring student here at Armijo. She has 775 hours of recorded community service. She has helped out a lot at the Animal shelter. Also she is the cofounder of the Dream Closet. After the Dream Closet is done they take the dresses to the Matt Garcia Center and are held there until a couple days before prom. I asked Danielle why she did so many hours of community service and she said "I enjoyed it and I felt loyalty to the programs she started and the programs she helped."

Here is Daniel Garcia '12 and (I dont know his name on the right) There standing up there giving a little reenactment of thing 1 and thing 2.

- Luccienne Altman-newell '13 is reading just one of the many
 Dr.Seuss books they read that day for those kids.
 There is Lataj Johnson 13' showing the kids something in the
 book that was pretty interesting.
- Lucienne Altman-Newell '13 lets some of the kids read with her while she reads.

Ryan Lucas 13' is reading a cat in a hat to these 3 little boys. They wanted to read this book cause it was a favorite of theres.

David Panduro 12' dresses up as the cat from cat in the hat and reancts some funny scenes to get some laughs out of the little kids.

One of the most important things about learning, is learning of the importance of serving others. Armijo High School prides itself in promoting community service for others. Our IB program requires service hours, our clubs are centered around events that benefit others and our students try and provide new ways to get others involved outside the classroom.

One of our featured community service projects is our "National Read Across America Day" We have this day because of Dr. Seuss. Our students went to different elementary schools and read during class time. Several students were apart of this event. Every year they usually have an assembly before they around and read. This year, because of funds, they couldn't have one but were still successful simply going to classes and reading to younger students.

These Armijo students didn't do this for money or for a grade in class. They did because of the kindness in there hearts and to help out the younger generation. We hope all students at Armijo strive to give back in their own way.

Group Games

Everyone loves to hang out with their friends, but when there is a group game, that makes hanging out with them way more fun! A group can be two people or a whole bunch of people. Some games are better to play with two or a bunch of people, it just depends on the game.

Anna Castro '14 and Ashley Kumar '14 (top right photo) love to hang out with each other in between classes. Sometimes when Ashley forgets, Anna slaps her hand unsuspectingly, then making her do fifteen push ups. This game would be a good one to do with only a couple of people because you would always be so paranoid.

You can always see Jalina Booker-Navarro '14 scratching Yuselin Cruz's '13 (right photo) hand making her say a boys name for every letter of the alphabet. Jalina goes so fast when someone scratches her hand, you can tell she has played this game a lot.

With friends their is never a dull day.
Whether it's spitting a fake dart or playing just dance no one does it better than a great group of friends!

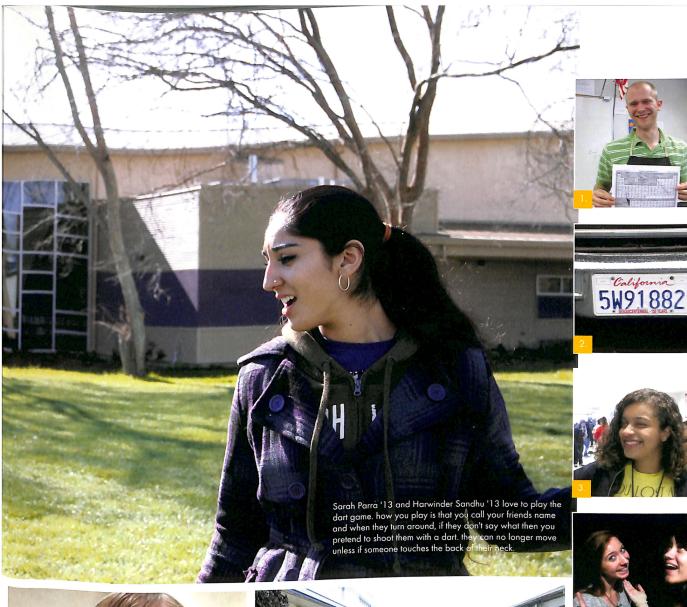

Above photo Jerry Sheiring '13 and Leeza Oyoung '13 created a planking game! They loved planking so much that they created a game so they can plank all the time. What happens is that you call out your friends name and then you do that eye mask thing with your fingers and then you friend does the same and if you guys make eye contact then you go and plank. Above Right Photo Allyson Doolittle '13 and Leaona Hadrava '13 always play just dance when ever they go over to Leona's house. Just Dance is a game on the Wii where you show off your amazing dance skills.

Right Photo Amber Ritz '13 plays the Game and she just lost it! Mykela Raiff '13 (to the right of Mykela) made her lose it. So the game rules are you don't talk about or think about the game or else you lose the game. Once you lose the game you then have to say out loud "I just lost the game!" making everyone lose it.

Above Right: Aracely Estrada '12, Anna Duran '12, Orlando Torres '12, and Victor Canals '12 always play Ninja! What You do is you stand like a statue and you each take turns Typing to hit each others hands. The faster you go the more fun You'll have.

Mr. Smith, a chemistry teacher, loves to have his students play periodic uno. It is just like regular uno but you match the columns and rows instead of numbers and colors. 2 Veronica Guzman 12 loves to play the license plate game with her friends when they are driving around town. When two numbers or letters are next to each other she hits people. 3 Jenneca Javius '13 loves to play Killer. Her and her group of five friends rip up a piece of paper into fifths and on one they put a "K," for killer, and on another one they put a "D," for detective and on all the other ones are "P's," for people. Then the killer tries to kill all the people by winking at them before the detective discovers who the killer is. 4 BreAnna Overman '13 and Megan Webster '13 love to Twice each other. They try to make each other say things twice 5 Emily Eddy loves to go coning! She doesn't grab the cone, she grabs it by the ice cream! 6 Rosaura Dela Cruz '12 and Adrian Lozoya '12 always play Slug Bug!

<mark>St</mark>orybook Night|

The Basketball Homecoming was a night to remember this year. Each class picked their favorite book series and went to work on making the story come to life. Where's Waldo for the Freshman; Curious George for the Sophomores; Harry Potter was done by the Juniors; and the Seniors performed Twilight. Every class put all their effort into making the skits unforgettable.

Each homecoming takes a tremendous amount of time and dedication from each student. Planning for Basketball Homecoming was started five to six weeks in advance. The classes then separate into different committees for the different parts of the skit; music/dance, costumes, backdrops, and script. Then after close to 50 hours of preparation the big night comes and they wow the crowd. When asked why it was worth it to spend so much time on something that only lasts five or six minutes, sophomore Clarisse Wangeline '14 said, "I think it's a show of character, and a way to show the school how hard we can work together to put the event on." This year, everyone's hard work definitely paid off.

3 The dad of two children gets ready to sit down and tell his kids a bedtime story during the sophomore skit. The father, Josh Wilson '14, tells the children, Jessica Miller '14 and Hayden del Dottto '14, a Curious George story.

 Brian Weisz '13 and Madison Newton '13 were Hermione and Ron as they danced together in the Juniors' Harry Potter skit. 2 Members of Team Edward are dancing against Team Jacob for the Senior skit.

- 4 These four kids (left to right) Matthew Gumataotao '15, Courney Hall '15, Victoria Renteria '15, and Corey Brozick '15 all try to find Waldo in the Freshman
- Michael Tong '14 fights Chris Bruner '14 during the sophomore skit. Tong was "Furious George" while Bruner was Curious George.

4. The Seniors all start to group together after their very last, and successful Twilight skit. The Seniors took home first place for their performance. A good way to end the year!

My FAVORITE skit this year was
because

Wish You Were Poyalty Too

Being nominated for Homecoming court is a chance for people to shine. The nominees get the chance to campaign, dress up, and if they're lucky - take home a crown. They get the opportunity to show the school what they're like. Before the crown even touches their perfectly coiffed hair, advertising begins. Posters begin to pop up all over the school, tweets tweeted, and fliers handed out. All to spread their name and get fellow students to vote for them. Some students may hand out candy or use social networks to get the word out. Some may just ask you outright to vote for them! Social networks have the ability to reach a wider audience much quicker, telling their peers to vote for them for Prince and Princess.

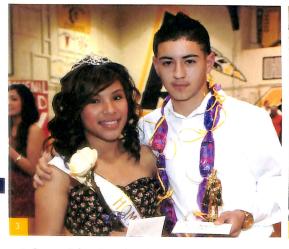

For Seniors, being King and Queen is a big deal. It means they're at the top of the school and it makes them feel popular and noticed. When you're running for King and Queen the whole school is allowed to vote for you, not just your class. It's a bigger deal to be voted this royalty. You can see the joy on Daniel and Candis' faces when they were announced as winners of the court. It's a great honor!

- 1. Candis Hatfield '12 receives her crown and title of Homecoming Queen
- Daniel Garcia '12 receives a custom candy lei in honor of being crowned King.

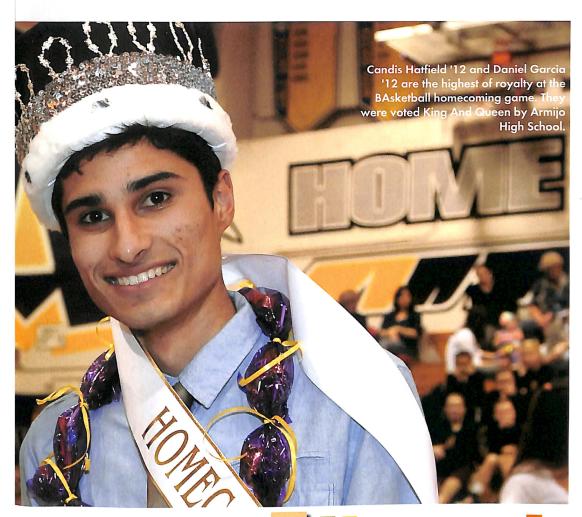

Christina Cieslewicz '13 and Josh Braida
'13 show their happiness after winning
Junior Prince and Princess.

5 Adhithi Narayanan '12 and Mike
McLeod '12 smile while being
photographed for being voted Senior
Prince and Senior Princess.

7 The girl winners pose for a picture after being crowned royalty. 8 All the boys take a picture with their lei's. 9 The winners flaunt their crowns during the halftime crowning of the princes and princesses.

6 Chris Bruner '14 and Joy Acuyong '14 show a couple of huge smiles in their picture for Sophomore Prince and Princess. They both showed excitement as their names were called out to be crowned.

Behind the Court

Have you ever wondered how the voting takes place? Why do those people get nominated? How did their name get in the ballot? Well it starts by all the clubs getting to nominate one boy and one girl from each class. The Leadership class collects the nominees names and puts all those names on one ballot. This is when the Preliminary Voting happens. At lunch you see tables by the Indian outpost or by the library. After the voting is done, the votes are tallied. This narrows it down to the final 5 for seniors, and 3 for every other class. These nominees receive a slip notifying them that they are in the top 5 or 3 and will get to be on the gym floor the night of the Basketball Homecoming game. The Leadership class does something special each day of the week up to the day of homecoming. One of the days the nominees received a pizza party. The next day they were given the opportunity to express why they wanted to win homecoming. On the Friday of homecoming is when the Final Voting takes place. Everyone is allowed to vote for one boy and one girl in their class, and for the Senior Court. That same day it's chaotic tallying the votes in time for the basketball game. It's very stressful because so many other tasks have to get done in time for the game. After the tallying is done and the winners are picked, the names get put into envelopes and decorated for the winner. Lastly, the nominees are called out onto the gym floor and the winners are announced in front of everyone.

The week of 2/5-2/10 wasn't only the week of CASHEE testing but also the week of Basketball homecoming. This years homecoming theme was book series which was filled with many fun spirit days that allowed you to connect with favorite literary characters from popular book series.

Lion, The Witch, And The Wardrobe Malfunction Day:

Also known as mismatch day which is usually always a favorite of most students because they are able to dress up really crazy and have fun with different elements of their clothes.

Junie B. A Kid Day:

Who doesn't want to go back to their childhood days when there was no stress of high school. This day allowed students to have that chance to dress up as a kid again.

Wolf Pack Wednesday:

Groups of friends came to school matching as if they were a pack of wolves like in thee hit book series Twilight.

Nancy Drew On My Shirt Day:

On this day students wore plan colored shirts and brought markers and friends got to write messages on their shirts. These shirts will be a great thing to look back on once out of high school and remember some of the good times with friends.

For Armijo Day:

Students came to school sporting their spirit by being covered in Purple && Gold, some from head to toe!

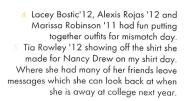

Naama Angulo-Rios '13 sits criss cross applesauce in the grass with her stuffed animal on Junie B a kid day.

1 Jerry Sheiring '13 sports a Mr. Potato head shirt on Junie B a kid day. 2 Aqueel Moss '12, Alexis Rojas '12 and Briana Foster '12 wore their senior sweatshirts for Wolf Pack Wednesday.

Alaysha Finley '12 writes on the shirt of Shelby Mischke '13 on Nancy Drew on my shirt day. B Rachelle Campbell '13 shows off her school spirit wearing her A team shirt on For Armijo. 9 The cheerleaders in uniform during the Spirit March on For Armijo day getting into the Homecoming spirit. For five of the cheerleaders this was there last spirit march and homecoming week of their high school career, a bitter sweet moment.

 Stefanie Garcia '12, Cassarie Soungpanya '12, and Lacey Konstantinopoulos '12 pose together on Wolf Pack Wednesday in class. Wearing blue jeans and cream sweaters.

The Streak is Broken!

The first time in Student vs. Staff history the students have won the game 34-27! The students dominated the game most of the way for 3 quarters. When 4th quarter came the staff started this come back and scored two unanswered touchdowns. Which brought the score back to a one score win. The students put the nail in the coffin with a long touchdown to Malachi Lewis '12. This team will go down in Student vs. Staff History as the first team to ever beat the staff in football. What a way to go out for our seniors this year.

The junior varsity game was a completely different outcome. The sophomore and freshman students didn't have the same success as their older peers. While some seniors did help out the tired staff, several staff members were key components in the win. To keep things respectful, Jacob Maher '14 scored a diving touchdown in the 4th quarter to give the underclassmen a much needed score. That was one of the few highlights for the Junior Varsity student team. In the end, the staff was just do much for the underclassmen.

Narshon Hill '12 and Jimmie Newton '12 just giving us a nice little pose before the go on to dominate some teachers.

Runl There goes Anthony Ledoux '12 then Jordan Rozul '13 running out to field to get some action in!

"Aye!!!" Jimmie Newton '12 says right before the game and is ready for this game because his football coach (Toliver) has been talking trash all week!

Here is a group of seniors and staff discussing whether they will play on the staffs team for JV or not.

Tebow mania, There goes Mr.Burzynski giving us his Tebow pose cause thats what he is going do in the game!

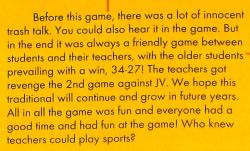

- 7 The kick is good! Nile Celaya '13 kicking an extra point for his student team and made it. To give his team an even bigger lead!
- 8. Run Ms. Macias, He's going get you! There goes Ms. Macias running a pass route while Aaron Galvez '13 is guarding him.
- End of the game there goes both teams shaking hands and saying good game after the teachers lost!
- 10. There goes the captains for both teams Andrew Fuimano
 '12 and Mr. Waddles discussing the rules with the referee

Night at the Alley

Jr. Sr. Bowling Night is a night for the upperclassmen to get together and have a good time. Juniors and seniors get to go and relax and have fun down at Stars Bowling Alley. With all the smiles, laughs, strikes, and gutter balls, the atmosphere at the alley is always full of excitement and energy.

Although bowling is a big part of the entertainment, it's not the only reason to go. While you're at Jr. Sr. Bowling Night, you'll see almost everyone dressed up in outrageous costumes. From Spice Girls to scuba divers, everyone has their own style. All you need is a group of friends and you're ready to go!

The nerds of the night swept the costume competition landing themselves in first place. All dressed up in plaid and suspenders, they definitely looked the part. Fighting for second, the "Spice Girls" and the "hippies" went head to head in a sing-off. Stealing the show, the "Spice Girls" placed second while the "hippies" fell behind.

Overall, Jr. Sr. Bowling Night was a night to remember. Everyone enjoyed themselves and had a wonderful time. It's definitely something to look forward to in the future years!

Below: Strike! Chelsea Hubbard '12 dominates all night getting the highest scores against her friends every game.

For Below: Dylan Beck '13 and fellow heroes turn heads on Jr. Sr. Bowling night each dressed up as Captain Underpants. Although not good enough to win the costume competition, they sure were a good laugh for everyone else.

Above This group of seniors are having a blast hanging out and acting goofy. They pose for the camera while in the middle of their game.

Right Kevin Lou '13 shows his friends how it's done by finishing off a perfect throw. He makes it look easy while wearing a wet suit.

Above: Arika Cherry-Jackson '12, Chardonai Rose '12, Lauren Sharp '12, Alesia Selden '12 and Armani Chilton '12 strike a pose when they spotted the camera. This group decided to go rogue that night, and dress up as themselves.

Looking pretty spiffy, these nerds were the highlight of the night. Their tight suspenders and nerdy glasses appealed to the judges who voted them as the winners of the costume competition.

Originality counts when Emily Eddy '13, Ryan Riddle '13, and a couple of their juniors friends decide to dress up in wet suits for Jr. Sr. Bowling Night.

The groups mingle as the nerds and superheroes have some fun.

Darren Evans '12, Lorenzo Hill '12, Tim Smithson '12, Daniel Lavell '12, and Austin Liddicoat '12 are all about peace and love doing it big "hippie" style.

4 It's a full house at Stars Bowling Alley! The music's playing and everyone is having a blast.

Showing off those muscles, the guys wear their superhero tanks while the girls tag along.

The lights turn off, the music turns on, and the party begins! The upperclassmen glow and bowl all night long.

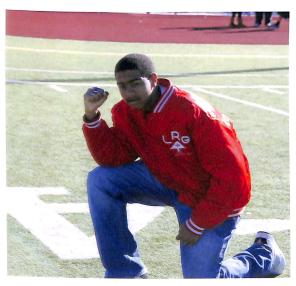

Trends of 2011-12

The school year of 2011-2012 has been filled with many trends such as Planking and Tebowing. Planking was started during the summer of 2011; it is were you lay flat on your stomach on a object like a table, fire hydrant, or even planking on other people! This trend went world wide and was probably the biggest trend ever. Another big trend had started during the 2011 NFL season by the Denver Bronco's QB (Quarterback) Tim Tebow. This trend is when you kneel on one knee and rest your right arm on it and bow your head. This started to be a trend because Tim Tebow would do it before every game as a way to pray.

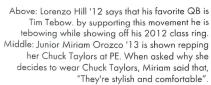

Many trends were started but there are different kinds of trends such as cloth trends. A Pittsburgh rapper named Wiz Khalifa had started a movement called Taylor Gang. Taylor comes from the name Chuck Taylor which are shoes that were created in 1908 that soon came back into fashion in 2011. Wiz Khalifa's movement went nationwide because he wore Chuck Taylors in photo shoots and would rap about wearing them too. Because of this, the shoes gained much popularity.

There are many more trends out there and who knows its a new year you can start your own trend sometime!

What will your trend be?

Right: Sophomore class clown Lucas Bowers '14 loves to mess with his Spanish teacher in class by Tebowing on the desk. Lucas says he does this because, "people thinks it's funny". Far Right: Jason Moorhead '12 is here planking while his best friend Justin McCaleb is tebowing . Justin argues that Tebowing is better because, "he is like a football god."

 Math teacher, Mr. Mikkola shows his passion for trends by Tebowing.

3. Chritian Metivier'13 loves wearing his snapback and chucks together. Asking Chris why he wears snap backs he replyed with, "I really don't know its vintage its just a new style.

Ritche Sison '13 and Joshua Braida '13 tend to mess around during there free period. They both say that they would pick physical trends then the style trend.

5. Senior Malachi Lewis '12 has to be the biggest nerd when it comes to his own style. He shows off his snap back and his hand made necklace of the Hollister logo.

6 Michael Faulstich 113 showing off his blue snap back and his vintage rock, paper, sciccors crew neck. He says even the oldest fashions like snap backs and crew necks come back in style.

Here at Armijo High there is a rule that most students wishes wasn't. This rule is the hat rule. most of the people at Armijo say that there shouldn't be a rule about hats because people these days don't wear hats for gang reasons, but for the style a hat comes with when you wear it. When you ask guys what completes there outfits, a lot say its the hat. They really don't know why, but when they look in the mirror it just looks right. The fact is, even though your hat may be best for your style, keep them at home. Obey the hat rule we have at Armijo, at least until we can find a way to change it.

Just Dance 2012

There are many different types of dancing from break dancing to ballet, but at Armijos Best Dance Crew (ABDC) all styles are welcomed. Last year was the first time that this competition was held and the winners were Heem Team. This year we were joined by three different crews. Making their second appearance were The Bangs 2, but this time appearing as an all girl crew unlike last year when they had 2 boys. The Bangs 2 included all seniors Melissa Gomez '12, Mahogany Dawson '12, Angie Gomez '12, and Adhithi Narayanan '12. Their choreography was very sharp and it was obvious that they spent a lot of time on it, but unfortunately it was not enough to get them past the first round. The Bangs 2 were joined by the second crew The Twinz, Matthew Webster '15 and Jared Webster '15, who of course had the cute factor since they really are twins making it to the final round. The last crew, and the winners of ABDC, was A Lil' Too Raw, which included Michaela Kimbrough '15 and Melvin Timtim '13. It was very obvious that this crew had dancing training as they danced with a high level of technique and difficulty.

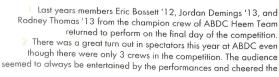

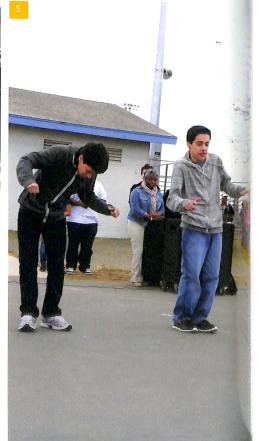

This years judges included Mr.B, Coach Toliver and returning champion from last years ABDC winning group Heem Team, Damian
Johnson.

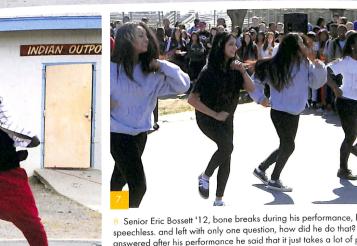

Jared Webster 13 5, performing on the first day of ABDC by doing the robot.

B Senior Eric Bossett '12, bone breaks during his performance, leaving people speechless. and left with only one question, how did he do that? Which he answered after his performance he said that it just takes a lot of practice. The Bangs 2 doing a little of a body roll which pumped up the crowd. The Twinz dancing on day two to a dub step mix of Star Wars songs. #Twining 11 A Lil' Too Raw's Michaela Kimbrough '15 and Melvin Tim Tim '13 breaking it down and getting the crowd hyper. 12 The Twinz doing the popular dance The Cat Daddy during one of their performances. 13 The Bangs 2 showed off the use of different levels and formations during their performance.

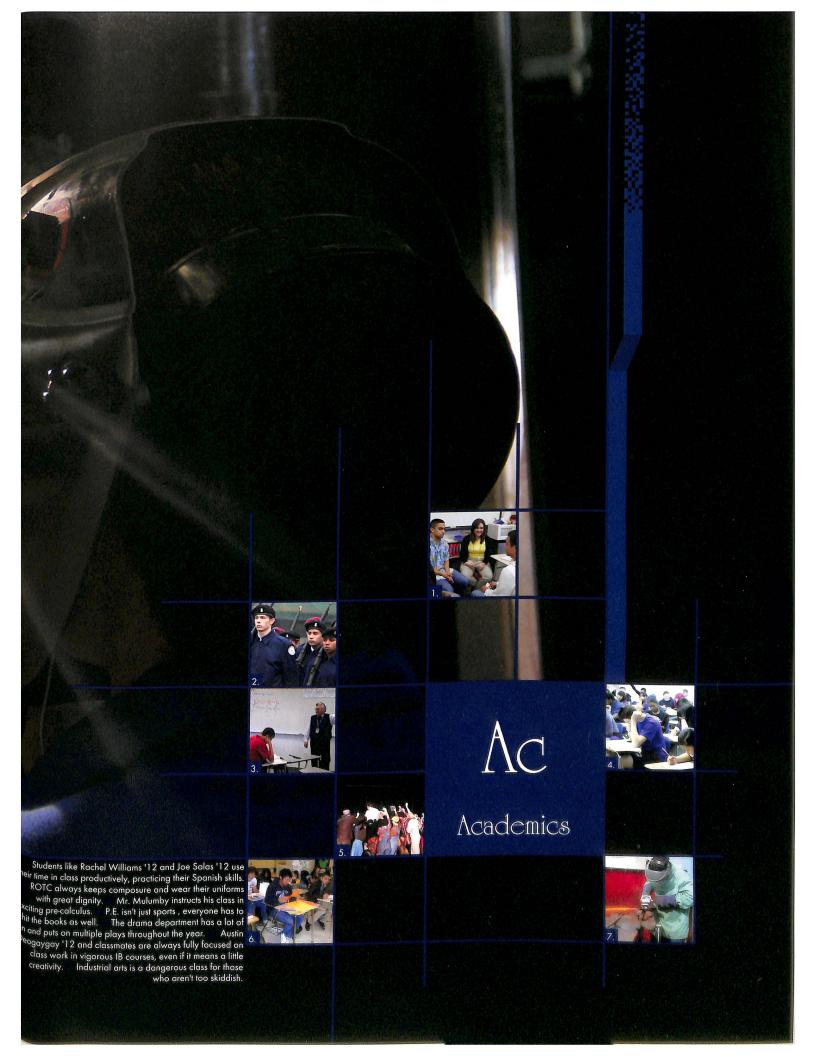

⁷ Melissa Gomez '12, Adhthi Narayanan '12, Angie Gomez '12, and Mahogany Dawson '12 from the Bangs 2, showing off their great choreography to Chris Brown's "Turn Up The Music."

Armijo has a wide variety when it comes to academics. From ROTC to foreign language to International Baccalaureate, all students have a chance to learn a lot, and still have fun with it. Education is what school is all about, but just because it is work and tedious, doesn't mean that it isn't fun. Every day there is a new story to tell and every day is filled with teachers that devote their own time to making our future better. There are always stressful times at any school, but at Armijo, students make the best of everything that crosses their path, and often are rewarded for their academic skills and hard work. There is no better place to learn and get an education than Armijo High!

Above: These are some props that Mrs. Logan had her English classes make for a little skit they had to do from the book "Candide". They have boats, swords, and even a carrot.

Above: Mrs. Harrington loves teaching English along with all the other classes she teaches. Mrs. Harrington teaches leadership, Avid, ELA English, and sophomore English.

che

Conflic

onification

Above: Navjot Kaur '12 says this about her English teacher: "I love going to Mr. Stoll's class. I love how happy he is and we always do fun projects to understand the literary works we read in class. He is solid!"

Top Left: Mrs. Logan loves John Steinbeck. Her favorite book of his is Grapes of Wrath.

Bottom Left: Jennifer Kaump '12 created a little game for IB English class involving mustaches. It was about a book her class read in English, Importance of Being Ernest. The mustaches represent the stereotypical vision of a rich guy, and the color decided which team you were on. In the game you had to describe what character from the book Jennifer had on the board to your partner.

Bottom Right: Yesenia Ramos '14 and Patnica Rodnguez '14 love learning English in Mrs. Harrington's class. They study hard and pay attention in class.

"Mustache day was a blast." Arron Beverly '12 stated. He went on to say, "Stoll's English class is the best senior class ever!" In this picture it shows the adventurous activities they participate in, in this

Above: These are some of the words we are expected to know. Our teachers even hang them around the room.

Above: English classes have vocabulary and each vocabulary word either has a rule how on to use it and/or another way to use it. This is why students pay attention and write notes down, so they remember.

A Better Tomorrow

Our English department this has started so many things to try and make this department the best it can be. English is the biggest department in our school because everyone has to take English all four years. So the teachers strive to have the kids learn a lot in English.

Mrs. Davis, the head of the department, is trying to get the district to align the Benchmark with the teacher pacing guide. The goal is to organize what the teachers are suppose to teach to keep pace with the material on the Benchmark. Using the benchmark scores might make it easier and more accurate to place students in classes.

The English teachers are trying to help each other out and the students by creating a shared folder on line where they put all the amazing ideas they have and and share them. So if you liked what a teacher did this last year who know maybe your next year teacher will do the same.

Left: Diego Sanchez '12 works on processing his data for his IB Math Studies Internal Assessment. This was a very long process and took a lot of patience and dedication to be able to process the data for the experiment

Bottom left: Anthony Floresca '12 takes the pulse of Key Vang '12 for his Math IA in which he tested if the height of a person had an effect on their resting pulse rate. Students chose their own research topics in order

Bottom right: For Lacey Konstantinopoulos's '12 Math IA she sought to find out if the sex of a person had an effect on how many words a mintute they could text from a given list of words. Here she is testing Souroush Ghaffarpour '12 who texted 27 words in a mintute!

Above: Perhaps the most famous part of our math department is long-time staff member, Mr. Molumby. Rachel Williams '12 takes notes during one of his renowned lecture moments.

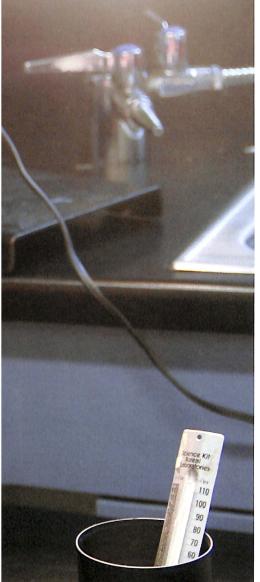

Above: Students in Ms. Macias' class take down notes from her daily lessons. Ms. Macias is an example of a teacher who tries to mix in hard work with fun and excitement during class.

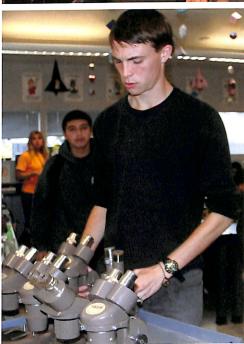

Hands on With Math

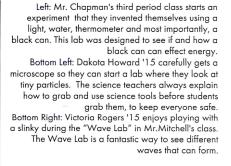

Math class isn't only about taking notes and doing work out of the textbook, it can also be hands on. Many of the Armijo math teachers try to make learning math fun by giving students hands on projects like creating something using dimensions or testing math theories using real life situations. However, the majority of the time even though many people don't like doing it, you have to take notes and do assignments out of the text book. Every year IB Math Studies has a math I.A. in which they have to come up with a hypothesis that they want to test using statistics. For example, does the number of hours of sleep a student gets a night have an effect on their GPA, or does the race of a person have an effect on how fast they can run a 100m dash. Students then survey 100 people or test them to find their data in which they then have to do various statistical analysis with and process their data to find an answer to their hypothesis.

From Biology and Anatomy, to Physics and Chemistry, any science class you take is a class full of experiments, chemicals, and labs. The thing about the Science department is, they can take any experimental question and turn it into a lab that explodes with excitement. "To have a good lab you have to start off with a good question and hypothesis" says Mrs. Rockwell, who teaches IB and regular Biology along with Anatomy here at Armijo High School, "then you design a good, fun procedure that gives you good measurements, that you can then analyze for the conclusion."

Many labs and experiments are done throughout the school year and most of them are labs that you will never forget. Whether it's heating up hot dogs using electricity, crushing a can using hot and cold water, or finding out how far you can shoot a potato with a potato gun, there is always something new. "I loved the potato and hot dog labs I did my freshman year in Mr. Chapmans class" Kristina Owens '13 says, smiling at the memories, "they were all just super fun and unforgettable!"

Above: Jason Francis '15 squats down on the ground for the Wave Lab in order to get correct waves.

Above: When students are not doing labs, they are still having fun filled conversations during a normal day in science class.

Above: Work, work! This history class studies hard while hitting the books.

Above: Howie Tomson '14 and Christopher Parodi '14 study hard in U.S. History to learn about how our country's past affects our country's future.

Above: The students are all ears while listening to Mr. Blakesmith's lecture on U.S. History. There's no room for side conversations when there's so much to learn!

Left: Haley Bergam '14 writes some notes to help her remember for upcoming tests. Notes are especially necessary in this Honors U.S. History class. Bottom Left: During class discussions, the students listen in attentively to Mr. Blakesmith and his lectures. History, being an interesting subject, captures the class with the exciting stories of our country's past. Bottom Right: This class of sophomores write rapidly as Mr. Kalaf-Hughes teaches them about the past. They all sit quietly and pay attention to the lesson in order to do well and soak in all the information.

Above: All smiles, Mrs. Ramirez helps her students out while cracking a few

Above: Taught by Mrs. Ramirez, this group of students are hard at work in hopes to earn good grades. With their noses in the books, I'm sure they learn a lot.

ur History, Our Future

The past, the present, the future; it all ties together. Here at Armijo, history is a big part of our education. It is required that all students take at least three years of history in order to graduate. We learn a lot from our past. What to do, what not to do, and how to learn from our mistakes. Whether it's your past, your country's past, or the world's past, it all affects the future. When asked how he thinks our past affects our future, Trent Baker '15 responded with, "Everything is related so if you make good choices now it will pay off in the future." Having a completely different outlook, Dallas Hinton '14 answered, "The past doesn't affect your future, you decide your own future."

Like any other subject in school, sometimes history is one of the favorites. Arika Cherry-Jackson's '12 favorite part about learning history is "finding out interesting things about the past" while Nick Bastian's '13 favorite part is learning about the "60's counter culture because it's a big influence on me."

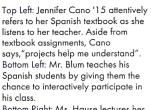

Above: IB French students make the best out of their small class size, which is 13 students. "I like that we all know each other and are able to work collectively on different things," says Denise Martinez '12.

Above: Georgine Manasan '12 performs a class commentary in French, a way to practice for her upcoming IB oral commentary.

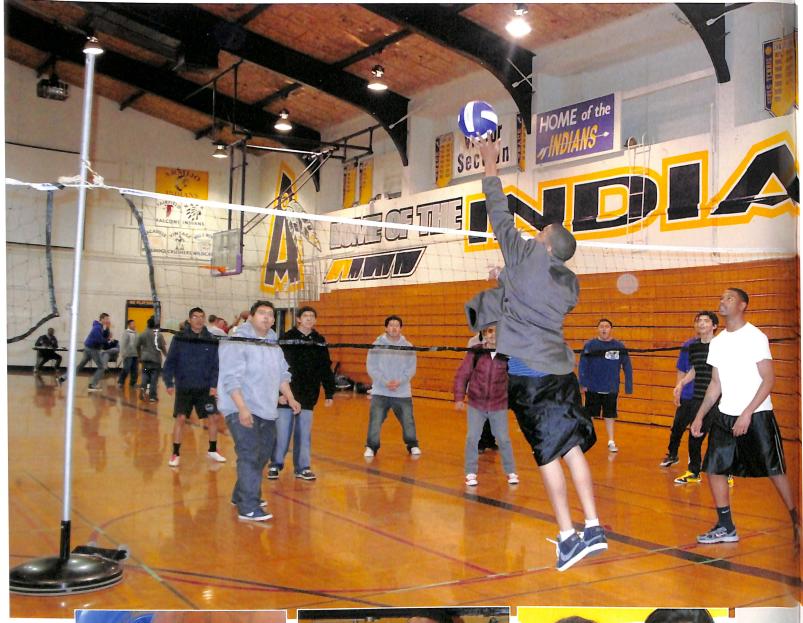

Above: Brianna Brown '14 and Josh Mayer '14 study new vocabulary in their Spanish 1 class.

Above: A student participates in class as he learns new vocabulary with the whole class.

A Piece of the World

Being bilingual is an advantage that will help you throughout your life. Armijo offers both French and Spanish courses ranging from first year to International Baccalaureate classes. Students make the best of these opportunities by actively participating in class. Through interactive activities, students learn best about the culture and language of the countries they are studying. Taking a foreign language class motivates students to learn more about the world around them, and helps them become open minded individuals. "I want to learn about a different culture and language," says Josh Mayer '14 as he explains why he was interested in learning Spanish. This is important in Armijo, a diverse school that is open to a variety of cultures.

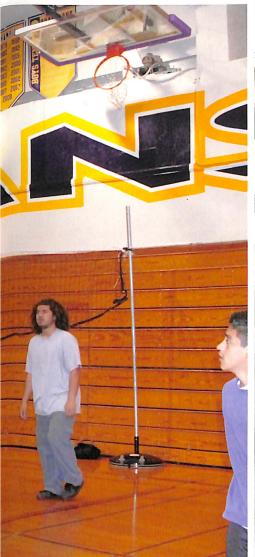

Marisol Pantoja '14 and Lizabeth Silva -Duran '13 hangout on the bleachers on this rainy day and have good conversations about everything.

When Ike Obinna '12 thinks of Physical Education, his first thought is running. He says he loves to participate and get involved with different sports.

P.E. teachers incorporates many different sports into their curriculum . The diverseness of the sports played really shows students the variety there is and helps gets them active.

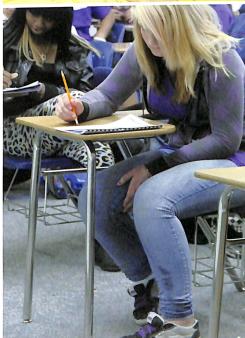

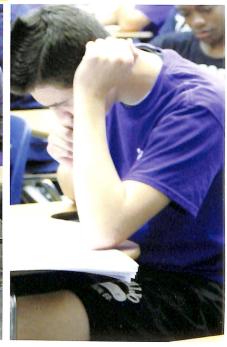

Lorenzo Hill '12 goes up for a spike in the big picture above. Volleyball is one of the many sports in which students play in Physical

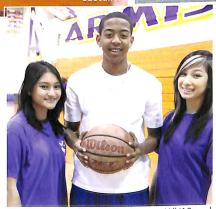

Mr. Trigg has been a Physical Education teacher here at Armijo for many years. "Students are amazed later in life how P.E. fits into a lot of other things," said Mr. Trigg. In the photo to the left he is grading some of the tests his students have taken." Assessments are a very important part of Physical Education. Sometimes my tests are activity based, however, I like giving cognitive tests also. Pictured right below Mr. Trigg, is one of his freshman students Jessica Froedge '15, and to the right of her is Elijah Dobles '15. Jessica and Elijah try and do the best they can on these assessments given to them. "Some are very easy, but sometimes they can be difficult," Jessica says.

Senior Eliseo Tapia '12 says P.E. is important to him so he can get fit. "I try to encourage my friends to participate with me."

Vanessa Villanueva '12, Lorenzo Hill '12, and Stephanie Kelly '12 are caught taking a little break from basketball. These seniors are all in P.E. this year to higher their GPA and get the credits they need to graduate.

Lots Got Physical!

Physical Education is a course taken that encourages psychomotor learning in a physical playing environment. Here at Armijo we have plenty of teachers who have the experience and skill to help students become fit and knowledgeable about their bodies. Physical Education has four aspects that make it unique; physical, mental, emotional, and social. As oppose to sitting in a classroom, these students learning by actually participating in the unit they just learned about.

Wearing the proper attire in P.E. is necessary because when you wear loose clothing, your body has room to breathe. When you're wearing jeans and tight fitting clothing, you don't really have room to move around and do the activities to your best ability. The P.E teachers are well aware of this and make it a requirement to dress out. "I dress out to get my points so I can get a good grade," a student said.

person in class.

Above: Andrew Saeteurn collects the recycling from the classes around campus. The money made from recycling cans, bottles, and paper goes towards funding the students' weekly cooking lessons, allows the classes to put on birthday celebrations, and pays for field trips for the class to enjoy.

Above: Students in class receive positive notes when a teacher 'catches' them doing something good.
This could range anywhere from dancing with a
senior center client or helping someone fix their hair.
This encourages students to act politely and go out of
their way to help someone else.

ve beccaughting something

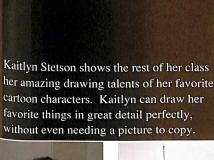

Right: Julie Vasquez is a student that has the chance to work in an outside job during school hours through the Workability program. Julie works downtown at Rosanna's Bakery on Thursdays doing simple tasks but still says that she "absolutely loves her job". Julie says her paychecks are going towards buying a plane ticket to Mexico so she can attend her cousin's quinceañera.

Below left: Eduardo Alvarez works on making the meat for a meal he and his classmates will enjoy later in the day. Having a full-functioning kitchen inside the class helps teach students basic skills like making meals or cleaning dishes.

Below right: "DJ Kristian", as he likes to call himself, plays the role of classroom DJ-ing guru. He is not shy at all and likes to dance around to the music played in leisure time during class.

Above: Erick Silva works in the computer lab on programs to help with his math skills. With the introduction of student Gmail accounts this year, students learn how to send emails to one another and can talk to each other even when outside of

Above: Karaoke is a commonly rewarded activity for students in class. There are many different ways that students get to show off their own talents and skills. Lessons in class for these students vary in that sometimes, a lesson might not necessarily be knowledge-based. Even things like karaoke can be educational and encourage the students to be able to have the confidence to sing and perform in front of others.

Life Skills Education

Talents. Skills. Exceptional abilities. Special gifts.

The students in the Individualized Learning classes all seem to have these advantages to help them through their daily classes. Because the focus in class is not so much knowledge-based, the daily life skills that they are taught allow them to implement them into everyday life situations. Whether it be learning to write a check or how to cook simple meals for themselves and others, the lessons given in class are priceless. With the addition of Smart Boards and iPads in classes, lessons can range to give students the chance to learn and show off their own individual talents and skills. The variety of lessons and activities done through this class allow each and every student to grow into a more well-rounded individual both in and outside of the classroom. Every student has something to offer and unlocking that unknown specialty is what this class is all about.

Left: In auto shop the students work on a type of motor for something in a car. The students in this class can work on a numerous amount of different things in this auto class.

Bottom Left: Senior John "JR" Williams '12 works with the skill saw to cut out a name in wood shop. Many students in wood shop enjoy cutting out different words and shapes in wood shop for keepsakes.

Bottom Right: Student Carlos Leuterio '12 works with the grinder to smooth out a metal piece is welding class. students in welding class can do a numerous of things from smoothing metal, welding metal, and stamping out letters in metal.

Mr. Blanco helps out a student during wood shop he should do next on his project. Mr. Blanco has to students do big projects, like ticket booths, to half

Above: Mr. Blanco, the Wood Shop teacher, draws a sketch out for a student. He sketches all the drawings for the students to cut out in class.

Above: Randy Gipson '15 hammers metal to stamp out a name in welding class. He says he "enjoys welding class and getting to make things with metal."

Auto shop, wood shop, and welding aren't just classes to some students at Armijo. To some students, this class could help shape their future. These students take these classes to get ahead for future careers, while other students take it because they heard it was a "fun" class.

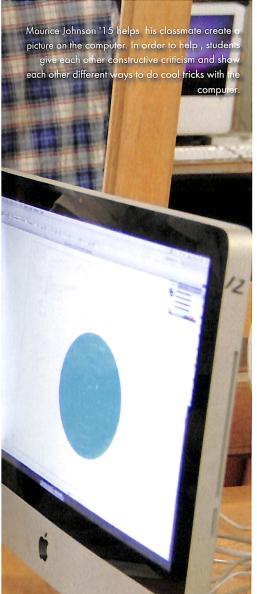

oove & Beyond

In wood shop, students can make a numerous amount of things with just a piece of wood. Students can cut out names are design the teacher, Mr. Blanco, draws for them. These wood shop students are also volunteers for the community, they go during class to Habitat for Humanity, which helps build houses and various things for the community.

Students in auto shop can bring their car in and work on it if they have car troubles. Auto shop can help a student with their future in that the class can help further them with education on cars to help them in the future.

In welding, students can stamp out names and words in metal by hammering down templates in a sheet of metal. These students can even stay after school to stay a few hours after school to do extra work on projects or just to further their welding skills.

Left: With these laptops and the use of many different helpful websites, students can get their work done in not only computer class but also in other classes too.

Bottom Left: Johnathan Williams '12 uses Mr. Summers' "campus best" computers to his advantage, watching a live stream of the NCAA tournament during March Maddness.

> Bottom Right: Calvin Chao '13 starts his time in computer class by opening that art website and starting his project for the week.

Above: Aaron Green '13 checks out the Basketball game during his free time in computer class.

Above: Maria Cruz '13 is working hard on one of her projects for Mr. Summers' class. Projects that come from Mr. Summers are notorious for putting someones face on the most absurd backgrounds.

Technology has been rapidly increasing over the years. It has become a part of students every day life through cell phones or computers. It seems like there is a new iPhone every week and there are always updates on your computer for better programs. Although the students use it for socializing and fun, Armijo uses it to teach students about the art they can create.

Not everyone can afford a desktop computer or a MAC laptop; that's why Armijo High School has acquired these different kinds of computers over the years. Since technology is advancing so quickly, our computer arts program has started to grow as well. The computer arts program offers many courses that will help with technological advances. The courses offered here include help with photoshop, photography, filmotography, and other multimedia based instructional tools. The courses go in-depth of all the subjects and help you master them.

Left: Give it up for the Wall of Fame! Students get to show off their amazing art work if they receive an "A" or better on any project they do.

Bottom Left: Careful where you place things! When working with glue, art students must make sure that they put everything exactly where they want it.

Bottom Right: Can't make art without supplies! Students carefully grab all the paint, paper,or anything else they may need before they start creating their art.

Leticia Lopez's '12 mind explodes with ideas when she gets inspired. In this art piece she has a collage of things like an owl, a sun and a girl thinking of a

Above: Classmates are all smiles as they make license plates for their future cars.

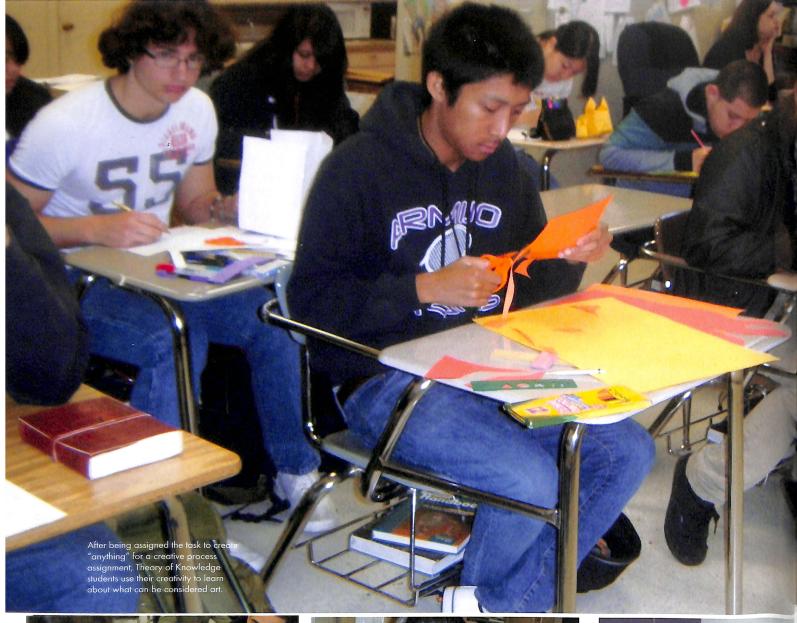

Above: Oscar Ramos '13 and Edgar Plascencia '13 unleash their artistic skills while painting a picture. The picture that they were assigned was suppose to be their interpretation of nature

<u> Express</u> Yourself!

Take a second and think about something you want to say. Don't say it out loud, just think about it. Then grab some color pencils, paint, and maybe even some glass pieces, and try to express that thought using art. That's what the art students here at Armijo try to do with every art piece or project that they get. "The main thing that I try to teach any art student is how to express themselves without words," say Mrs. Laveall, who is an art teacher here at Armijo, "you have to take something that you want to say and connect it to an image."

Every piece of art work that these students make have to have their own unique look to it because every student has something different to say and are inspired by many different things. Some students are inspired by a quote that they heard or an event that they went through. Some students are even inspired by life itself but, no matter what, they can always express themselves in a creative, artistic way.

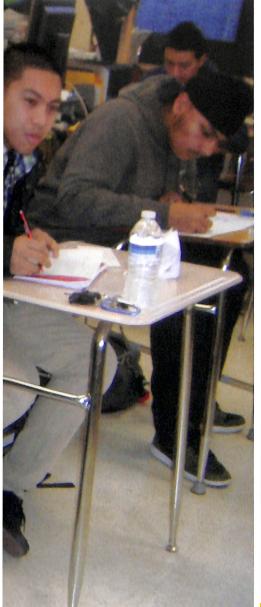

IB Spanish students Sofia Brayton '13 and Soroush Ghaffarpoor '12 discuss the symbolism behind a story.

Maria Salinas '12 shows her creativity as she works on her art assignment for her IB Visual Arts SL class.

Angel Garza '12 enjoys a donut after completing the stressful English oral commentary for M

Bottom Right: Sologne Patterson '12 uses precision as she paints her work of art.

Seniors (lett to right) Singh '12, Sanchez '12 and Floresca '12 present a knowledge issue to their Theory of Knowledge class.

IB, Taking the Right Path

Extended essays, internal assessments, oral commentaries...the list goes on for an IB student. Sometimes life may get hectic for IB students, but the learning experience will last a lifetime. Armijo's International Baccalaureate Program has attracted many students and is helping shape not only the leaders of tomorrow, but the leaders of today. Armijo students in the IB Program are well rounded individuals involved in CAS (Creative, Action and Service) activities while maintaining above average grades. To be in the IB program, you definitely have to dedicate your time to your academics and be motivated to succeed. But IB is more than just academics; class curriculum teaches students to take risks, be reflective, creative and open minded. IB students participate in a variety of class discussions that allow them to consider ideas different than their own. Such classes include IB Philosophy SL and the required IB Theory of Knowledge course for seniors. Students learn from each other and gain new insights, preparing them for higher education. Undoubtedly, IB students are taking the right path towards success.

Above: Every Monday the ROTC students are required to wear their uniforms in which these logos are shown. They are not only to show discipline and respect, but to be able to wear this logo is a symbol of pride and honor.

Left: A large group of ROTC students march down the Downtown Fairfield streets in unison; their heads held high, arms straight to their sides, and hearts filled with respect and pride. Below: This salute is a symbol of respect. It is very important that the ROTC students greet their

sergeants to show they are ready to start with their

Your Future Future

ready to go.

Above: Jose Sanchez '13 checks Jesse Marin's '13 class big community service event. They put boxes in every class to recollect children's toys and other to the ROTC class that they are presentable and everything is in place and

"ROTC isn't only about military, it's also about leadership, life skills, and working together," says Maggie Kushner '13, "this class gives you something to look for in life, and it's like we're a big family because of it."

In ROTC, students learn a lot of skills that help them in their future. They do many stillings registed things like gaing on field trips, building register, competing in deith.

Starts

In ROTC, students learn a lot of skills that help them in their future. They do many military related things like going on field trips, building rockets, competing in drill competitions, and participating in community service. However, these things aren't just for fun, they all contribute to the development of life skills these students will need and possibly use in their future to be successful. One of the main things these students learn is leadership. Master Sergeant Santa understands that not all students are going to be leaders, some will be followers, but what matters is that they learn the skills they need to be either one. The ROTC students also do a lot of other things like physical training and getting taught a lot of educational things in order to prepare for college. While some students decide if they want to go to college, others may want to join the military, which is another thing this class/club prepares them for.

Some students have been involved in ROTC for all 4 consecutive years and as they grow comfortable with each other, it is important that they are able to rely on each other for help. One example is Master Sergeant Santa: she listens to the students as if she were their own family. The trust grows, and a lot of the students wouldn't be as open and comfortable with each other if it wasn't for ROTC. In the end it's all about working together and leading one another to success through the skills they develop in this program.

Above: Sara Tralka '14 signs into the Drama Club meeting. A clipboard is passed around for attendees to sign in and answer a fun question thought up by the club presidency.

Jonas , played by Sydney, is the last to receive his assignment , which is startling to everyone in the utopia.

Above: In a tragic improv scene Sophia Zepeda '12 mourns the death of Maile Akui '12

Above: Mrs. Choy instructs the club on the important aspects of improv. To have the best scene you can it's important to always say yes and not argue.

A Dramatic Change

Drama Club has always been active on campus with school plays, but it's made some changes. By altering their ways, the club has completely transformed. With two meetings a week they have plenty of time to handle business and play games all the members love. The presidency tries their best to make meetings fun by changing up games they play, ranging from "Hitchhiker" to "American Idol" to "Freeze." Club Vice president Sergio Cabada '12 says, "I am proud to be Drama Club. I have been in this organization from the earliest dawn of my freshman year, and I have first-handedly witnessed the changes and improvements in the last almost half a decade. It is a place where laughter is rampant, friendships are forged, and memories are made that last forever. I loved every second of it." Something that hasn't changed is the club putting on fabulous shows. In the fall they put on "The Lottery" and "The Giver." In the Spring they joined forces with Fairfield High to put on Roger's and Hammerstein's "Cinderella." Drama Club certainly kept themselves busy, but laughed and smiled through it all.

ののでは、これのでは、こ

(Left) Jacob Less '14 and Erik (Bambi) Rye '12 both are playing the trumpet to the Jurassic Park theme song during the Winter Concert. When asked what inspired him, Rye said, "Jacob is my biggest inspiration. I make sure to sit next to him whenever I can!" (Bottom Left) Preparing for the march, in a close circle, band shows how much of a family they have really become. (Below) Sergio Ortega '12, Drum Major, has worked hard for hours after school, to be the leader of the entire Marching Band.

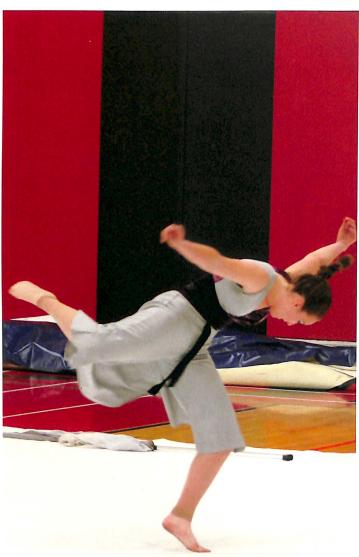

"The Super band is a group of diverse individuals, we have volleyball players, baseball players, wrestlers, leadership, golfers, swimmers, tennis players, drama people, track and field people, and so much more students all brought together by music." -Shia Stennis '12

<u>The Beat Goes On</u>

The love for music on campus is so big that the Armijo Band is one of the largest and most successful programs at Armijo. This passion is what brings together all different kinds of students from all over Armijo. Jacob Less '14, who has been involved with soccer, tennis, and baseball, plays the trumpet in Wind Ensemble, and said, "I really like the uniqueness of the class. As a band, it's about the different instruments blending together as one sound, so it's really cool to have so many different people in the class bringing something new to the class. Band, especially with all the sports I play inside and outside of school, is a good blend but also a balance with everything I do."

Like any other organization on campus, band has developed a family-like atmosphere. Long bus rides to different competitions and all the hours spent together full of laughter and fun, are some of the best memories that these students will share. Band truly brings the element of uniqueness to Armijo, without Band, Armijo would lose it's rhythm.

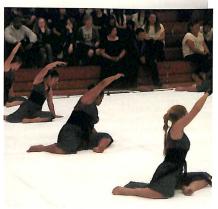

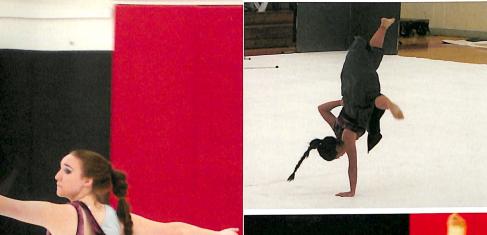

Above: BreAnna Overman '13 is tossing a sabre during practice. The gorgeous smile on her face is because in guard, you have to practice how you perform!

Above: Rifle Section Leader, Courtney Bojorquez '13, and the rest of the rifle line have fierce expressions as they are about to start their march with the band. Perfection is required, because every drop affects the overall score on their performance and disrupts the show for the audience.

Above: Kyra Gillespie '13, Jasmine McGee '12, and Brittney Kino '13 begin the show in the 'set pose'. The overall effect of a great performance doesn't come from an individual person, it comes from the absolute unity from the entire guard.

Left: Kristine Fernandez '13 is in mid-cartwheel during their District Show performance. The performance aspect of guard is one of the most exhilarating experiences. Every guard performance has to embody an emotion and captivate the whole audience into that very emotion.

Below: Kyra Gillespie 13 is absolutely focused and lost in her performance. Kyra and Mackenzie Bishop 12 are captains for the guard, she said "As captains, we are supposed to be the rock and be role models for the rest of the guard. We have to keep the guard motivated and focused, while still pushing them to be their best." However much they try to push themselves and their guard members, "the family atmosphere is also really special. We spend so much time together that they're like brothers and sisters," says Mackenzie.

Above: The guard takes about 2 hours to get performance-ready because every show requires dramatic hair and make-up. However stressful this time may be, they always find a way to relax and enjoy their time together.

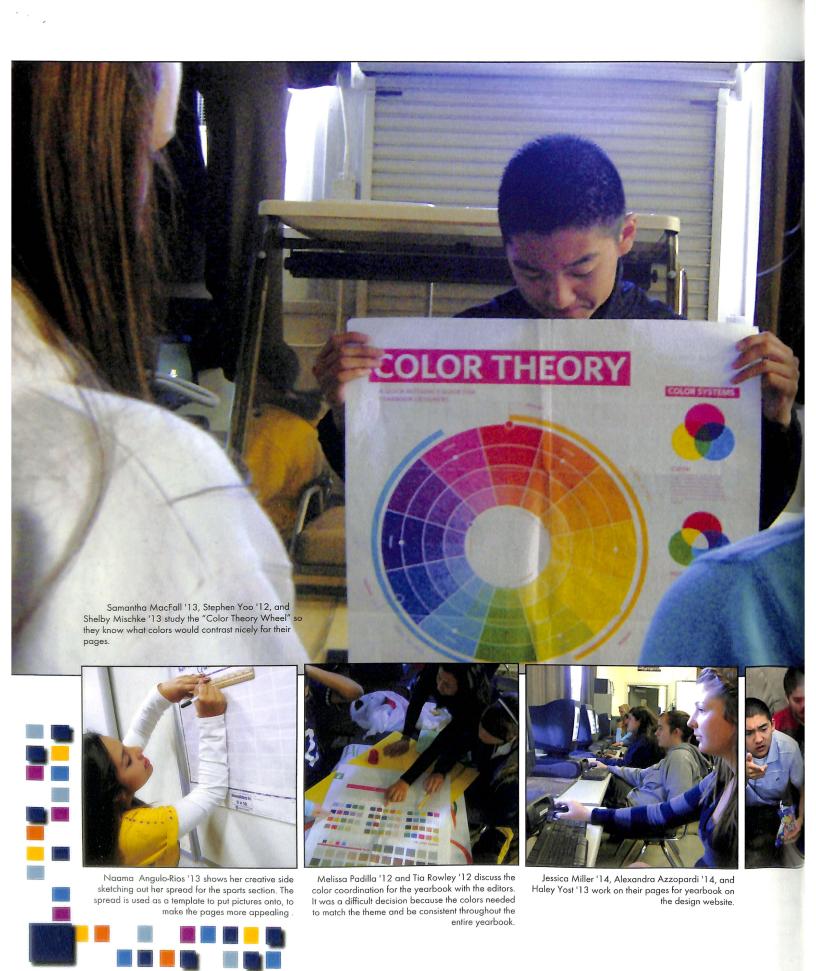

Above: Kelly Luthy '14 and Isabel Jones '14 march down the street to their march 'Atilla' by Fusik. Armijo is known for pushing their boundaries during marching seasons. This year, new rules were implemented and their routine had to be a lot more innovative in choreography and drill. Even with the rule change, Armijo still kept their style and set themselves apart from all the other traditional styled marches and had a successful season, sweeping the other guard competitors at the Tournament of Champions.

Absolute Commitment

Passion. Strength. Flexibility. Coordination. Focus.

Color Guard requires all of these things along with absolute mental and physical endurance. Guard members have to have the ability to be entirely composed while tossing, tumbling, and moving all over the floor. However, before the performance comes practice. Guard members have to be 100\$ dedicated to their program- and to the rest of their group. They practice for about 3-5 hours daily, and even come on on Saturday's for 12 hour, all day, practices. Perfection is a necessity when it comes to competing, and as champions, they understand that the only way to achieve it is through long, hard, practices.

They have to be able to make a perfect toss, with a perfect catch, and look as if it is the easiest thing in the world to do while marching down a street or moving around a floor. Though marching seasons are different than the Winter season, the difficulty is just the same. Consistently sweeping 'Champs' in every season simply proves how passionate the guard is about what they do. They bring an element of absolute commitment to Armijo that no other program does. Armijo will always be a Champion through Color Guard.

(Far Left) Emily King '13 poses for a picture in her best smile. Let's not forget that amazing flare.

(Near Left) Breana Hardy '13 can't help but keep her smile on while being a photographer. Her pictures are stunning, with her fun ideas.

(Bottom) (Top; Left to Right) Jenna McFall '13, Corrin Healey '12, Jessica Barker '12, Sydney Sjoberg '12. (third row from the top) Christina Cieslewicz '13, Jocelyn Gonzalez '12, Roberto Gutierrez '12, Emily King '13, Kristin Russell '12, Jerry Sheiring '13, Melissa Padilla '12, Kyra Gillespie '13, Tia Rowley '12. (fourth row from the top) Michael Tong '14, Trevor Flynn '13, Alaysha Finley '12, Jessica Miller '14, Haley Yost '13, Alexandra Azzopardi '14. (Bottom row) Shelby Mischke '13, Allana Burnham, and Billy Cimmino.

Stephen Yoo '12, and Micheal Tong '14, snack on some candy while while helping Billy Cimmino '14 with selecting pictures for his page.

Kyra Gillespie 13 uploads pictures for all the yearbook staff. If there were no pictures the yearbook would be pretty dull and just clusters of paragraphs.

The Art of Yearbook

Yearbook-making is the art of preserving the best memories possible, by creating an angle to go with your story, writing captions that are fun and informative about what's happening in the picture, taking hundreds of pictures to get the most yearbook-worthy pictures to feature for that story.

Though yearbook is a class, there is a lot of work that happens outside of the 3rd period time frame. Yearbook staff have to make sure that they get pictures for their pages at different club meetings, school events, sporting events, and interesting students around campus. This year, the editing process was made a lot easier by making it accessible from home computers.

However, while the Yearbook staff is working hard on and off campus to make sure that memories are being recorded, they are making memories of their own. Haley Yost '13 said, "Yearbook is a lot of hard work, but the experience and all the time I spent with the rest of the staff was a memory of it's own that I will never forget."

Mr. Burzynski puts a video on the jumbo tron in the

gym. The ASB panel put together a Respect video for the rest of the class. Everyone enjoyed it and were inspired to make their own Respect projects...

Standing at the podium from left to right is Astred Castro '14 and Sarhea Reyes 13'. They are giving a morning announcement for the rest of the class to be updated on the most current events.

Gabbi Nathan Funk '14, in the History and Media committee. She is making a poster to promote the dance event at Armijo called Armijo's Best Dance Crew.

This is called the 'Big' leadership class. This is

the class that organizes both large and small

vents around campus. It is the most accepting,

and largest Leadership class in the District.

Without this class, Armijo wouldn't be as

involved as it is now. It starts everyday in the

gym at 7:00 am!

The 'Big' Class

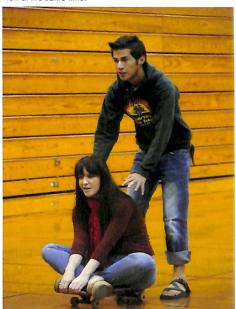

Ever wonder what the leadership class does at Armijo? Well, they are in charge of organizing, planning, and cleaning up after a big event at the school. They host most of the events here that help the students become more comfortable at Armijo. The school would be very different without the leadership class helping out.

The leadership class puts on events at Armijo such as Blood Drive, which happens twice a year, Homecoming, Lunch Time Activities, rallies, dances, and last but not least our club fair which invites students to new clubs and to get students to come out of their comfort zone. Leadership organizes each event by putting committees in charge of the specific event. The committees have to organize how each event goes and all of the conflicts they may face.

All the people in Leadership are more than just random students though. They also work their hardest to be model students on and off the campus. The leadership class is one of the largest, most productive classes at the school. Their may goal is to make Armijo the best it can be.

(Left) Kyle Eledge '14 and Victoria Renteria '15 hold up their partner projects. After getting to know each other, they realized that they have both similar characteristics because they both believe to be teddy bears who play sports.

(Below) Shayne Taylor '12 and Kathleen Finnigan '12 are demonstrating how to do a skateboarding activity for a Fun Friday. They are two of the great ASB officers promoting teamwork skills and having fun at the same time.

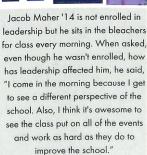

Commitment to the Class

Mr.Burzynski is smiling because he is proud of his leadership class and knowing that they have had a very successful year.

Kira Wilbanks '15 and Adhithi Narayanan hold up their partner projects. we asked Kira why she drew a bee hive and she said, "That Adhithi is sweet like honey and busy like a bee!"

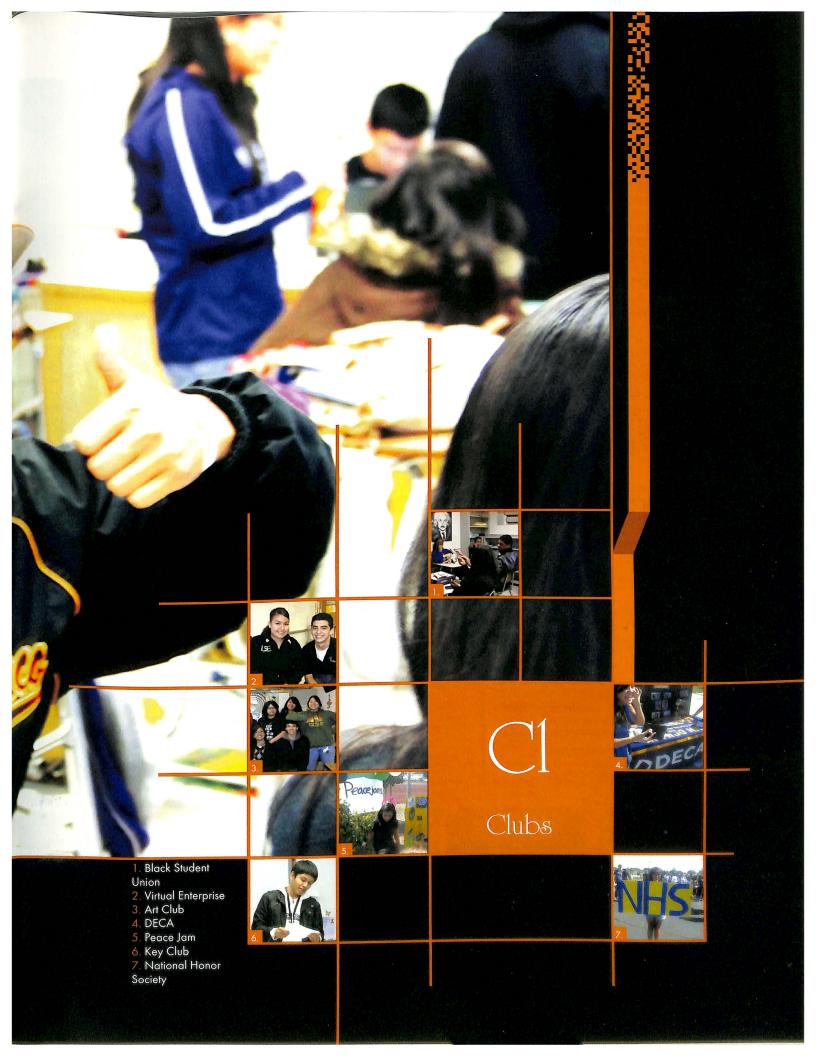

Armijo prides itself with having an overwhelming 30 clubs on campus and that number will continue to grow. Every year more and more clubs are created and more and more students become involved. There are so many different kinds of clubs at Armijo which means that everybody can find something that they like. Clubs on campus are fun, interactive, and always accepting of new members. Whether it be simply doing something you like, helping out at school events, giving back to the community, or trying to save the world-clubs define Armijo. Clubs are a vital part of Armijo because they contribute so much to the culture and atmosphere of the school. The diversity of clubs will always be one of Armijo's most interesting elements.

Art Club is a place for art lovers of all kinds. In the club, members share their art with each other when they complete a project, and help expand everyone's understanding of art. Every person has their own style; be it graffiti, paper, painting, and so on. The Art Club put together a field trip to go to the San Fransisco Museum of Modern Art to expand their understanding of art. Club President Chelsea Oanes '12 says, "My favorite thing is that the members are really friendly which is why I have a group of friends outside of classes. I like seeing their different art styles because everyone's is different."

1. The club members all eat their lunch together at the start of the meeting. 2. Art Club is a place the members like to go to hang out with their friends, 3. Chelsea Oanes '12 informs the club on upcoming business. 4. The members of the club raise their hands in agreement to proposed business.

Amani Marini Maria Meza Amanpret Kaur Princess Mia Chelsea Oanes Soria Tang Robert Kim Leilandra Mariano Mary Salvani Shivani Dain Sabrina Downhill Samantha Ignacio Lavarius Garcher Jemy Diaz Mercedes Uson

Those in Key CLub know that the club is all about looking for opportunities to help and better the community. In the meetings they reflect on past projects, plan new ones, and take ideas from the members. "After we finish a project we don't just do it to feel good, we do it because we are into it, and we do it out of the kindness of our hearts and dedication. Our members and I mature which is one of the main things about Key Club, bettering yourself," says club president Joseph Casilang '12.

1. Every corner of the room is filled during club meetings, even the tables in the back. 2. Joseph Casilang '12 reads off business for the meeting. 3. Members listen intently during meetings, being sure not to miss anything. There is always some time during the meetings for members to just hang out.

Aqueel Moss Nadia Jackson Brionna Yiggins Tyra Holt Jaimi Garlington Zhane Garlington Ure Obioma Julio Gonzalez Nigel Jackson Christine Smith Jessi Bossett May Saenkaew Ahliyah Brown KaJanae Walton

BSU

Black Student Union

Like the club mission statement, "defying the odds," says, the members of BSU always try to go above and beyond. The club helps the members understand African American culture. With that, it motivates African Americans to go to college. The club often has guest speakers attend meetings to educate them on many opportunities for African Americans, including college spotlights and scholarships. Club president, Aqueel Moss '12 loves being in BSU. "It makes me feel empowered. I'm making a difference."

1. BSU is full of members who are close friends. They showed some major love on KaJane Walton's '13 birthday. 2. Members of BSU chat about college prospects while they chow down on lunch. 3. Students fill the room with their friends at BSU meetings. 4. Aqueel Moss '12 holds up a catalog for Alabama University.

DECA

In DECA the members are preparing for careers geared towards marketing, finance, hospitality and management in high schools and colleges all over. DECA goes on the road to display their skills and knowledge to other DECA organizations. After DECA members are prepared academically, community oriented, professionally responsible, and experienced leaders. Members have all sorts of fun at competitions, traveling, and just hanging out.

Journalism

The Journalism Club is the reason why we get a chance to read about events, different students, and sometimes even get Jamba Juice coupons. The Armijo Signal is something the Journalism members take pride in doing. Ms. Herring is the adviser of this club, and she has been here since 1996. The first edition of the Signal was printed in 1996, and the 150th edition was recently printed in September of 2011. Lucy Altman-Newell '13, Caleb Rounsavall '13, and Aurthur Mestas '13 are all editors this year, and they all partake in different sections of the Signal. Journalism is a very welcoming club, and the more people helping with it, the better.

1. On this day Ms. Herring, the advisor of Journalism, is captured working on the computer taking care of things for the Armijo Signal. 2. Lucy Altman-Newell '13 takes a moment for a photo opp. This year Lucy is the Editor-in-Chief of the Journalism Club. 3. Juniors Caleb Rounsavall '13 and Arthur Mestas '13 spend their Tuesday afternoon lunch in C-3 as members of the club. 4. Members Katherine Calero '13 and Kevin Cash '12 say they use old issues of the Armijo Signal for ideas for the next issue.

The Filipino Club creates awareness of the culture of the Philippines. They celebrate Filipino culture, food, and art. Some members were born in the Philippines and want to feel a little more of their home here in the United States. Kabataan is the annual talent show put on by the Filipino Club. It takes a lot of time and dedication from each member of the club to make it a success. Filipino Club is a great place for you to explore your culture if you are Filipino; or if you're not, to expand your knowledge and learn about something new.

1. Mr. Inserto, the advisor, is captured getting Kabataan all ready to go. 2. Matthew Santos 12 is this years club president, and he enjoys being a part of this club.
3. Club members Trini Phan '12 and Mark Dumlao '12 pose for a picture. 4. Members of the Filipino Club take time during a meeting to pose for a picture.

Virtual Enterprise

Virtual Enterprise is a program that simulates businesses for students in order to prepare them for work in a real business environment. Through this, students learn about the nature of business, the management and structures of businesses, products and services, and the daily operations of running a business. The teacher places emphasis on using the latest business software, communications, and the Internet for business transactions. Students may also use the guidance of a consultant (the teacher) and real-world business partners to help them in this learning experience.

1. Mr. Gutowski is the Virtual Enterprise adviser this year, he helps the students and answers any questions they have. 2. Wendy Fonseca-Valdovinos '12 and Alexis Perez '12 take a little breather from managing their companies and smile for the camera. 3. Working on the computer is one thing Natalie Davis '12 does to keep up with her tasks in this class. 4. Pictured here are two company's logos; Lifestyle Electronics, and Epitome Exclusive Clothing.

DVD Yearbook

DVD Yearbook is a digital production class designed to capture student life events, sports, and other events on campus. Editors Lacey Konstantinopoulos '12, Wasila Karaouni '12, and Vanessa Villanueva '12 decide which events they want to be shown on the DVD. Students sign up for the events in which they want to edit. Once all the videos are captured, Lacey, Vanessa, and Wasila put it all together as one. There are different elements to the DVD Yearbook such as live footage, music, and audio. "The DVD Yearbook to me is more emotional because of the audio and song," Wasila said.

1 Mr. Summers, the DVD Yearbook advisor enjoys enlightening his students with new ways of capturing memories. 2 Senior editors Vanessa Villanueva '12, Wasila Karaouni '12, and Lacey Konstantinopoulos '12 are usually behind the camera, but in this snap shot they are in the front. 3 Alan Ruiz '12 and Aqueel Moss '12 are caught working on the Adobe program used to create the DVD Yearbook. 4 Staff members Cornelious Johnson '12 and Derrick Little '12 take a little break from their work and relax for a

Club 180

Club 180 meets on Tuesdays and Thursdays and teaches students to love others and to glorify God's fellowship. The President of the club is Kaytlin Holbein '13 and the Vice President is Rachel Williams '12. Club 180 influences its members by encouraging a relationship with God and teaching about the Bible. The Club reaches out to others and making them feel welcomed. This year, the club put on and managed a canned food drive to give back to the community.

1. VP Rachel Williams '12 starts the meeting with a reading from the Bible. 2. Teacher-Adviser Mr. Mikkola oversees the meeting.
3. Guest speaker Mr. Molumby gives a speech about the origin of St. Patrick's Day. 4. Members of the club pay close attention as the meeting progresses.

Science Club

If you enjoy learning about science and hanging out with your friends at lunch, then Science Club is right for you! It investigates various areas of science by doing different fun activities, which allows students to learn new things about the world around them. The president Nicole Cooper '12 says the club allows new people to come and learn about science; so feel free to join in on the fun!

 2. Matthew Logan '12 and Jasmine McGee '12 discuss possible future experiments.
 3. Nicole Cooper '12 and Larry Tow '12 evaluate new club ideas.
 4. Alexander Swafford '12 diligently writes on his paper for the group activity.

Youth Peace Initiative

Formerly known as Peace Jam, this club mainly revolves around community service. The President of the Club, Princepreet Singh '12, said that they try to get the youth involved in the community, teach others about the environment, and to solve their problems through non-violence. Anthony Floresca '12 said that by involving himself in the club it has made him a better leader and taught him that one person can make a difference in his community. Youth Peace Initiative participates in many events such as the Armijo Beautification Project and a Canned Food Drive.

1.Leaders of the club, such as Princepreet Singh '12 and Navjot Kaur '12, pose together during lunch. 2. Students clean windows to make the school look great.

3.Youth Peace Initiative is involved in many activities such as the Christmas Tree Drive. 4. Club members participate in the Armijio beautification Project by cleaning walls around school.

College and Career Club

The president of this club, Tateyana Hendricks, said that the goal of this club is to provide and build awareness about General College Knowledge and career-related information. Students who participate in this club will given the tools to transfer to a 4-year college straight from high school. They reach out to others by having an annual College Week by trying to educate the campus about College.

1 Miss Beagle prepares the necessary paperwork before the meeting begins. 2 Enjoyment of the club is clear on his face as Anthony Floresca '12 cheeses. 3. The club speaker starts the lunch meeting with an announcement about getting together during breaks. 4. Handouts about College Week are passed around before the meeting starts.

Anime Club

Anime Club is a diverse club that appreciates anime cartoons. The students involved in Anime Club like to watch the Anime cartoons in Japanese with English Subtitles, and some students are even learning how to speak Japanese. They really appreciate the cultures of Japan and and some members of the club want to visit Japan to learn more about their lifestyle and culture.

1. He may not be in Anime Club, but he should be. And to show his love for the famous video game, Kingdom Hearts, Nathaniel Guttierrez '15 wears this shirt with pride. 2. During the Club Fair, it's all smiles with fun games for the love of Anime. 3. Anime holds contests for their drawings of Anime and their Manga stories.

4. Just like this shirt, members of the club draw Anime, and collage them together to make posters and other items.

Guitar Club

The strum of the strings lingers in the air as they are struck. At lunch Wednesdays, you can walk by A-5 and hear nothing but the sound of music by guitar, ukulele, or any instrument with strings being played. Guitar Club appreciates the sound, dedication and notes of the stringed instruments. Some members are new to guitar playing, but have been taught by other more advanced players of guitars, and in result have advanced more in their own ways and skills.

1 Two students work together to create the perfect sound. Blending sounds of two different instruments really make the perfect harmony.

2 Ukulele is the second most seen stringed instrument found here at Armijo. 3. All their hard work paid off at the Club fair. 4.

Mr. Blum shows how great anyone can look while sporting a guitar at the side.

Armijo's National Honor Society was created at this school to promote leadership skills and community service habits in the students on campus. It also encourages academic strength in high school and rewards successful accomplishments. NHS is one of the fundamental blocks for community service here in Fairfield. Each year the club participates in Read Across America Day on Dr. Suess' birthday. They go to elementary schools and read books to them on that day. Each semester, students must apply to be a member of NHS and if they are a member for 5 semesters, the get a special sash at graduation.

- 1. The NHS club trys to get new people to join during the club fair. This years club fair had a Monopoly theme to it. 2. Alexandria Castaneda '12 proudly holds up a NHS sign and is all smiles during the club fair. 3. Emily Eddy '13 kindly reads some some of Dr. Seuss' stories to some little kids.
- 4. Alexio Garcia '13 wears his Dr. Seuss hat with pride as he reads to the little kids .

Speech and Debate

This, no that; here, no there. Who says arguing has to be a bad thing? This club gets the chance to go back and forth, trying to persuade people which view is correct. You think sports are competitive, try debating against Brad Davis '14; he always has a come back and never fails to prove a point. Not only is this a fun club, it's also very helpful. Getting up the courage to, not only speak in front of an audience, but to spew facts about a subject is truly amazing. This is the place to be to get over a fear of speaking in front of crowds because everyone is welcome and no one is

- 1. Caleb Rounsavall '13 and Nile Celaya '13 go over notes before their big debate.
- The debate team huddles up for a group picture after a big victory.
- 3. Dominic Yee '13, Jonathan Chang '13 and Brad Davis '14 proudly hold up their awards and prepare for celebration.
- 4 Jonathan Chang '13 and Caleb Rounsavall '13 smile for the camera at one of their debates.

Freshman Class

The freshmen class, being new to the school this year, are just getting to know where things are and who is who. They aren't in charge of putting on any major events like the other classes, but instead their focus is to fundraise like crazy in order to pay for future events. The did a wonderful job with football and basketball homecoming, scaring the crowd with their Monsters Inc. skit and finding Waldo with their Where's Waldo? skit. They also participated in their first ever powderpuff game, and were very excited to play and attempt to defeat the sophomores!

phomore Class

Each year, the sophomore class' focus is fundraising and senior tea. Senior Tea is an event put on every year for the seniors as a fundraiser in which seniors can hang out, have a good time, and watch a talent show. The sophomore class this year had a fundraiser this year selling Armijo T-shirts. They had a great time participating in football and basketball homecoming this year. They sang their hearts out in their High School Musical skit for football, and won 2nd place with their Curious George skit for basketball.

1. Jacob Azevedo '14 pushes a shopping cart with Jacob Maher 14 in it during their basketball homecoming skit. 2. unior Class

The Junior class is responsible for putting on prom every year. However, it's a process that begins freshman year. From the time they start high school, it's all about fundraising, fundraising, fundraising, in order to afford to put on prom. The class also participates in both football and basketball homecoming. This year they earned 1st place with their Peter Pan skit for football homecoming. They also cast a spell on the crowd with their Harry Potter skit for basketball homecoming. As the year comes to a close, the students in the junior class begin to prepare for all the exciting events to come for

The senior class has a very busy year every year.

They put on all the special events for their class,

Sidewalk Painting, etc. This class has hopefully

Academic Decathlon

Armijo's Academic Decathlon values academic excellence and puts it to great use. Altogether, the team won 24 medals in the different categories in the North Bay Academic Decathlon Competition this year. The team's dedication towards academics has allowed them to excel and prove their capabilities. The club is for anyone that can put in an effort towards their academics. "It is a club for all kinds of students to succeed," says President Brian Louie '13. With hard work and dedication, Armijo's Academic Decathlon had a successful year with all types of rewards.

Club President: Brian Louie, Vice President: Arthur Mestas, Secretary: Leilani Reyes, Treasurer: Aishwaiya Thakur

Members show their dedication towards academics by studying during lunch. 2. Arthur Mestas '13 attempts to solve a math problem. 3. Students review notes to be better prepared. 4.

 Members benefit most when learning from each other.

GSA

Armijo's Gay Straight Alliance advocates for a safe school environment, where students can accept and respect their peers whether they're straight or gay. This year, Gay-Straight Alliance Club has created informational posters to promote a safe environment. "Students should feel safe at Armijo," says club advisor Ms. Walling-Sisi. Apart from creating posters, members have also worked diligently to organize the "Day of Silence" event at Armijo. Through this event, members hope to raise awareness against bullying and promote equal respect for each individual.

Club Members: Louie Ignacio, Brittany Campbell, Vanessa Garcia, Jessica Froedge, and Tawni Kerbs.

Posters created by GSA can be spotted in many classrooms.
 Members meet Tuesdays during lunch to organize the "Day of Silence" event. 3. Members prepare ribbons to be worn by "Day of Silence" participants 4. Louie Ignacio prepares a ribbon with precision, knowing his work will pay off.

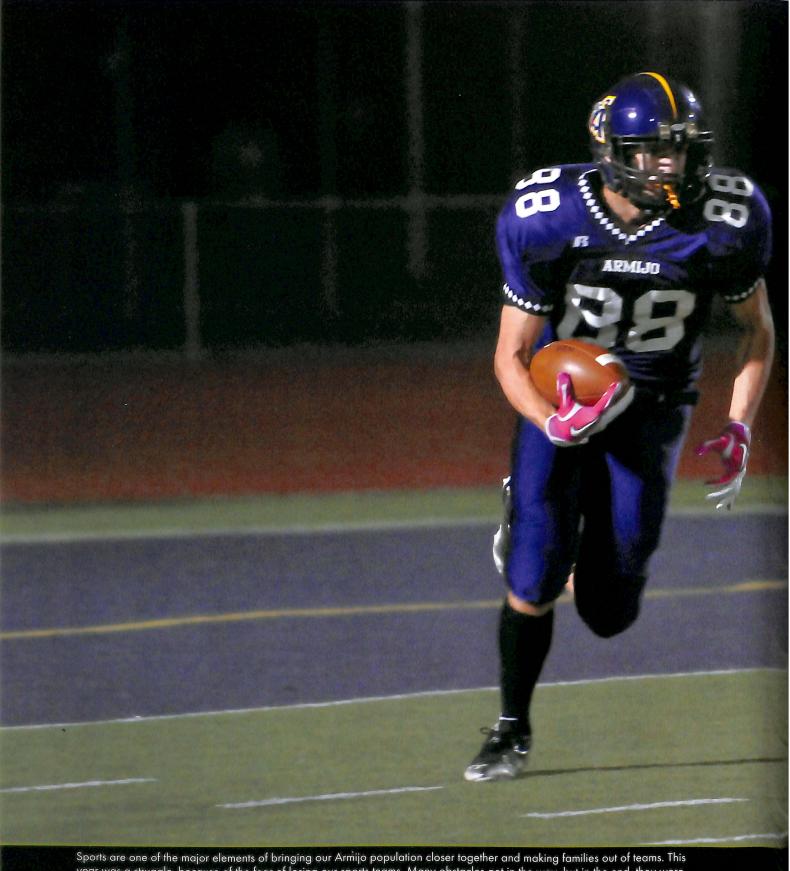

At the beginning of the year, Armijo kicks off the school year with a huge Lunch-Time Activity that showcases all the different active clubs on campus. Club Fair has become one of the most popular and informational activity because so many students participate. Whether it is the club members themselves at their stations, or any other student that stops to find out more information from that club- everyone is involved with the outcome. Every year, Club Fair adopts a theme that they use to set up their activity with and this year it was Monopoly.

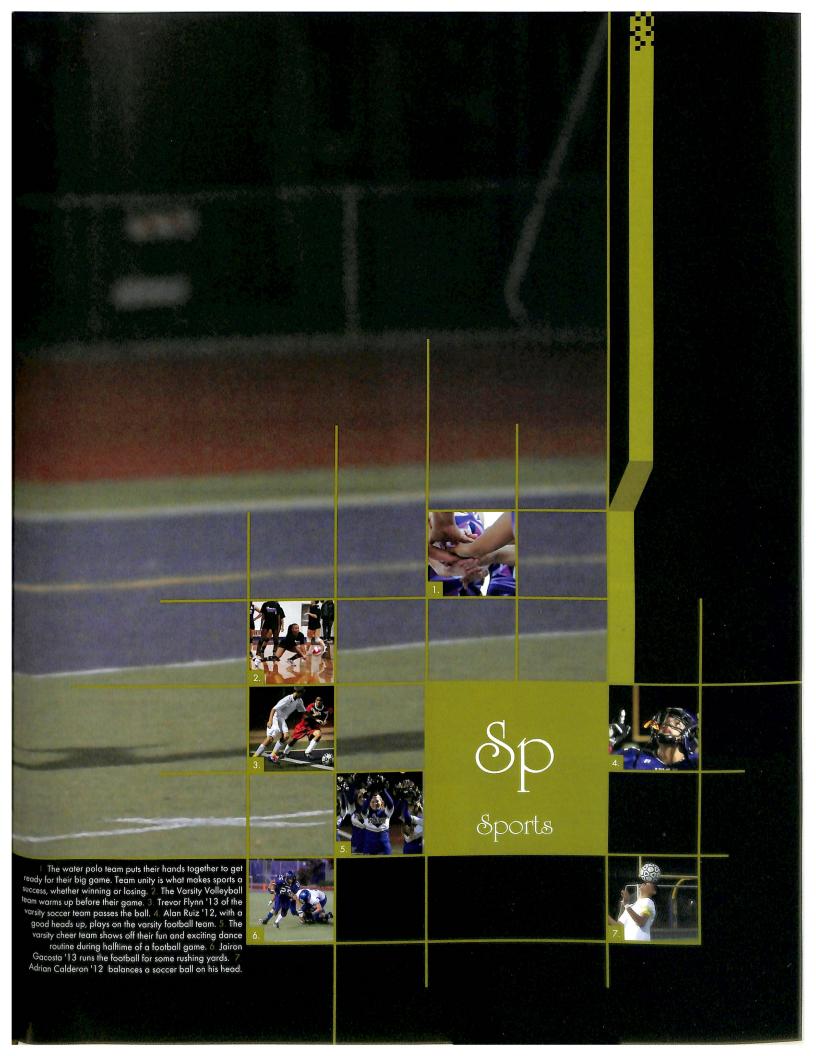

Club Fair utilized the new library road for their location and had enough space for all of the clubs who participated. As you walked down the road, you could see all the different club names with their different Monopoly Property Posters enhancing the theme. Students are encouraged to stop at every club and learn about them; the very first table on the road hands out papers with the 'board' of all the clubs and students who stop at every club and get a stamp for it can enter a raffle at the end of lunch.

As you walk down the road you will hear music playing out of the speakers and you will see different clubs performing: Guitar Club, Band, International Club, Guard, etc. Clubs play an important role at Armijo throughout the entire year and it starts with Club Fair. Participating during this activity is always so much fun and brings the Armijo student body together for the first time in the year.

Sports are one of the major elements of bringing our Armijo population closer together and making families out of teams. This year was a struggle, because of the fear of losing our sports teams. Many obstacles got in the way, but in the end, they were able to be overcome and play for our school. From fund-raising to asking for donations, Armijo High School was able to keep this essential part of a student's life. With all their hard work, a few of our teams have won their league and many have had the privilege of going to playoffs in their divisions. For most sports teams, 2011 and 2012 have been years of breaking records and coming closer together as a family.

2. Jacob Less '14, sets up to take a penalty kick against the Napa Indians. His nicely placed penalty kick tied the game up to keep them from losing. 3. Wyatt Grieves '14, dives for the ball during warm up to get ready for the game against Napa.

The Element of Surprise

Wyatt Grieves '14, played a huge role this season on J.V soccer as goalie. Wyatt was asked if he was nervous about playing goalie for the team and he said, "Part of me was because I hadn't played for a while, but I enjoyed the position and I knew that with practice I could get better." He willingly would play it again if needed and would love to continue to get better in the future. He took the responsibility of stepping up to goalie and he said he was glad he did. The J.V team would have gone without a goalie if Grieves had not stepped into the position and worked hard at practices to excel in being the goalie.

4. Luis Gonzales '14 takes on a Fairfield defender during their win . Luis also plays on a club team outside of school. 5. Braden Martinez '15 holds off two Vacaville Bulldog defenders. Braden had a strong game and used his height throughout the season to out play his opponents. 6. J.V Captain, Jacob Less '14, goes in hard for a header against a Vacaville Forward. Less had a knee injury early in the season, but was able to come back and help the boys finish a strong season.

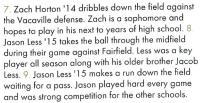

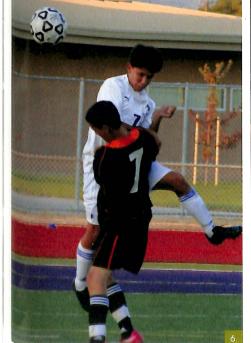

The Mens J.V Soccer team got a fresh start this season with Mr. Levine as their new head coach. He came to us from Sullivan Middle School and we were lucky to get him because he's always motivating the players and making sure they are doing their best on and off the field. They had a few players that moved up to varsity so coach Levine had the job of replacing those spots and bringing new players in. The J.V boys gained a handful of new talented freshmen as well as a few sophomores. The players had to work hard at practice to build up their chemistry before the All-City Tournament. They finished the tournament undefeated, kicking off the start to their season. The boys practiced and played hard Monday through Friday and all their hard work paid off. Their season started with a win and ended with one as well. Armijo Mens Soccer continues to produce hard-working players. Coach Levine has very skilled players to work with and guide to becoming better athletes and making Armijo soccer a stronger soccer program. Because this season was such a good one, next year is one to be looked forward to.

10. Sean Dolan '14, passes the ball under hard pressure from the Napa forwards. Dolan had a great game and kept the Napa Indians atttack to a minimum during a close game that ended in a 1-1 draw.

1.Half time of the play off game, Bryan Ard '12, feels the pressure of the tie. 2. Adrian Calderon '12 juggles the ball in pre-game warm ups. 3.The team gathers together after a very critical win against Vintage. The 2-0 win kept up their winning streak and set the tone for the rest of the season.

In good hands

Imagine being the only player on your team left between you and the goal; how would you feel? Brandon Brimer '13 played the team's only goalie this season, and when it's down to the shooter and himself he said, "I get an adrenaline rush. I know if they score on me, I let the team down and it's more of a disappointment for me." However, Brimer didn't let down his team, with 8 shut-out consecutive games, and even more aside from those, proved that Armijo had a tough defense. "I'm blessed to be on the Armijo team with a great defense. They actually did all the work which made my job easier!" As modest as he tries to be, players on the defensive line described Brimer as a true leader on the field and that he gave them confidence and really saved them in some of the games. Brimer was awarded the All-M.E.L Goalie of the Year and plans on returning next year for his last year

 Goalie Brandon Brimer '13 is reading the field and prepared for any thing.
 Resting from a tiring game, Daniel Garcia '12, assists the offense as a midfielder.

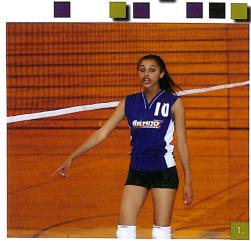

Champions: one who has defeated or surpassed all rivals in competition. Men's Varsity Soccer Team: champions. This season has been one of the most outstanding soccer seasons that Armijo's Men Varsity Soccer Team has had winning the title of M.E.L Champions again since 1991. With an undefeated season of 13 wins, 0 losses, and 2 ties, the boys made it into the playoffs. At the end of the season Armijo walked away with most of the All-M.E.L awards: Coach of the Year for Brad Burzynski, Offensive MVP for Victor (Adrian) Calderon '12, Defensive MVP for Jesus (Chiva) Rangel '12, Goal Keeper of the Year for Brandon Brimer '13, and two more All- League players; Luis Walton '12 and Victor Pacheco '12. However, beyond the stats and beyond titles, the varsity boys brought a different element to the field: passion. If you have ever seen the Armijo team play, their passion for the game is evident in every move that they make and every breath that they take and it is one of the most inspiring things to watch. Jesus (Chiva) Rangel '12 said that "every player had their little thing that made [them] work as a team." Whether it was the offense that gained the points or the defense that kept the other team from scoring. "Without the defense, you can't move forward" Chiva said, and with this year's strong defense, the offense had so many opportunities. When asked what it takes to be on the team, Chiva said, "You gotta be smart, strong, quick. You gotta be confident and secure."

- 6. Jorge Zepeda '13 makes a fast throw in hoping to continue making their way up the field. His throw in led to the fist goal against Grant in the play off game.
- Assistant Coach Brad Benesh is giving the team their half time talk against Vacaville. This game was their only tie in the entire season.
- 8. Jesus (Chiva) Rangel '12, controls the ball as a defender and begins the offensive attack against Vintage.
- 9. The team celebrates after the presentation of their first championship banner before their last home game against Fairfield High School.

1. Seghen Woldai '14 expresses her frustration to her coaches in a game against Fairfield. Seghen insists that the ball the line judge called in, was out. 2. (Left to Right) Mari Nelson '14, Jessica Miller '14, Mikayla Elder '15, and Seghen Woldai '14 all prepare for the serve from the opposing Fairfield team. 3. Jessica Miller '14 serves the ball to Napa. 4. Seghen Woldai '14 is in the middle of a serve against Vintage. 5. The girls have a team meeting, during a timeout, with Coach T.

A Fresh Element

The team this year had lots of familiar faces with many of last year's players returning and few players moving on to varsity. With a roster of 14 on the JV Volleyball team, seven of those players happened to be new to the team and only three were freshmen. Mikayla Elder was the only freshman who started regularly. She had a good attitude and could be placed at any

position on the court. Surprisingly, Mikayla has only been playing volleyball for two years but she also plays at Club Solano outside of school. When asked about playing on a team with so many sophomores who already knew each other Mikayla just said "It was fun because they gave me advice and I got to know more people". Mikiayla will use that advice wisely on the team next year if she is made a team captain. She thinks she will be the right person for the job and will definitely be ready if she gets the opportunity.

Ace, Ace!

Fun. Crazy. Hard-working. Energetic. Awesome. Determined. Motivated. All these words are elements of the the JV volleyball team and season from the perspective of the people who knew it best...the players. While the season was, at times, frustrating because "we should have won some of the games we lost," said co-captain Seghen Woldai '14; throughout the whole season, there was never a game, a practice, a play where someone didn't have a smile on their face. "Everyone had fun," said co-captain Monique Evans '14. Jessica-May Pamatian '14 agreed, saying, "The team really connected". Even off the court the team had fun while bonding at sleepovers and hanging out with one another. While the team did have their rough losses this season one important win came against crosstown rival Fairfield High. "I felt proud and happy because all our hard work was put into that game and we finally won," Seghen stated. And at the end of the season the team should feel proud for all the heart and effort that was contributed by every single player.

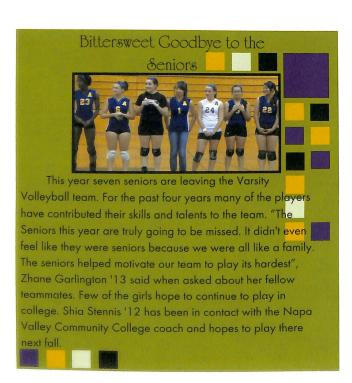

6. Co-captain Monique Evans '14 (left) talks to her teammates while Jessica-May Pamatian '14 (right) listens intently. 7. (From front to back) Monique Evans '14, Seghen Woldai '14, Jessica Miller '14, Kasey Ryan '14, Mari Nelson '14, Ayzha Quidit '14, Mikayla Elder '15, Faizah Roberts '15, Dmitra Lucas '14, Karysa Hodges '14, Jessica-May Pamatian '14, and Yulisa Herrera Chavez '15 all slap hands with Fairfield after the last game of the season. 8. Ayzha Quidit '14 has a smile on her face as she adjusts her kneepads and gets ready for the serve. 9. (Left to Right) Seghen Woldai '14, Mari Nelson '14, Jessica Miller '14, Mikayla Elder '15, and Dmitra Lucas '14, huddle with Coach T during a timeout in the last game of the season against Fairfield. to Right) Mikayla Elder '15, Karysa Hodges '14, Summer Vang '14, Yulisa Herrera Chavez '15, libero Akena Reyes '14, Ayzha Quidit '14, Mari Nelson '14. Coach Clara, and Coach T all sit on the sideline and watch the game as the team plays against Vacaville Jessica-May Pamatian '14 has a conference with Coach Clara and Coach T after a loss to Vacaville.

2.As Jennifer Kaump '12 and Shia Stennis '12 both go for the ball, Mariah Reyes '14 and Melissa Padilla '12 are there for support. You can always find teamwork on the Armijo court. 3. Melaya Gaines '13 lends a hand to Shia Stennis '12 after a collision to get the ball. Gaines is known for always being in a good mood and helping her teammates out. 4. Candis Hatfield '12 serves the ball over the net with powerful thrust. Candis was an amazing server who racked up a lot of points for the Indians.

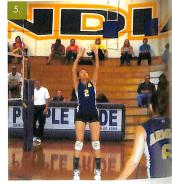

5. Maivan Le '13 sets the ball for Jennifer Kaump '12. Maivan was one of the main setters for the Indians. 6. Shia Stennis '12 pushes the ball over the net in hopes of receiving a point. Shia was a huge contributer in putting points on the board. 7 Coach Perales talks to the girls during a time out. The girls took time-outs to pump each other up and keep their spirits up.

Character Counts

Side out on 2, 1,2,3,4,5,6, woohoo! Thats a cheer often heard when you attend a varsity volleyball game. This year the team struggled having lost two of their players due to injuries. Senior captain Michelle Pratt '12 suffered from an ankle injury and was only able to play 4 games out of the season. While senior Tia Rowley '12 only played 2 games this season due to an ACL injury. "It sucked being captain and not being able to play but it was nice being able to go to all of the games and practices to see them improve" said Michelle Pratt '12. Whether they won or lost the girls still had fun and gained new friendships. "Our team definitely improved a lot this year and we got a lot closer and always had fun" said senior Candis Hatfield '12. The biggest wins this season were the two over rival school Fairfield High after having lost the first game against them early in the season. "Both games against Fairfield were very intense we let them get us once, but we showed that we were determined to not let that happen again", said Leilandra Mariano '12.

8. Michelle Pratt '12 subs in Maivan Le '13, for Melaya Gaines '13 and Lelilandra Mariano '12. This was one of Michelle's first games back after an injury. 9. The girls huddle with each other after the other team scored. In every huddle the girls encouraged each other and kept spirits high. 10. Lelilandra Mariano '12 saves the ball from going out of bounds. The Indians had many hustle plays and did everything possible to keep rallies going. 11. Jennifer Kaump '12 is in a ready position for a bump during warm-ups against Vacaville. During warm-ups the girls were always seen to be focused and ready to play.

Arrieyana Cartier '13 keeps her focus as she follows the Lagoon Valley course. Arrieyana is always prepared for a race, and is sure to never slack off at meets. 2. Tray Thomas '14 fights at MEL's to catch Napa and stay ahead of Vacaville. Tray makes his team proud by giving it his best at every meet.

3. Leslie Gutierrez '14 endures the heat and races along the trail for Armijo. Leslie always works hard, and helps bring the win.

When running it's sometimes hard to keep going, but the cross country runners all have tricks to stay focused. Caroline

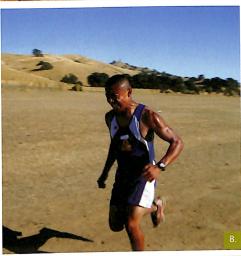

Newell '14 says, "I imagine myself eating candy, and then I get an energy boost and run again." Arrieyana Cartier '13 and Elizabeth Ramirez '14 both to sing in their head on a run with different ideas of the finish. Elizabeth thinks about, "getting closer to my finish line," and Arrieyana thinks about, "using the bathroom at the end." Then there are those focused on competition like Samuel Bundenthal '14 and co-captain Kyle Andersen '12. Samuel pushes himself by thinking, "Beat the guy in front of me, and then the guy in front of him." Kyle, who has been doing cross country for four years, has learn a lot and showed it when he said, "I think of the fact that there's a lot of tough runners out there and that to stay ahead of them I need to work as hard as they do. Also dessert." Kyle said. Whether it's candy, singing, bathrooms, or competition, all the runners really know how to finish!

4. Samuel Bundenthal '14 gets the JV teams pumped for their races by taking them on a roller coaster ridel Before a race the team likes to get motivated and build some Armijo pride. 5. Brian Tanczos '14 carries on running to stay ahead of his competitors. 6. Elijah Boss '14 keeps pushing in a race against Will C. Wood. Elijah started the season in the JV race, but by mid-season he made it onto the varsity team.

When students think of cross country they don't realize the training that goes into it. The runners put in a lot of effort with practices to help prepare for all different aspects of their races. They work to improve speed, endurance, technique, and course specifics. "Going out to places where we have meets is very important to familiarize the runners with where they're going to compete. On alternate days we'll utilize the track for speed work to try and give runners the extra push to be able to pass the person in front of them," said Coach K.H.. The coaches work very hard to prepare the routes and how to apply their focus for the day. Assistant Coach Pence, an Armijo alumni who ran for the team, said, "It's an interesting experience to be on the other side of cross country. I used to just show up and run, but now I'm responsible for creating the work-outs and making sure there is a purpose." All this effort led to a great, victorious season.

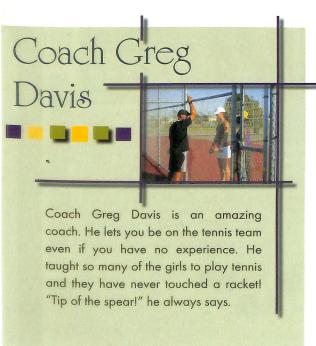

7. Coach K.H. addresses the Women's Varsity team before their race against Napa. K.H. gives a pep talk and sets a goal for the race. 8. Andrew Diaz '12 gives it his all as he brings it in for the Indians. 9. Team members always wait at the finish line to cheer on the incoming runners. When Cameron Remington '15 hears the cheering he thinks, "Don't trip and fall. Make it to the finish." 10. The Varsity Men take off! Team co-captain Joseph Salas '12 said before a race he thinks, "Anticipation. Before the gun we anticipate, but calm ourselves at the same time and run our race. We don't think, we do. It's a complicated thing." 11 Braden Remington '15 proves to the team he has skill by speeding along the course.

2."Tennis is a combination of playing hard and having fun. Put together this equals to a special tennis season." Agatha Castaneda said about her senior year of tennis. 3. When Laya Dasari '12 was a freshman she did not now how to play or had ever held a racket. Now Laya is one of the top players. She is an excellent example of endurance.

4. Alexis Alexander '14, Agatha Castaneda '12, and Leilani Reyes '14 are all sporting their womans tennis sweatshirts, and their M.E.L championship banner! WoooHooo! Go womans tennis! 5. Mercedes Uson '14 always keeps her head up no matter what. If she looses she will work 110% harder in practice so she can improve in her next game. 6. Asatta Russell '12 is just about to hit the tennis ball back over the net and score on her competitor. She waits till the game starts to show everyone how good she is.

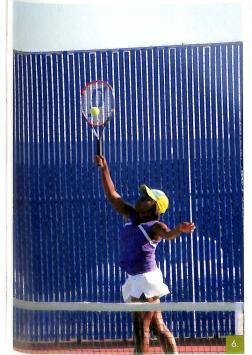

The woman's tennis team is an amazing team with great girls and excellent coaches. "It was like another family, everyone was close", said Tiffany Tramel '14 about the tennis team. Even when some of the girls are not playing in a game they sit out on the sidelines and cheer on their team mate. The team stick with each other threw thick or thin, winning or losing.

The girls work so hard and when they win they know that they deserve it! Jasmine Qorbanzada '14 says, "In tennis, no effort is lost. All work pays off." This statement is totally true! The girls worked so very hard at practices and games that they won the Monticello Empire League (M.E.L.).

7. Ariana Restua '13 trying to score on Vintage High School to break the tie. They better watch out because when she sets her mind to something she can't be stopped. 8. Jhaynehl Fortaleza '13 is waiting for her partner Caitlin Anderson '14 to hit the ball to the opposing team so they can hit it to her and she can smack it down on the other side of the net.

9. Some of the team members decided to hold their M.E.I. banner and act cute in front of the camera. Precious! They were all so excited about getting their banner that they stared running around so it would be blowing in the wind.

10. Caitlin Anderson '14 has a mean back hand. She always gives it her all. 1. Tahoe Bautista '14 readies the team for there motivating chant, getting them ready for a victory. 2. Joshua Willson '14 shoots for a goal while trying to hold off an opponent. 3 As the Fairfield player rushes to the goal with the ball Armijo's player Alex Castro '15 is swimming back to help out the defense.

Trent Baker '15 was not just the goalle for the boy JV water polo team but also one of there smallest players. However according to Trent Baker '15 size to him didn't matter he said" it felt good being one of the shortest players, however as a goalie it would have made it easier if i was bigger but it wouldn't have affected my skills." Some may agree that size is not everything that makes a player but courage and dedication are two very important attributes that Trent had. When asked what he felt when the opponent approached his goal he replied with " It felt like it was now or never and just went for it doing my best."

4. Trent Baker '15. Stretches trying to cover all angles of the goal, constantly eggbeats in order to get him self up to prevent the shot from being scored. 5. Tahoe Bautista '14 warms up his arm before the game by practicing his shots on gaol. 6. Jose Gaglianone '14 reaches for the ball before the opponent player can get to it.

Lets get Armijo Pride on Three!

...one..two..three.. Armijo Pride Woo! This is the distinguished chant heard before and after every JV water polo game. Win or lose, it was used to motivate the JV boys to go out and do their best. Even though they had a challenging season, for every game they went out and gave it their all. Although though some may say that a good season is filled with a lot of wins and a few loses, even if you don't have many wins, it makes for a better next season because the team discovers each others strengths and weaknesses which they can work together to perfect.

As the season went on, the interest of others sparked attention. The guys made an impact with the skills, they didn't just know, but what they learned. It also gives those who will be moving on to varsity the opportunity to see the level of their opponents and see where they can improve to be better next year.

7. Tahoe Bautista '14 getting ready to take his shot and score is heavily being pressure be the opponent.
8. Alex Castro '15 makes a pass to Tahoe Bautista '14, who is wide open and ready to score.

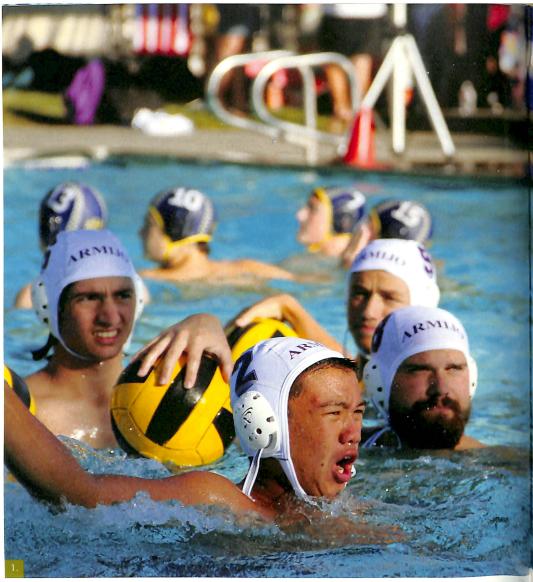

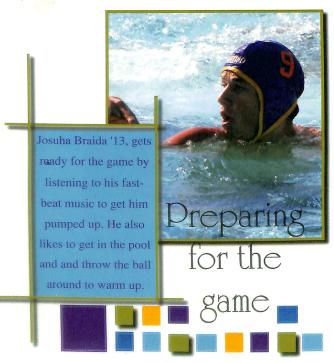

9. Trent Baker '15 eggbeats getting ready for the attempted shot, while Jose Gaglianone '14 does his best to try and block. 10. Jose Gaglianone '14 sees the opening and swims with the ball not afraid to take on the opponent one on one.

- 2. Eric Castro '13 blocks a player from a rival team from making a goal and succeeds.
- 3 Kevin Liu '13 takes the ball away from Napa, going in for a score, and manages to get it past the goalie.

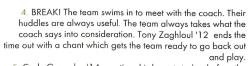

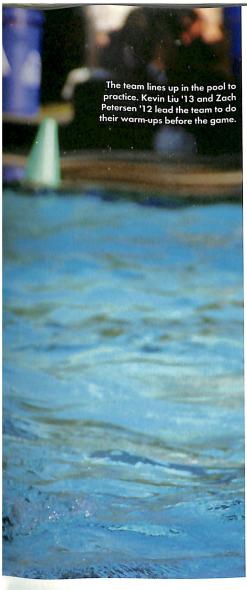

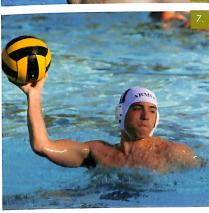

5. Cody Gonzales '14 practices his breast strokes before the game.

7. Practicing before the game, Dennis Gage Mattiuzzi '13, gives his all even if it's just practice. Practicing before the games is a big thing for the team because it gives them a chance to warm up.

Swimming to Victory

"Despite the score we always beat them in our hearts and with our good looks!" said Daniel Lavell '12.

This years Men's Varsity Water Polo team had 6 returning members from last year, led by seniors Daniel Lavell '12, Tony Zaghloul '12 and Zach Petersen '12. Newcomers, such as sophomore Chris Parodi '14 and junior Dennis Mattiuzzi '13 saw their first action at the varsity level and really brought depth to team.

When talking to members of the team about the expectations they had going into the season, most responded with talk of being a sport that was "under the radar" at Armijo. Most students don't know that the water polo team at Armijo has a very rich history on campus. Players who are a part of the team know the rigorous training necessary to achieve success in the sport, yet are always looking out for students who may be brand new to the sport. "We believe that we can turn athletes into good water polo players as long as they have a desire to succeed and work hard." -Tony Zaghloul '12

Armijo's team saw success this season in close matches against Rodriguez. There is no doubt that this team is improving and looks to continue to represent Armijo with competitive matches in the future.

8. Jon Beserra '13 goes in for a block from the other team. Continuing to always have the biggest smile on his face Jon '13, also known as "Cheese", is the goalie on the Varsity team. 9. Daniel Lavell '12, plays his heart out during his last season in waterpolo, and enjoys his last moments with his team.

10. Chris Parodi '14 gets his game face on for the game. showing his facial expressions when he passes the ball.

2. This is what the game revolves around, the ball., and the perfect shot. 3.Andrea David '15 explodes when vintage player comes near her with the ball.

Hannah Lawson '14 is not only an asset on our girls junior varsity water polo team, she's an asset on our varsity girls water polo team as well! The girls junior varsity team was lacking in players due to grade requirements not being me!. Hannah decide to step up to the plate and play for both teams. If that isn't dedication to the sport what is? Hannah prefers to play on the junior varsity level because she has more "control" she stated.

4. The girls line up to show their fantastic sportsmanship and congratulate the Fairfield High School Junior Varsity girls water polo team with their victory. 5. Victoria Rodgers '15 shows great perseverance while guarding the ball against a vintage player. 6. Hannah Lawson '14 shows off her "guns" as she launches the ball across the water.

zy , Gigi Zaghloul '15, Rachelle Campbell '13, ctoria Armenta '13 enjoy watching a nice goal piness shows in their faces!

Swimming a Little Deeper

The Junior Varsity Girls Water Polo team this year exemplified hard work and dedication. With only one victory against Fairfield High, the girls stayed strong throughout the whole season. With excellent coaching by coach Lizzie Glasshoff the girls not only played fantastic games, but over the period of the season grew individually as players. Rachelle Campbell '13 was a first year player this year. She started off this season not knowing how to swim, but by the end of the season she was able to swim 20 laps without stopping. "At first I was skeptical about even trying out as a junior, but I'm glad I did because I love the sport and the family I have now joined" she stated. The girls all consider each other a family because together they have all become close and helped each other out. With many highlights this year, the biggest was their first and only victory. The win raised the girls' spirits and pushed them to go on and be forces to reckon with at all of the other games. Overall it has been a great season, no matter what the scoreboard read.

7. Alexa Carballo-Carrion '14 Throws a great pass to her team mates at the game against Vintage. 8. While just warming up, our Junior Varsity girls show determination in their eyes.

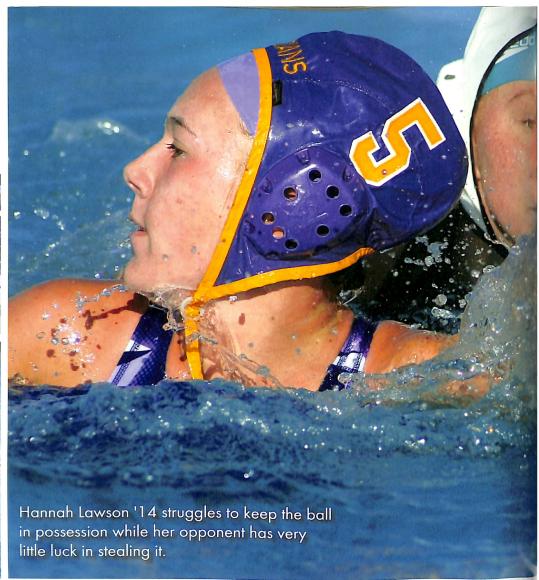

Andrea David '14 Junior Varsity's excellent save.
 Coach Lizzy encourages the team after their final
 tough game against Fairfield high

Time-outs give the girls a boost of energy and confidence. This is where the intensity of the game grows and it is important for the girls to listen closely to their coach, Lizzy Glasshoff, as she instructs them on what to do next as well as encourage them to not only go out and play their hearts out, but also have a good time. 3. Fourth-year player Alex Charos '12 knows the drill. She has her eye on her teammates communicating a wanted pass while also blocking a retrieve from her opponent.

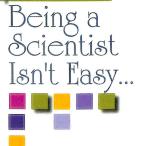

For Alex Charos '12, this year was a whole new experience.

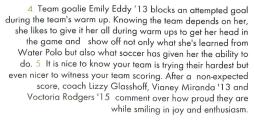

Being the only Senior and 4-year player in the water polo team, she had to act like a scientist to bring different elements together while also learning from them.

"This year was way different from the past years" says Charos, "It was a challenge because I didn't have my whole group of friends to fall back on. I had to step out of my comfort zone and really take the role as a leader and get to know everyone and meet new people. Lizzy pushed me more, but she did it to sort of help me become a better example to all of the new girls. I had to step it up to lead the girls and encourage them and at times it was tough. Sometimes I had to stop and tell myself 'it's just a game' and put myself in their shoes and remember what it was like my first year in polo. However, I am grateful that Lizzy pushed me because even after 4 years I feel that I improved this year."

6. Lucienne Altman-Newell '13 prepares for an intense game. Her facial expression and tough arm say it all. She is ready to go out and show the other team what she's got. 7. Unity plays a big role in water polo. After every game the girls varsity water polo team puts their hands together and does a special cheer to remind the opposing team not only the importance of it, but also to recognize their opponent's hard work. 8. Without a warm up, there's no preparation. These girls like to start off strong in their warm ups with some explosions to get ready for their game.

Bringing Elements Together

Family is the word to describe the 2011 womens varsity water polo team. It was a tough season for the girls, but they still managed to pull through. No matter what the score was at the end of every game, the girls ended with pride in their hearts and a smile across their face. They faced obstacles and tension, but that didn't stop them from being the family they became in the small amount of time they were together. "Although we didn't win any games we truly became a family" says first-year player Vianey Miranda '13, "After all the hard work, the people who made it to the end gained a family and that's what truly matters for a team. It was a great season no matter what." For these girls and their coach, Lizzy Glasshoff. the most important thing is to help each other out whenever needed. Even though a lot of training consists of individual strength-making, the team is still there for each other, helping one another become better, especially considering a few of the girls were first-time players. Allie Essary '14 says "This season was a season for us to grow as a whole and a year to prepare ourselves for a whole new team. With all of the new players we got this year, next year we will definitely step it up and come together as an even more united, experienced team who can't be beat!"

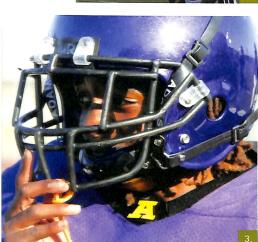

9. Briana Belloumini '13 uses her strength to throw the ball at her teammate while her opponent fails a block. Her ballet skills kick in every now and again, as they help her develop a nice snap with her wrist and the lower body strength she needs to her keep her balance while egg-beating under water, as well as keeping the rest of her upper body above the water. 10. Anastasia Garrido-Ramirez '14 enjoys the water as she arrives at her opposing team's school. Water polo to the girls isn't just competition, but a great way to have fun and meet new people. "This was the best time I've had playing a sport and next year can only get better!" soys Garrido-Ramirez.

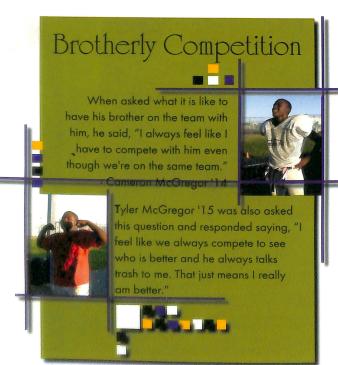

l Jevon Sanford '14 makes the play against Davis for a big gain in yards for the game. Playing a good defense is also a part of playing a very good offense.

2.Freshman, Ohajai Murray '15 plays hard even as the sun begins to go down. It is known that every player is an important element to the team. 3 Treyshaun Lofton '15 focuses on the game and follows through for a big win.

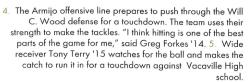

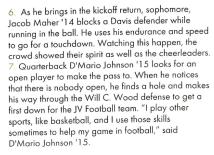

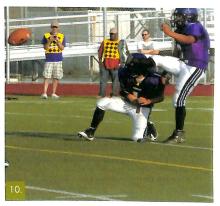

One Big Happy Family

This year, the Armijo JV Football team has come with new players as well as new coaches. With the beginning of the coaches' careers at Armijo, the team came closer together and became more of a family than just a team. After talking with some of the players on the team, such as Greg Forkes '14, who told us that with the new coaches, there was a good change and new beginning for the team. After talking with several players on the team, they all said that on every Thursday before a game, that they would go out to a pre-game meal like one big family. Even outside of after-school practices and games, the players hung out with one another on weekends and days they don't have practice.

This year, the junior varsity team has had very suspenseful games even to the last two minutes of the fourth quarter. Even though they may have lost a few games, they still had great enthusiasm about the season. Sophomore, Demario Penton '14 said that even though they may have lost, his most exciting moment of the year was when he made a tackle and knocked off a helmet from someone on the other team.

8. Freshman Tony Terry '15 hustles down the field waiting for the pass to be thrown to him by quarterback D'Mario Johnson '15. 9. Sophomore player, Jeffrie Brown '14, catches the punt kicked off by the Davis JV team. He notices the other players coming at him and runs to the other side of the field to try to make it past them. 10. Holder, Jacob Maher '14, watches the ball fly across the field as the kicker makes the extra point with a twenty-yard field goal.

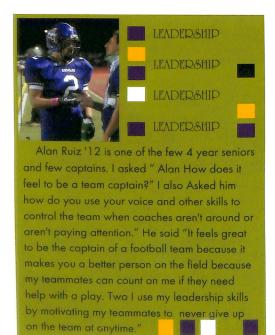

2. Interception Tyler Wllson'12! A very crucial turnover for Armijo which halted Valley's drive when they were about to put the ball in the endzone. 3."I am praying for my Grandma who told me to never give up on what i do." Says team captain Alan Ruiz '12. Right before the start of the Homecoming game Alan and the team ore ready to shock Will C. Wood and get another win.

4. There go team captains going out to the field #54 Toeta Elise '13. #2 Alan Ruiz '12. Then #61 Andrew Fuimaono '12. Last but surely not least #40 Justin McCaleb '12. 5. The new Quarterback trying to lead Armijo to a good season! It's Jacob Chauvin 13' here goes Jacob on a qb keeper breaking a tackle and running for the first down against Valley.

How Bad Does it Hurt?

The varsity football team this year has been going through a lot of adversity this year. With the new coaching staff and new team. But they have still found a way to stay together as family and succeed. Even though they only came with one win this season it was a big jump compared to last season. The varsity team really stressed family and being one and never giving up on one and other. That one win against Valley High School was a big confidence builder early in the season for them. It taught them they were not the same team from last year. "In all of their games they never quit once" Coach Toilver said. A big blow hurt the team when Enrique Garrido-Ramierz '13 had gotten a serious neck injury in the Rodriguez game. "He was one of our work horses," Coach Toilver said. The atmosphere on the sideline after that was very quite and down. No one on the team had anything to say about it. Even a few players had tears in their eyes because Enrique was a part of that family and they did not know how he was. Although Enrique was out for the season, in the end he was all better and at every game supporting his fellow team.

9. Enrique Garrido -Ramierz '13 is giving a nasty stiff arm to valley man. This which led to an Armijo touchdown after his long run. 10. The All-Star lineman Andrew Fuimaono '12 and Toeta Elise 13' go to make a tackle in the back field against Will C. Wood in the Homecoming game!

1. Keelyn Jones '15 watches the ball on defense, waiting for the right moment to take back position of the ball. 2. Number 22 De'mario Johnson '15 makes his way up the court, weaving in and out of the Vintage players. De'mario was a point guard for the jv team this season. 3. As Abner Tena-leal '14 dribbles the ball up the court you can see the determination to make a basket. Abner, along with teammates, chose to play in highlighter colored shoes this season. Hyper dunks, as they are called, retail for just over \$100.

Don't underestimate someone by the way they look. Najarie Nutt-Smith '15 was the shortest player on the JV team at but that didn't stop him. "Because I'm small, doesn't make me a bad ball player," he stated. He played many times throughout the season and made just as many baskets as the the taller players.

10. Tony Terry '15 avoids a defender on his way to the basket for the score.

11. Number 23 Bryson Lumpkins '14 extends his arms and jumps for a pass to make sure the other team doesn't get the ball.

We Play Hard

During the 2012 basketball season the team had a productive season. With two wins against Napa High, one win against Vintage and Will C. Wood, you could say our boys had a strong season. We took some hard losses against Fairfield High and Vacaville High, which were both very close games. The boys kept up a fight and never once gave up.

When asked "What was something your team focused on this season?" the players on the JV team said that this season was mostly based around playing as a team, dedication and leadership roles in and outside of the classroom. During the season the boys dedicated their outside school lives to the team and grew as a family, their team motto was "I need you, you need me. we need each other". They also focused on being a leader and showing respect not only to teachers or staff members but also to anyone else outside of school.

4. During a time out, the coach talks to his players and encourages them to keep up the good work and effort they put into their games. 5. Number 30, Tony Terry '15, hops to get the rebound off his teammates shot. 6. De'mario Johnson '15 and Isaiah Stewart '15 run an awesome defense play together. 7. The JV bosketball team warms up for a big game ahead of them. 8. CJ Saecho '14 doesn't stop, he stays on the other team until he can get his hands on the ball again. 9. Tony Terry '15 attempts a tricky shot while quarded by other players from the Vintage team.

Senior, Derrick Little '12 goes up for a hard contested shot in the paint against the strong Vacaville defense. Derrick breaks through easy to put points on the board for the Indians early in the first quarter.
 Senior, Malik Price 12', had a great season as well, with his starting position as point guard at one of Armijo's biggest games this season against our rival school of Fairfield High. Malik was a critical ball handler this season for the Indians and he also had a good view of the court as a ball handler on offense.

The Final Lay-Up

This year will be the last year for six of our varsity basketball players. Travis Selle '12, John Williams '12, Malik Price '12, Derrick Little '12, Zachary Clark '12, and Justin McCaleb '12 have all made an impact on Armijo Basketball these past years. The boys have gone above and beyond to make their last season playing for Armijo special. What is in store for them now that basketball is over? No one knows, but one thing we do know is these boys all have a passion for basketball, and they exude true Indian pride. These young men have learned a lot from their experiences in basketball from teamwork to hard work, they have multiple of qualities that can help them with many life challenges and struggles.

3. Josea Barfield '13 brings a lot of energy to the every game. he plays his heart out and does not settle for anything short of his goals. Although he was not a starter he was a very effective player off the bench. 4. John Williams '12, one of 3

John Williams 12, one of 3 captains, was a strong player on and off the court. His positive attitude and love for the sport of basketball kept the basketball team focused, as well as ready, for every game that was ahead of them.

5 Troy Anderson '13 was a very athletic and able to change the pace of just about every game with his ability i swat a lot of shots and one of his high flying, SLAM DUNKSI

The Armijo Men's basketball team had a very promising year during the 2011-2012 season. They finished with a 6-4 record in league, with double victories over Vacaville and Napa High. Although they were able to get some quality wins this season, they didn't come easy. A lot of hard work, sweat and effort was put into each game. With leading scorers, Travis Selle '12 and John Williams '12 being seniors, next season will require many of the returners to step to the challenge of putting points on the board for the Indians. Returners, Orland Young '13, Troy Anderson '13 and Davontre Thomas '13 were key players this season who will take over the team leadership next season. Troy says in order to be a stronger leader over the summer he will "work on bringing the team together as a unit in order to have a better bond with his teammates and work out so that they are ready for next season."

Although they did not have a perfect season, it was an improvement from past years. The players know the challenge in front of them and are up to the task. "There is only room for improvement and that comes over time," says Orland Young '13.

- 6. Although he is a great defender, Travis Selle '12 also knows how to put points on the board, as he has shown throughout the season, scoring on Vintage at home. Travis was a critical and lead scored this season along side John Williams.
- 7. Even though Tyree Carrie '14 is only a sophomore he is one of the very few that has been able to play at the varsity level at his age in years. he was very critical with Indian rebounds and low post shots and he has much more time to arow as a player.
- 8 Junior, Orland Young '13, had a big impact on this season with his ability to make his way to the basket and get foul for the 2 most needed free throw shots in the game. Orland is a very aggressive player and is never a
- 9. Senior captain, John Williams '12 takes advantage of the games throughout the season with his strong leadership skills. He was very effective with his ability to score and and spread the court out in order to play their game the best that it could be played.

 Sophomore Dulce Armas '14 dribbles the ball up the court in hopes to hoop the ball in the basket. Dulce was a very quick on her feet this year. She was always finding open space to help her team find the basket.

2. Lauren Williams ';14 and Valeria Sandoval '14 stand on the sidelines cheering their teammates on as they inch their way towards the net.

3. Azayleah Delgado '15 lays the ball up into the net. Before each game the JV team gets mentally and physically prepared by warming up as a unit on the court. The girls do drills from lay-ups to passing to

Family Matters

Ihis year the Junior Varsity girls team improved greatly. Some of their influences came within the upper class men in particular. Jaimi Garlington '14, her sister Zhane Garlington '13, Jada Williams '14, her brother John Williams '12, and Jai-Nice Robinson '14 and her sister Justice Williams '13 finally Derrick Little '12 and his Little sister Brittany Little '15, all have something in common, siblings on varsity.

common, siblings on varsity.

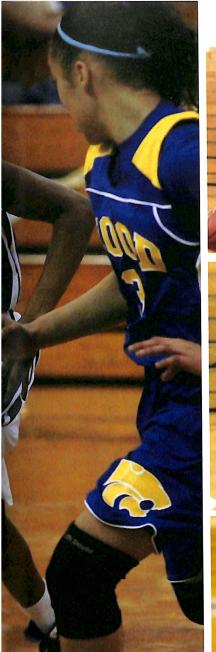

These girls all said that they're siblings made an important impact on their basketball career. They all agreed their siblings all encouraged them to try hard and that made them improve. The older siblings made sure that their younger siblings brought their "A-game" to every game they had.

4. Delgado '15 searches for one of her teammates to throw the ball in and start the play.
5. The ladies on the side line are all focused on their fellow teammates and their battle to rack up points on the score board.
6. Dulce Armas '14 and Azayleah Delgado '15 pass to one another to make their way around their opponent and find teammates.

Azayleah said, "I'm quick to understand." This means she's always thinking and on her toes.

The statement, "There is no I in team." holds true when referring to Armijo's JV Women's Basketball team. Few said the season had its ups and downs but was mostly successful because of the teamwork that was demonstrated. Jada Williams '14 defined teamwork as, "It's not about the individual but making sure everyone is involved and picking up your teammates in a positive way." Azayleah Delgado '15 said the chemistry didn't happen over night but as each of the girls worked hard and worked for each other the chemistry progressed and they started to see more success in their season. Between the good ball movement, the lock on defense, the speed, the communication, and the anticipation, hard work wasn't even a question for these girls. Jai-Nice Robinson '14 says, "Hard work equals success and the acceptance of criticism as well as great execution." All these factors are what made this team a successful

- 7. Sophomore Jai-Nice Robinson '14 concentrates on swooshing the ball through the net on her free throw. Jai-Nice says what makes Armijo JV Women's Basketball team stand out the most was their team ball and how each worked hard for one another.

 8. Freshman Brittany Little '15 slows the ball down to look for better passing options as her opponent closes down on her.
- 9. Jai-Nice Robinson '14 runs the ball up the court after locking down in the defense. Robinson says her strongest skill is defense.
- 10. Sophomore Jada Williams '14 speeds her way past Napa. The Indians were very successful when it came to speed and agility considering this was what Jada felt her strong point was when on the court.

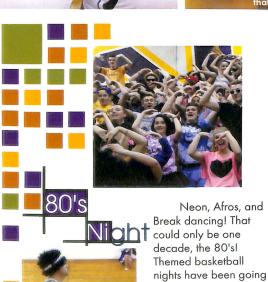

1. The varsity girls basketball team show support to their team by throwing their A's high in the air. Putting the shape of a "A" in the air not only shows support to their team but, it also connects them to the fans in the stands.

2. The girls huddling up before the big Franklin games. This game against Franklin was the first play off game that they won 70-44.

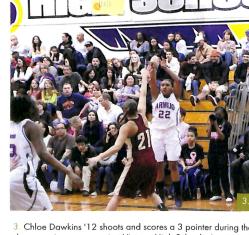

on for a long time now

and they have always

been a fun way to get

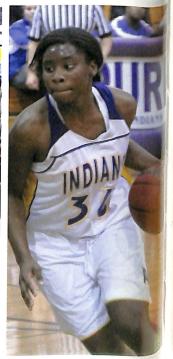

students, teachers and the players together on one crazy night.

roaring, but she was focused on the win!

5. Mykela Raiff '13 warms up by shooting baskets before the game. That game she showed her skills by going after the ball agaressively.

7 Number 5, Justice Robinson '13 puts up a Free throw during the Armijo v. Wood game. Just about every time she put the ball up it was sure to go in. That game

8. The team dances and haves a good time before the game. Although the Varsity women basketball team takes the games very seriously, they never forget to have fun.

Breaking history may be hard for most people but, the Varsity Womens basketball team has been making it look easy. For the first time, the womens basketball team has made it to the play offs for two consecutive years and have had two amazing seasons. "People don't really recognize Armijo for their sports and I'm really glad that we could bring back the excitement to basketball" says Zhane Garlington '13, "I really love this team and I hope that next year we can make it even further."

For these girls making it to the playoffs is glory and victory, lose or win. Most have been playing for as long as they can remember. Every year is something new, and every year their goal is to be even more successful then they were the year before. "To be successful you have to work harder then your opponent", says Marshanique Halls, "you can't let them be better then you."

9. Marshanique Hall '13 jumps high above the Vintage girls to catch the rebound. She is a strong believer that defense is one of the most important thing during a basketball game. "Offense wins the game and Defense wins the championship," she explains.

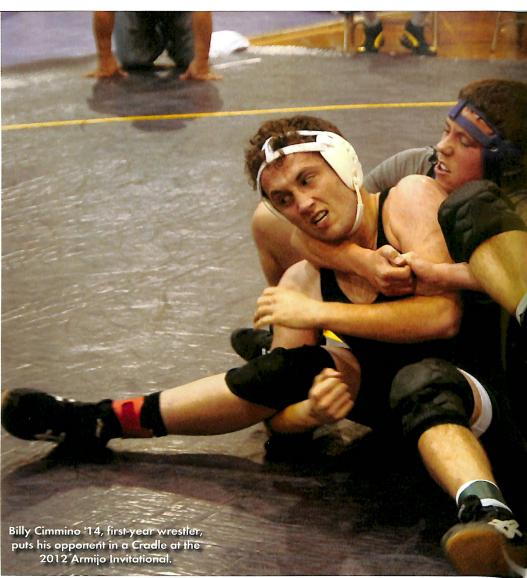

1. These two wrestlers are in neutral position as Isaiah Dulcee '14 tries to set up a shot.

 The wrestling move Bulldog is one that many JV Wrestlers use. Greg Forkes '14 attempts to execute it against his Rodriguez opponent.

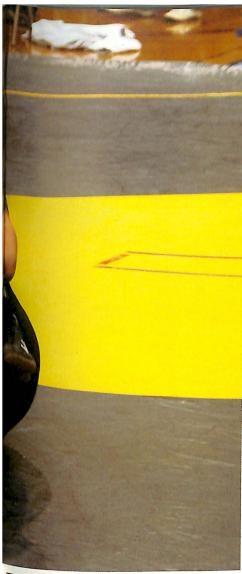

Grappling Gu

Grappling is a crucial part of being successful in a match. It helps set up an effective take down which awards 2 points. JV Wrestling Captain Colby Hatfield '14 has good technique and knows how to set up a double-leg take down. "Good grappling technique is one hand on the opponent's triceps and the other hand around the neck or the shoulder," he said. "My tie-up helps me set up a double leg, which gives me control of my opponent." When asked what other strategies work in a grapple is to "Tap my opponent's head to distract them, then go in for a take-down."

3. Andres Rivera '15 earns 2 points in his match as Fairfield High with a single-leg take down. Rivera would go to be victorious in his match, and Armijo won their no overall as w

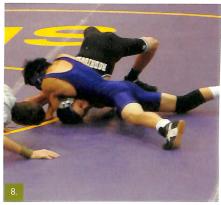

The 2012 Armijo Junior Varsity Wrestling Team had tough duel meets but prevailed with a couple of wins. Their overall league record was 2-3, with victories against Fairfield and Vintage. While these were momentous wins, they were not achieved easily. They took much effort and the players dedicated much time, sweat, tears, and blood as well. The captain's for the JV Wrestling Team Steven Anthony Olguin '12, Colby Hatfield '14, and Julio Gonzalez '14. Coach Correa, even with a few losses in the beginning of the season, kept a positive view as the season progressed and motivated the team to perform at higher standards. The team was full of first year wrestlers and most of them showed wrestling talent. The following year is full of optimism as the returning wrestlers achieve their full potential.

5. Isai Rodriguez '13, the JV 106 pounder shows his grappling skills against his tough Vacaville opponent.
6. Quick on his feet, Josh Gadia '14 sprawls as his opponent tries to shoot in for a take-down.

7. Putting his opponent in a front head-lock, Greg Forkes '14 attempts to pin his opponent. While Forkes was unsuccessful in the pin, he would go on to win the match.

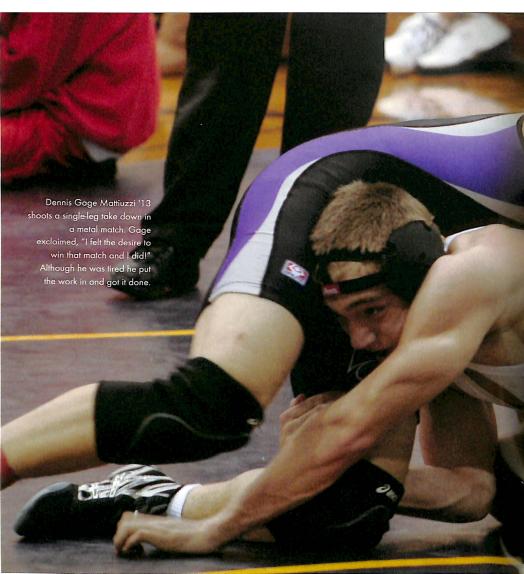

8. Gin Jualo '13 runs his half-nelson against his opponent. This earned him 3 points as he attempted his pin.

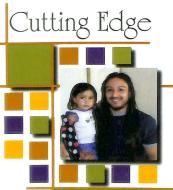

Terrance Saeteurn '13 pins his opponent to the ground to prevent him from getting back up and stealing his win.

 Maximillian Uson '13 uses the skills he's developed throughout his 3 years of wrestling to pin his opponent.

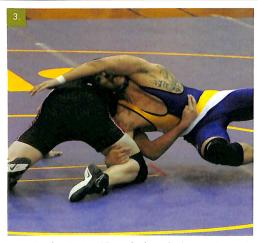

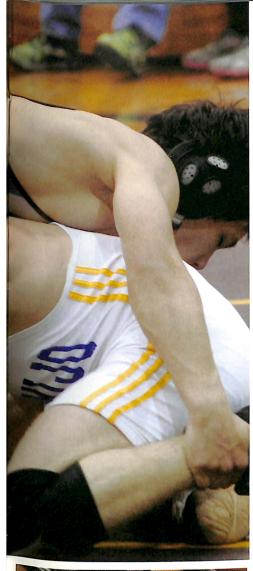

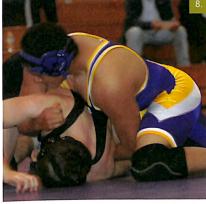

A seems to be a very recurring number for this year's varsity wrestling team. For 4 years coach Correa has been letting his hair grow out and finally this year he decided to get rid of it and donate it to a special cause. This can correlate with the commitment it takes for each wrestler to be in the team. "If you want to be good at it, it's the sport that takes the most determination," says Correa. Ironically, "the worst part is cutting weight!" he states.

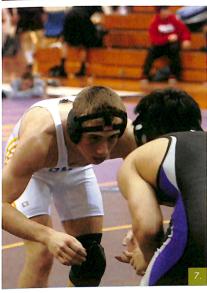

3. Julius Passion '12 uses his lower body strength to push forward, while also using his upper body strength to grab his opponent's leg in hopes of circling around and receiving two points in take down. 4. Toeta Elise '13 watches the intense match hoping his teammate will win the match and win Armijo's Varsity Wrestling team some points. Wrestling is a very nerve wracking sport to watch, especially for the teammates and coach; anything could happen. 5. Damian Simpson '13 thinks fast and develops a way to pick his opponent up in order to slam him down and win his match.

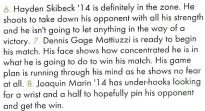

Obstacles were faced by Armijo's Varsity Wrestling team this year. There were only 2 seniors in the team, making there be less experienced wrestlers not available as much. This pushed a lot of younger wrestlers to step up to being varsity players. It was hard because a lot were only second year wrestlers, but the team was able to pull through and made the best of what they had. "We had a good, young team that has promise for the future" says coach Correa.

Wrestling is a sport where the team can help each other out and give each other pointers, but in the end it all comes down to how you do individually. It's not easy to hold a strong brotherly bond because it's so individual, but this team still manages to motivate each other to do well as much as possible by rooting each other on.

One wrestler that stood out the most and ended his Armijo wrestling years strong was Andrew Fuimaono '12. This 4-year wrestler was was able to use his 4 years of experience to make Armijo proud by being the only one to qualify for State after 4 years. After having a role model like Fuimaono, the team will step up and strive to be even better.

Aside from the obstacles faced and the lack of experience from some, Armijo's Varsity Wrestling team was able to finish strong and come out feeling good about pushing to be the

9. Kris Elkin '15 brings his opponent down with a bang. He is determined to keep him down and win his match to score his team some points.

The girls are pumping up the crowd at their half-time show with smiles on their faces.
 The crowd may have not been to huge that night but everyone had spirit, thanks to this group!

2. Football season is always a favorite to most of the kids at Armijo High School. It's the season where everyone is pumped up, the weather is nice, and our cheerleaders are shining bright! There half-time shows start up the crowd before JV is over and before varsity hits the field!

4. Even as Mercedes Shute '14 is getting up into a stunt her smile isn't fading. Although there is slight question with her eyes she still keeps her emotions at a great level. The positive attitude that was mentioned in the story is shown here as well.

Brighter than the Sun

When the team is down by seven points who is always there to raise some heads? Who is always there with a big bright smile? Cheerleaders set the tone of the game. Emotions are a big aspect of any sport; and yes, cheering is a sport. It seems like these girls could have the worst day ever but when they step out on the turf or the court they never give anything less than one hundred percent.

Keeping a happy and positive attitude is important especially in such an enthusiastic activity. Just like any other person, the squad sometimes has their off days, but they don't let it keep them down.

Captain, Kristina Vigil '14, says,"The first thing I think of when I wake up is packing my cheer bag. Then the next would be what we need to accomplish at cheer practice, such as: stunts, cheers, dances, and more." So as you can see this is not just some little 'game' to these girls, this is a sport. In sports you play to win and have fun doing it; for them, they get to dance and cheer not only to have fun themselves, but pump everyone else up for a great time!

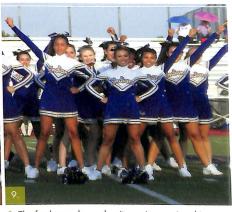

5. Team work is always a big part of a sport. These girls literally trust each other with their lives. Yes, getting tossed up in the air and coming back down into a cradle may not seem threatening, but unless you have tried it you won't know.

6. In the word cheerleader, leader can be picked out to describe Megan Savko '14. Not only in the designated class leadership, but out here with her squad. Megan always has a smile and is always in tune with the routine. This girl has yet to show a frown at any event she has been involved in.

7 With football season comes big crowds and with big crowds comes lots of eyes. Never cracking under pressure the Armijo Junior Varsity Cheerleaders always hype up the crowd before the second half of the JV game and before varsity even hits the field.

8. The freshmen showed quite an impression this year on the junior varsity squad. Jade Lipkins '15 is one that comes to mind. This young lady never seemed nervous or lost. Next year people will be lucky to see her outgoing personality shine more!

9. Brighter than the sun, indeed. Whether it's their smiles or their attitude this group of young girls always shine. When they are out there performing there is never a dull factor. Kayla Vidal '15, whom is shown in the photograph on the right, explained, "Cheerleading is very emotional and stressful. It takes lots of time, patience, and you have to be focused."

and that's exactly what these girls have.

 Ka'Janae Walton '13 is all smiles during one of her halftime performances. Halftime shows are a highlight of football and basketball games for both the audience and cheerleaders.

 Caryssa Brandt shows everyone what place she thinks Armijo Basketball players deserve. Without cheerleaders, games would be quiet and unexciting.

It is often debated whether or not cheer is considered is sport. Ask any cheerleader their opinion and they will gladly provide an argument to the nonbelievers. Alaysha Finley '12 believes that it is a sport because, "lifting and throwing a 100-pound girl is definitely not easy." These girls prove to everyone that the practice and skills required to perform as cheerleaders have a very high difficulty level and make them true athletes.

ls it a

Sport Thing?

 Although stunts were limited during performances, members of the Armijo Varsity cheer squad practice a "full" lift. Most members of the squad cheer competitively and often push boundaries when it comes to stunts.

6 Kristina Owens '13 and Kaytlin Holbein '13 practice a thigh stand with one of the elementary performers. This year, the Armijo cheerleaders performed at halftime with girls in elementary school. Many cheerleaders would agree that it was a highlight to be able to teach the little girls how to perform and cheer just like them.

7 As the girls move to the music, people in the crowd get pumped up! Not only do they work hard at the games, but they practice hard all week to get to that point.

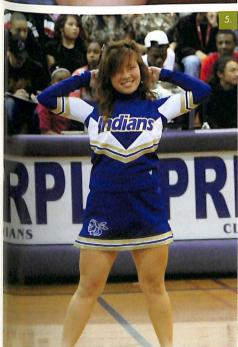

People might look at cheerleaders and think "I can do that, it's easy", but in all actuality, this sport is one of the hardest around. Who else lifts girls, tosses them in the air, and catches them without missing a beat of their cheer and with a smile on their face? Who else pumps up the team and crowd during games that can make or break a winning game? It's the Armijo Varsity Cheerleaders that do this at every single game, without fail. Third-year cheerleader, Madison Newton '13 says that her favorite part of being a member of the Varsity squad is "seeing the crowd's reaction during half-time performances."

No other sport gets the privilege to keep sport events spirited and pumped up. Most people might not understand the little things that makes cheering so special to this group of girls. Whether it be going to cheer camp for a week over summer or perfecting a new stunt at practice. But that's okay because- it's a cheer thing.

8. Attitude is a part of every performance for Armijo cheerleaders. Lacey Bostic '12 gets into her routine during halftime of the boy's basketball game against Napa.

9. Tiffany Ha '13 proves that practice makes perfect as she goes all-out with all her moves at practice. Practices are essential to having clean cheers, exciting halftime performances, and daring stunts.

 Ethan Wilson-Cook '14 dives deep into the water and speeds his way through the water doing the freestyle stroke during the Armijo v. Vacaville game.

> Josh Braida '13 dominates his backstroke during the meet.

 Swimmers take your mark! The Armijo men swim teams prepare to dive off the wall and start their back stroke.

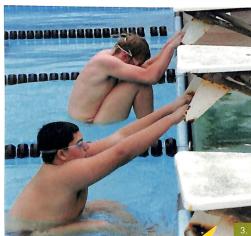

Have no fear! Noah Dennis '12 is here, ready to swim his heart out at every meet! At almost every swim meet that the Armijo mens swim team went to, Noah '12 was there with a cape, ready to go. Right before he splashed into the water, he would take off his Batman cape and throw it out to the crowd. It was a fun easy way to pump up the crowd before the meet.

5. Jonathon Bessera '13 has a good time warming up before the big game. Warm ups consists of stretching, 500 hundred freestyle and a whole lot of smiles.

The buzzer rings and it is loud and clear! It's time to dive into the water and not to stop until you are completely finished with the race. "Come on! You're almost there, just keep going!" says the rest of the team. It makes it hard for you to give up when you have all those people supporting and cheering you on. Thats why the Armijo mens swim team has accomplished so much this season. With their determination, strength and support from the rest of the team, they keep swimming and improving in almost every event that they are told to swim.

The team set individual goals that they wanted to accomplish by the end of the season. With the help from their coaches, Lizzy Glashoff and Lacey Dahlin, and the rest of the team they were able to accomplish almost all of those goals "After a race it didn't matter if they got first place or not, what mattered was whether or not they accomplished another one of their goals," says Lizzy Glashoff "I'm so proud off the team, they have improved so much ad were so hard working"

- Mark Go '14 splashes and flies through the water doing one of the most complicated strokes, the butterfly.
- 7. Alex Castro '15 takes a deep breathe while swimming the breast stroke. Breathing is very important for the swim team because the swimmers have to be able to control their breathing for every stroke.
- 8. Kevin Lou '13 and Noah Dennis '12 pay close attention to the Armijo swim team while cheering them on. Watching the other swimmers helps them give each other feedback after the meet so that they can improve.

 Corrin Healey '12 swims as fast as she can while doing her back stroke. This is her first year in swim and she has been fitting in great! The teams at Armijo always seem to make that impression.

2. A quick dive in the pool by Katryna Saunders '12 to keep up the team lead at the Vacaville High swim meet. Everyone can see the joy this sport brings to her. No tide could stop her from that finish!

Free-style: The free-style stroke is the fastest, most common stroke there is. It's a combination of pulling and kicking your way through the

Back stroke: Back stroke is just free style flipped backwards. It's the same as free style just on your back.

Butterfly: The butterfly stroke is one of the most complicated strokes to learn. It consists of throwing the upper part of your body up out of the water and dolphin kicking it back in.

Breast: The Breast stroke is one of the most

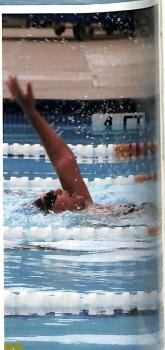

relaxing stroke you can do. You pull with your arms and kick out like a frog.

3. Being ready is important. Once the whistle is blown their is no time to get in position. In this picture, Alex Charos '12 prepares to get into the dive position to start her race.

4. Rachelle Campbell '13 states, "I was nervous because the back stroke for the 100 relay is the very first event out of everything!" Like a pro she cut through the water vicious and ready to win!

5 Elizabeth Virgen '12 demonstrates just how to do the breast stroke, with speed, at the swim meet against Vintage. This particular swim technique does not come as easily as people think. So working hard at practice is a given.

7. Slow and steady can be a description for this stroke. Victoria Rogers '15 stays at a faster pace for the breast stroke and makes the other teams jealous.
8. Breathing is a must; as you can see in this picture

and her lungs filled while gliding across the pool in the relay race.

9. Practice makes perfect and Gigi Zaghloul '15 found that out when she got to show off her hard work at the Vacaville meet. She explodes through the swim lane getting faster and faster!

"GO GO GO! Just keep swimming!" The girls of the swim team would yell to encourage their teammates to push harder and swim harder to finish their races as fast as they could. This year has been a special year for the Armijo Women's swim team, to say the least. This year was a year different then all of the others, it was a year of change. This year we had over 5 new players on our women's swim team. The girls were welcomed with open arms and encouraged to work their hardest by Coach Lizzie Glashoff. Not only did Coach Lizzie mentor them, the experienced returning players made sure to show the girls the ropes too.

With lots of hard work and dedication the whole team has improved greatly. They not only improved their skills this year, they also became one big happy family. Each and every one of the girls on the team have shown great talent and passion to swim.

1. Preparing to bat, David Hostler '14, stays in focus watching how the Rodriguez team works. David says, "This year has been good so far, I just wish that my personal record was better." 2. Before the inning starts, sophomore pitcher Eduardo Peralta '14, warms up with freshman catcher Jason Kino '15. 3. As he rounds second base hoping to advance to third, Chris Bruner '14, watches where the ball is to seé if he can make his move safely.

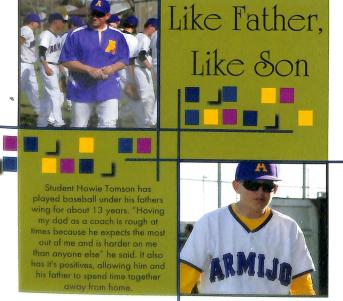

4. Cody Gonzalez '14 uses his full force when swinging and hitting a line drive across the field. "I get an adrenaline rush when I hit the ball. I put so much effort into swinging and it just feels so good when you actually hit the ball and it goes far," says Cody. 5. Coach Tomson speaks with his team after a game against Rodriguez. Coaches always motivate a team to do better in the next game and they give advice on what the team can improve. Not only that, but they also point out what the team did exceptionally well on to motivate the team even more.

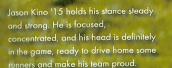

7. When other pitchers get tired, Lucas Bowers '14 comes to the rescue to throw some heaters, get some outs, and help the Armijo defense.

8. Baseball is a sport that is full of emotions, just like any other sport. Sometimes anxiety takes over a team player because anything can happen during a game, whether it be a small mistake or hitting a home run.

9. As pitcher Braden Remington 15 notices that the Vacaville player is further from the base than he should be, he throws to the first baseman, Kyle Ellidge 14 and gets the player out with a very close call.

10. Lucas Bowers '14 speaks with a teammate as he tells him what's going on and what he should do next.

Communication is a very important element in baseball, for the team has to know what to expect and what to look out for in the opposing team.

been players on the Armijo team, they have been playing the wonderful game of baseball for a long time before high school. After talking with a lot of the players, they have told us that they have played for either Babe Ruth city league or FEBA when they were younger. David Hostler '14 said, "I've been playing for so long that I don't even remember when I started. I just remember I was really little."

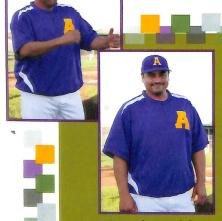

Freshman Braden Remington '15 is new to the Armijo baseball team but recently played for Babe Ruth in past years and still plans on playing for Babe Ruth. "I got a lot of my experience from playing when I was little and I use those techniques to help with this year playing for the school," says Cody Gonzalez '14. All of the players say that this season was good so far and will get even better by the end with a better record than last year.

1. Hayden DelDotto '14 gets ready to hit the ball with all his power and might as he holds his stance steady. He looks at the ball and concentrates on it as it is pitched to him. 2. Taylor Torrence '13 and Chris Parodi '14 give each other some pointers and talk about what their next move will be. Taylor's face shows pride and faith as he pushes Chris Parodi to do his best. Team support is a very important part of baseball, and these guys do it best! 3. Michael Faulstich '13 goes for the tag on the Benicia player in attempt to tag him out. Faulstich '13 has to have quick feet and a good glove to play his position of short-stop.

a navy to Armijo	

Coach Maldanado is new to Armijo baseball this year. He used to coach at Rodriguez but decided to take over as Varsity coach at Amijo. The baseball team thinks he is a good addition and really enjoys him as a coach. Maldanado brings a different atmosphere to the field and makes for a good all-around coach.

 Taylor Torrence '13 catches the ball and stops it from getting past him so the batter can't get to first base. Torrence '13 has been a first basemen most of his life and enjoys playing on the field.

Senior Jason Moorhead '12 pitches a couple

of solid innings against Benicia. Moorhead 12 said, "When I come out to pitch, I have a clear mind and my only goal is to throw

5. Tyler Fuston '12 springs up from position and gets ready to throw down to second base. Although this is Tyler's '12 first year on Armijo Varsity baseball, Tyler has been playing ball all his life. 6. Lorenzo Hill '12 eyes his competition over as his fellow teammate gets ready to hit. He wants to see what he can do to get around the competition by avoiding the small mistakes his last teammate might have made. 7. Sophomore Chris Parodi '14 pitches the ball down the field to a fellow teammate. Chris '14 is a versatile player, as he plays pitcher and catcher. 8. Tim Smithson '12 shows off his stance for hitting as he is ready to hit the ball out of the field. Tim really enjoys playing baseball, as he plays baseball outside of school too. 9. Junior Wyatt McCampbell '13 pitches to his catcher and he hopes to throw a strike. Wyatt '13 has played all three years so far for Armijo and hopes to make it on the team again for the fourth year. 10. Robin Roxas '12 gets ready to hit the ball out of the field. This takes lots of concentration and a good mindset; there is no room for negativity and pessimism in baseball.

Armijo Varsity baseball always comes out to the field to play hard and do their best. This year the team is coming out with a whole new attitude because of a new addition. The new addition to the team is the new coach. Coach Maldanado is now head coach of Armijo's Varsity baseball team. The team is almost all brand new with only six returning Varsity players. The rest of the team is either made up of JV players from last year moving up or new players that decided to join the team this year. Although the team is fairly brand new, the team works really well together and everyone gets along great. The team has a strong bond and all the players have become really close already. Every new and returning player brings their own twist to the team and the game. Each player contributes a lot whether they are on the field playing or cheering on their fellow teammates as they try their hardest at the game of baseball.

Vanessa Chamberlain '14 sprints to home plate to score a run at the River City tournament in Sacramento.
 Arriana Guttierrez '14 gets ready to blast the ball for a base hit.
 Anjelica Parra '14 makes a crucial play and throws to first just in time to get the runner out.

Types of Pitches

"Fastball"-The most common pitch in softball, and it's thrown at a fast speed. "Change up"-The "change up" is thrown with the same arm action as a fastball, but at a lower velocity to trick the hitter.

"Rise Ball" - The "rise ball" is thrown with a back spin and rises to the hitter. "Curveball" - The "Curveball" is thrown with a grip that makes it curve. "Dropball" - The "Dropball" is thrown to drop and decieve the hitter.

"Screwball" - The "Screwball" curves inside to a right-handed batter and slightly rises.

Arriana Guttierrez '14 runs as fast as she can to first after
 her impressive base hit.
 Anjelica Parra '14 sprints to second , then decides to
 advance to third.

8. Melida Sanchez '14 steps forward to get ready for her wind up to strike out her opponent.

If you could sum up the Junior Varsity Softball girls in one word that word would be DEDICATED. These girls have proved to be great ball players this year. With hard work and dedication they have improved an incredible amount. This year the team welcomed many newcomers including Kolbi Quist-Richard '15, one of their wonderful hitters who has proved to be an important asset to the team. Not only has Kolbi shown that she belongs, but, returning players, like Vanessa Chamberlain '14, have also shown off their fantastic skills. These girls haven't become great players overnight, they all practice very hard. Not only do they practice to improve themselves, but the team as a whole. These girls will all make great additions to the Varsity team next year!

9. Hannah Lawson '14 gets in the ready position at 1st base before the pitch.

10. Hannah Lawson '14 swings at the pitchers tricky "curveball"

- 1 Jessica Miller '14 prepares to crack the ball with her strong swing in hopes of getting a home run.
- The Varsity team gets together after a tough game against Vacaville to get feedback from Coach Rick Newman
- 3. Alesia Seldon '12 shows off her powerful swing and gets a base hit .

Getting Back in the Game

Kayla Fry Hancock '13 has played softball her whole life. This year was her first year back after recovering from an unfortunate shoulder injury in the summer of 2008. She had to go through countless acupuncture, and physical therapy procedures to get back. Now that she's back, she is ready to play her hardest for Armijo.

- Freshman Delaney Gray '15 starts to slap in the batters box. A slap is a special way to hit for a left-handed batter.
 Kelsey Bomar '14 gets a hit against Vacaville. Since she knows she has a single, she will round first and check second
- 6 Chardonai Rose '12 shows off her powerful swing against the Mesa Verde pitcher at the River City Tournament.

Sliding with Success

Armijo Varsity Softball isn't for the light hearted. These girls are all tough as nails, and the real deal. With their hard work and dedication, they've became a force to be reckoned with. These girls, practice days on end. They put in 100% effort in everything they do and by doing so, their team has improved greatly. Not only has that helped the team get better, but there's some special people in the dugout that put this team together. Coach Rick Newman, and Assistant coaches Mark Gray and Ray Sharp have done everything in their power to spend time with each and every girl to help them improve on specific things. With their help we have already seen great changes in the way the girls play. With these girls getting better by the day, there's nothing but success to see in the future of Varsity Softball at Armijo.

- 7. Kayla Fry Hancock '13 pitches her favorite pitch, a "rise ball", to strike out a Vacaville batter.
- 8. Jessica Miller '14 gives her best swing and it pays off with a hit to right field.

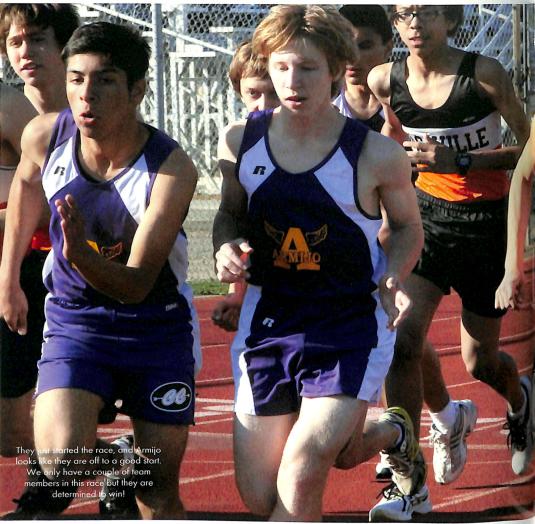

- 9. Lauren Sharp '12 fires the ball back to the catcher to make the out at home plate.
- 10. Caitlan Lea '12 runs to home plate and scores a run against Mesa Verde at the River City tournament

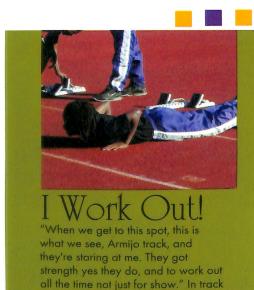

High jumping looks easier then it actually is; running and jumping won't necessarily get you over the pole. Arching your back as you are flying over the pole can give you that extra space you need to make it over.

2. As you can see in the picture these hurdles are a decent height to jump over. Sprinting towards them at full speed then leaping take time and practice to perfect.

you have to work out all the time.

school and sometimes on the

They have practice everyday after

weekends. They are fully dedicated

to being on the track and field team

- To throw a discus, you need dedication, strength, and sometimes a little bit of anger to make this disc fly. The object of this track section is to throw the disc the farthest.
- 4. Arrieyana Cartier '13 says this about track: "It's fun because of the people and the time and effort each individual puts into their event. The best part about track is cheering your head off while watching a photo finish."
- 5. Kyle Andersen '12 likes to run at his own pace. It gives him time to think about things that have been on his mind.

8. When you start relay races you have to start on the metal foot thing. Its supposed to help you start running to your partner.

Pace to Win It!

Everyone that is in track and field has a great time and a wonderful experience. It helps you get in shape while having fun and hanging with your friends.

In track and field you have a lot of options that you can do. You can do throw shotput, discus, jump over hurtles, do high jump, long jump, relay races, or just regular races.

This is Breanna Hardy's '13 first year in track and she loves it."Track is a cool thing to do. It gets you moving and pushes your limits." Breanna said this about track and her experience. She throws the shotput and discus and also runs.

Most of the kids doing track and field love it. "It's a good experience. It gets me in shape. I'm really enjoying it." Janessa Jones '14 says about track. Like she said, "track is amazing and it gives you a great work out."

9. Relay races is when you have a baton and sprint to your partner and pass the baton to them. This process keeps going until four laps are completed, which adds up to a mile.

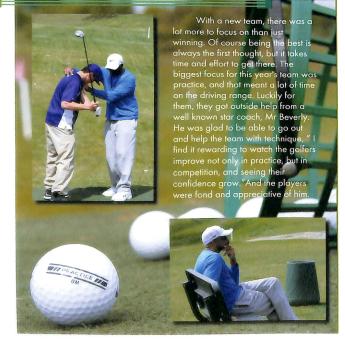

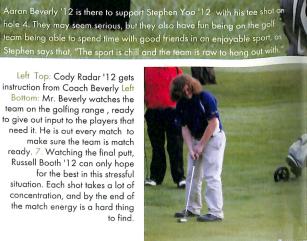

Practice Makes Perfect

Left Top: Cody Radar '12 gets instruction from Coach Beverly Left Bottom: Mr. Beverly watches the team on the golfing range, ready to give out input to the players that need it. He is out every match to make sure the team is match ready. 7. Watching the final putt, Russell Booth '12 can only hope for the best in this stressful situation. Each shot takes a lot of concentration, and by the end of the match energy is a hard thing

Almost starting brand new, this year's golf team has three returning starters, two returning players, and two players relatively new to the game of golf. But that doesn't stop the perseverance of any of the players. They focus on their own game and prioritize getting better over anything else; that and having fun.

The team is led by Senior Aaron Beverly '12, who accepted a scholarship to Sacramento State for golf, the first in a while to do so. He has big standards for the team, even with a rocky start," My hope for the team is that everyone enjoys themselves and sees a growth not only in their abilities as a golfer, but as a person". Other players find the game fun, winning or losing as Mike McLeod '12 determined, "I couldn't think of a better way to spend my time than playing this game with these people. It's awesome."

Golf may come off as a simple sport, but as the players know, it is not something you can just pick up in a day. It is a sport that takes a lot of practice, time, and drive, but is fun when you strive to become better and have good teammates to help you

1. Trevor Flynn '13 watches as he hits a powerful drive. He often plays outside of school, and enjoys dominating his competitors. 2 From the first tee at Rancho Solano Golf Course, every shot counts, and Cody Radar '12 watches his ball with fierce concentration. 3. Both Nathan McCall '13 and Russell Booth '12 have fun on the course no matter what, and come off the 9th hole with wide smiles after defeating Fairfield High. 4. Mike McLeod '12 and Aaron Beverly '12 share their special handshake of three hits and a salute to get pumped up for the match. For Mike it is a fun moment to share with his buddy. 5. Aaron Beverly '12 is almost always focused on golf, and hopes to be the greatest. he finishes off his follow through and holds a pose. 6 Known by Coach Dahl as a person who "Marches to the rhythm of a different drummer," Trevor Flynn '13 is always around at the course acting silly and having a good time.

1. Alyssa Heffernan '15 attacks the ball in the Napa vs. Armijo home game. Soon gaining control she steers the ball down the field and passes it off to a teammate. 2. Lauryn Williams '14 uses her entire body to keep possession. Though she may look tiny, she is the toughest on the field going against people twice her size and winning

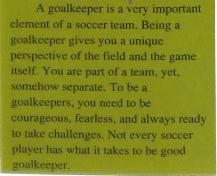

Keeping the goal Mive

6. Dribbling down the line with no one, and nothing except the goal, in sight; Amanda Bernal '15 stays focused and keeps an eye out for her team.

In most cases, the JV program is supposed to teach fundamentals to players in order to prepare them to play at the varsity level. This year's junior varsity soccer team is doing just this and more. Due to unforeseen injuries, six "would be" JV players were asked to play up at the varsity level. "It's sad to lose great players, however, we are proud as coaches to see our players develop so fast and be utilized at the next level," remarked Coach Levine on the loss of players.

This year's team is much deeper than previous seasons when it comes to talent, which is why they have continued to play at an elite level. Key sophomores Amanda Bernal '14 and Ashlee LeCheminant '14 have continued to be the anchors for this team while the play of Lauryn Williams '14 has provided them a very dangerous attacking front.

The goals for this team are simple as the season nears the half-way mark: prepare the girls for the varsity team and win games. The JV team is playing the same formation as the varsity squad, which will benefit the players even more than in year's past.

- 8. As a goalkeeper Anna Castro '15 needs to be ready at every moment of the game, even if the ball is on the opposite side of the field. This picture really shines on her hard work. Not only did she prevent the ball from going in the goal she kept her hands on it and moved it back down to the other side of the field
- 9. Armijo women's soccer is a very physical team. Andrea Cruz '15 goes in for a hard tackle against Napa in a home match. Cruz plays on the team with her twin sister Adriana '15.

Senior Sydney Sjoberg '12 takes the ball up to try and create an attack for the Varsity team. She says, "The attack for the team is very strong when the team works together."

 Karen Medina '12 controls the ball in the midfield looking for options to pass.

 Senior Jenny Dessel '12 receives the ball and continues to take it up the field.

The Fresh One

Shown left is a fresh element to the Varsity team, Cindy Rodriquez '15. A freshman on Varsity is very honorable and if anybody deserves it, she does. Cindy has shown she has the talent and skill to keep up with the intense game of the Varsity level. Cindy sees much time on the field.

4. Jessica Barker '12 uses all her strength to throw the ball into play. Jessica, being a key player in the defense, is seen all over the field for multiple tasks such as throw-ins, free kicks, goal kicks, and more. Being the aggressive player she is, you can also find her in the mix in the box during corner kicks.

5. Midfielder Megan Welsh '13 goes against her teammate Britney Wheeler '13 in warm-ups before a big game against Napa . She attempts to carry the play away from trouble in order to buy time for her teammates to get open.

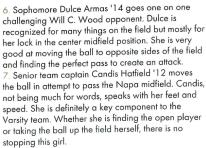

A Fresh Start

This season for the Armijo Varsity Girl's Soccer team there are many young faces. With players from each grade level the team worked on becoming a strong unit. Practicing many drills and personal skills, but mostly playing as one. With a roster of twenty one, only nine players are returners. These girls built trust in one another after a short period of time for the teams sake. They try to execute the passing game, swiftly moving around opponents and creating a strong attack with many numbers up. There is never a moment a player is moving the ball around without a teammate near by always as an option. "It was tough the first round through learning how each player moves on and off the ball," says Sydney Sjoberg '12. She continues to say the players quickly adapted to each other wanting to build that chemistry the team needs to work together as one. Junior Megan Welsh '13 says, "In the beginning being a new team it was hard to develop chemistry but we put in hard work and developed that chemistry and became close on and off the field."

8. Sophomore Erin Erwin '14 warms up with Coach Brad Burzynski diving left and right perfecting her goalie skills. Erwin was called upon early in the season to step up and take the goalie position. She spent her summer on her club team playing the field but for the Armijo season holds it down in the net.
9. Junior Leeza Oyoung '13 carries the ball up the line, a play the team has much success with. Leeza improves more and more each game she plays.
Being an outside midfielder and also seeing time as a forward she knows when to drop back for support and stay high for the attack.

1. Nick Dolan 12' concentrates on the ball coming at him ready to smash it back with his forehand. He's been playing number one singles for three years now. 2. Steven Landgraf 12' hits the ball back with a fancy backhand volley. 3. Captain Daniel Lavell 12' is responsible for keeping the team motivated and working hard.

A winning team takes dedicated players who work on improving themselves everyday. If they lose their match, they have been known to run 3-5 miles after the next practice so that they can push themselves to do better next time. Mentality plays a huge root in the average of this land.

- 4. Bryan Ard 12' throws the ball into the air and gets ready to hit the ball with all the power in his serve.
- 5. Daniel Lavell 12' prepares his serve, getting his stance right, in order to hit the ball with full power. The serve can be seen as an advantage since the server has the control of where to put the ball, however, it can also backfire if it is not done

- 7. Sebastian Brown 12' hits the ball with a powerful backhand; a more advanced way of hitting because it's harder to control the trajectory.
- 8. Erik Rye 12' watches the ball come to him ready to volley it back. Patience is very important to getting a point; sometimes it comes down to whoever can volley back the ball the longest.

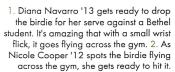

Men's Tennis is one of the most successful sports at Armijo. You might not hear about Tennis wins as a competitive team like soccer, basketball, or football. However, here at Armijo Men's Tennis is one of the best sports we have. With 27 players on the team this year, and 12 of them on the lineup, the Men's Tennis team is undefeated and on a 82 game winning streak. This is due to the teams great dedication to the sport and the hard work that they put into practice.

The team is full of great leaders and this year has four captains: Daniel Lavell '12, Nicholas Dolan '15, Bryan Ard, and Matthew Santos. They are responsible for keeping the team motivated during hard games, and pushing them to improve their games during practices. The coach also plays an important role in their great success. Rain or shine, he doesn't cancel practice; he is constantly giving them tips on what they can do to improve their game.

The team always supports each other while other members are playing in their singles or doubles matches during game days. Even though the team has the winning record, ultimately, it is the players themselves who push themselves to win every set, every match, and every game.

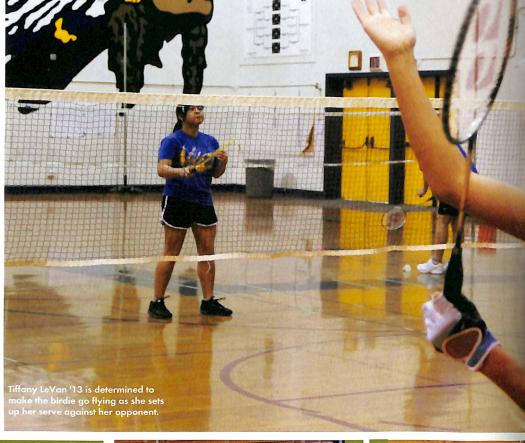

10. Brad Davis '14 is serving the ball during a challenge match. Challenge matches are a way to determine who is in the line-up. All of the members have the opportunity to play against each other to move up on the courts.

Getting in the Zone

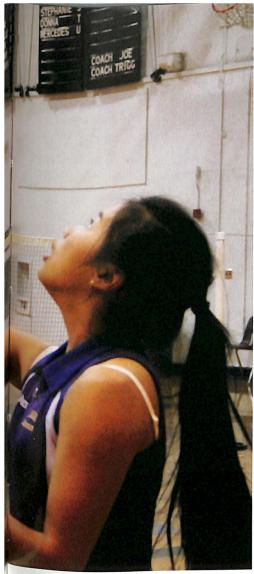

Before each Game, each of the players have to "get in the zone" to play their best. There are many different methods the girls use to get pumped up. Some just listen to music and chill with each other, ney call this a "pow wow." They try not to think about their opponents and stay relaxed and have fun. One player says "game day brings on the zone automatically," and the other team can "bring it

3 Cassarie Soungpanya '12 dives for the birdie to prevent the player from the other school from earning a point in their

4. Brittany Simmons McCoy '13 scurries backwards in attempt to hit the birdie flying at her.

Badminton isn't like other sports. Instead of one game determining who the winner is, there are 15 matches, each consisting of a best of 3, that determines who wins. There are many different elements that make up badminton, such as hand-eye coordination, good aerobic capacity, quickness and anticipation, shot placement and selection, and a never give up attitude. Each of these individual elements bring together the sport that is a team concept to win. Like the popular game, Angry Birds, the girls on the team use hard work and dedication to win, although they're not trying to win back their home from evil pigs. They're just trying to win for the pride of Armjio.

Before each game, Coach trig tells the players, "I know what our team can do," and to "hit it where they ain't!" in order to pump them up. When the players were asked how they would define the word fierce, they said it means "they are highly competitive." The badminton team, bringing together their different elements had a fantastic season this year, and will have many more to come!

6. Adhithi Narayanan '12 lunges forward to swat the birdie and score a point for Armijo in her match. She is very fierce and does whatever it takes to win.

7. Aishwarya Thakur '13 brings her racket back to serve the birdie against her opponent. Her team mate Sarhea Reyes '13 in the background readying to hit the birdie in her match.

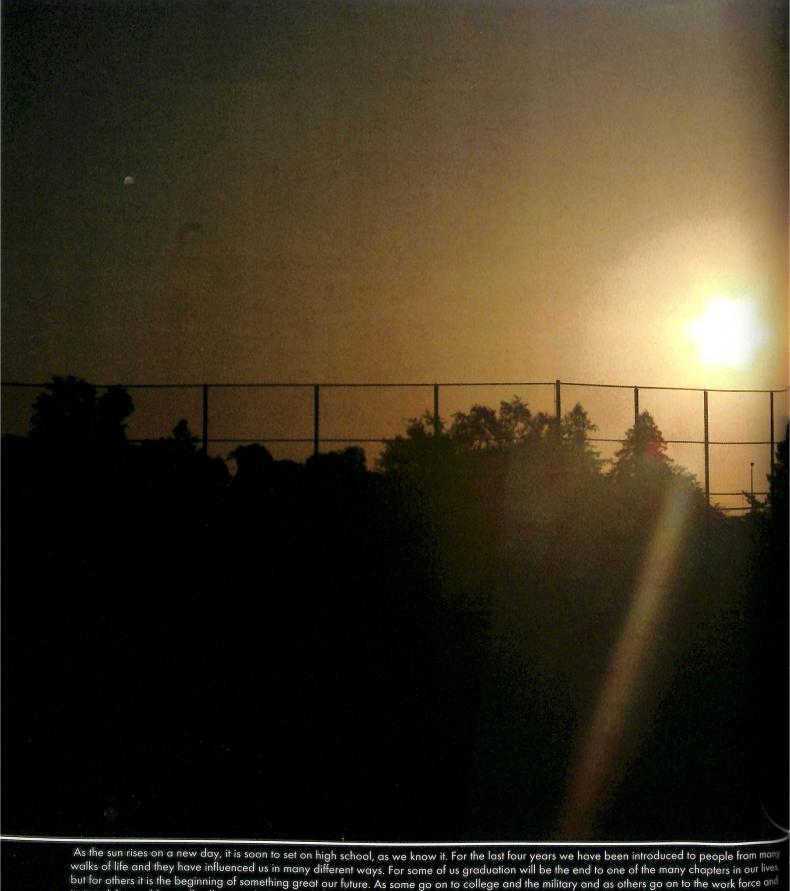

8. Ann Pastor '12 smiles and welcomes her opponent to a fierce match against Armijo High School.

 Kimberly Dumlao '12 puts her game face on as she hits the birdie so hard, her opponent had no chance of hitting it back.

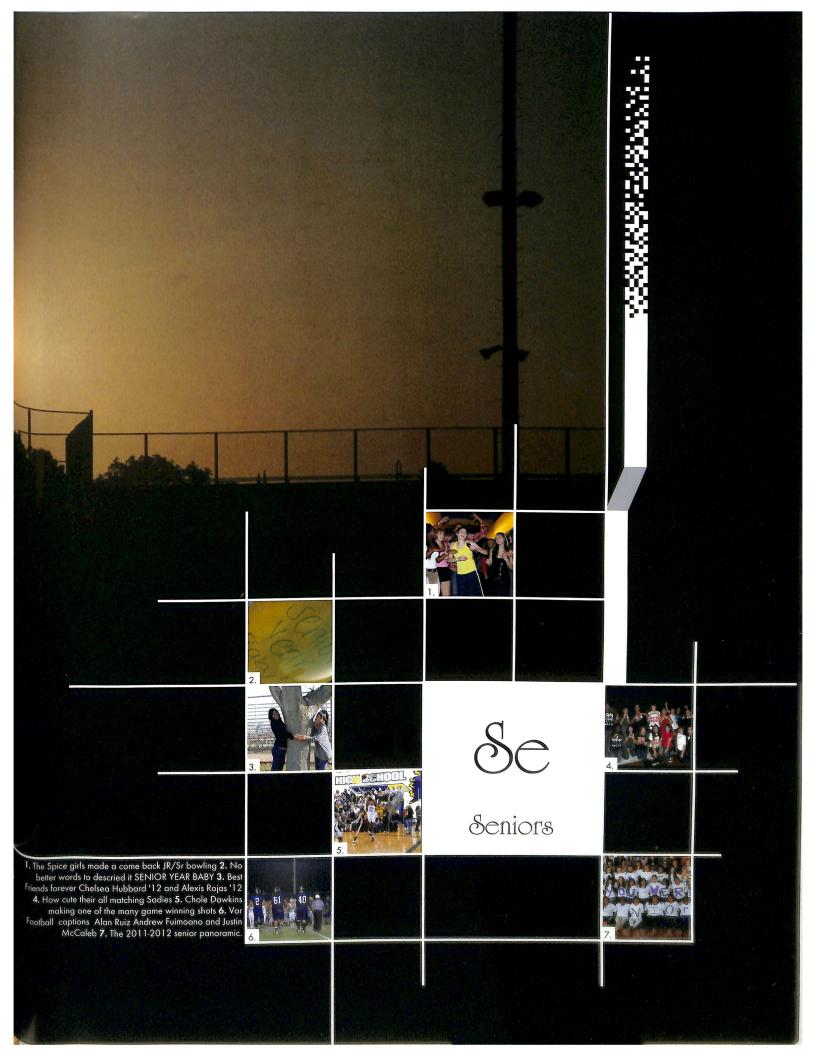

As the sun rises on a new day, it is soon to set on high school, as we know it. For the last four years we have been introduced to people from many walks of life and they have influenced us in many different ways. For some of us graduation will be the end to one of the many chapters in our lives but for others it is the beginning of something great our future. As some go on to college and the military and as others go on to the work force and to travel the world, we all will enter which walk of life we choose with full enthusiasm and a open mind. And though life might not always deal us a perfect hand, as the class of 2012 we have the power and knowledge to overcome any obstacle we may face. If there's one thing you take away from high school let it be the satisfaction of knowing you made it; let it be that you followed every rule to the best of our ability, that you passed every class as well as you knew how. Take away the fact that you met every requirement that has been placed on you to graduate high school, just know that you have made it. So don't be sad or afraid, hold your head up high and know that you've made it half way through the circle of life.

Armijo High School has 1000+ students, and each and every one of them is different in their own way. High School for some people may be a place where best friends are made, and people fall in love. For others it's a time in their life when they find their first job, or get their first car. In the end, everyone is here to get their 230 credits, graduate, and start their lives. Varsity captains Lacey Bostic '12 and Jessica Bossett '13 gather their cheer squad at Freshman orientation in the picture above. Having the cheer team show new freshmen around really brings together the different elements of our school into one "Periodic Table."

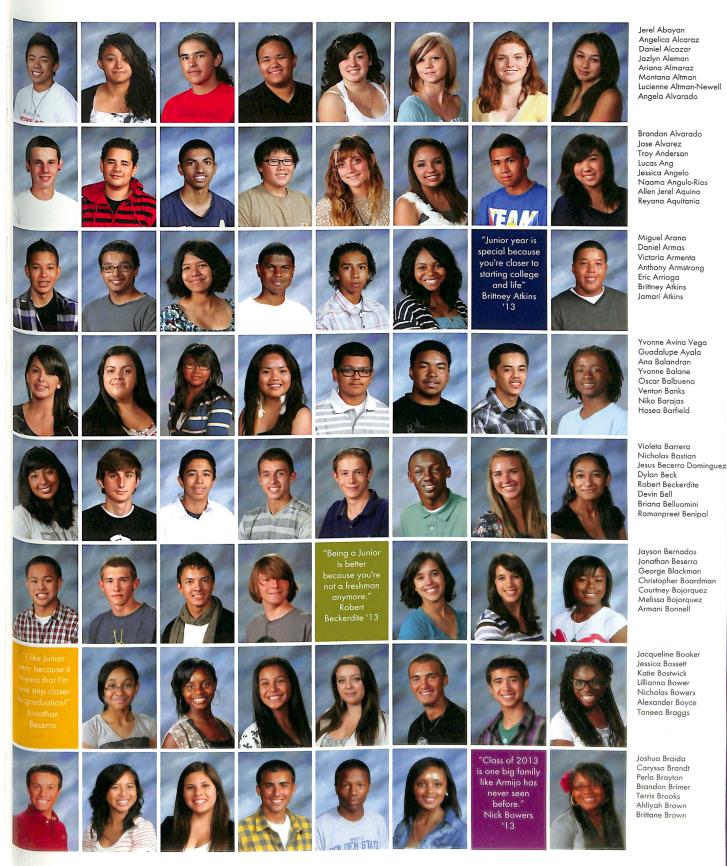

JUNIORS

So fresh,
So clean,
We are
the
CLASS
OF

For the Junior class of 2013, this school year seems much different. They have grown up immensely and have risen to the role of being an upperclassman. This year is a year of new experiences, for most. Growing up means that much of the class gets to drive themselves to school for the first time and a new freedom is found. The Juniors also experienced new classes and some have started participating in the International Baccalaureate Program and to take challenging and accelerated courses. This specific class always seems to be challenging themselves, whether it be in sports, academics, or even in their own personal achievements. They will never back down and will always rise to the occasion. The Class of 2013 has high expectations going into their final year at Armijo and will do everything in their power to make sure it's a memorable one, but for now are enjoying their time as the Junior Class of 2013.

3. Tyler Bouchard '14 prepares his keyboard for the Dixon show.

was yelled out by TJ. Decker '12, right after he sank down into a pond that was hidden by dirt. That quote was not only the spark to the idea of this bands name, "Taking Us Alive", but it also was the start of something magnificent.

"Taking Us Alive" is a metal band that officially started around November of 2010. They have already performed live in many places like, "Redhouse" in Walnut Creek, and "The Dixon Rock Studio", in just a short period of time. "It was a long process but very well worth it" says Issac Gomez '12, "to look back and see the way everything fell into place is

really something else."

With High School and the band members attending different schools (Armijo, Rod. and Sem Yeto), it can be hard to keep on going but, the members of this band show that if you work hard enough and never give up, you can truly live out your dreams. "Just the feeling of being on stage is amazing" says Paul Mooradian '13, "I love knowing I'm actually doing what i love in life...i need it".

Live Strong. Nathan Strong

Nathan McKeever is a junior at Rodriguez high school. Nathan was diagnosed with lung cancer during the summer of '11. Even with the terrible news, he kept on moving on with his life and stayed positive.

When school came back around, Nathan was just starting chemotherapy and wasn't at school as much as he wanted to be.
Nathans fellow friends and peers wanted to do something that would support him, in this brainstorm a senior at Rodriguez, Milad Rashidian, started making shirts that said "Live Strong. Nathan Strong." on them. He stated that most of the profits he made would go towards Nathan's procedures.

Not only did people buy and wear the shirts, boys also shaved their heads in support. Nathan has impacted many people's lives not only in students at Rodriguez but at Armijo as well. He has friends and teammates that attend Armijo high.

Destinations

Everybody has a destination in life, whether you aspire to be an Engineer, a Dermatologist, or to serve our country. We all have plans and places we want to go, it's just a matter of what we have to do to get there.

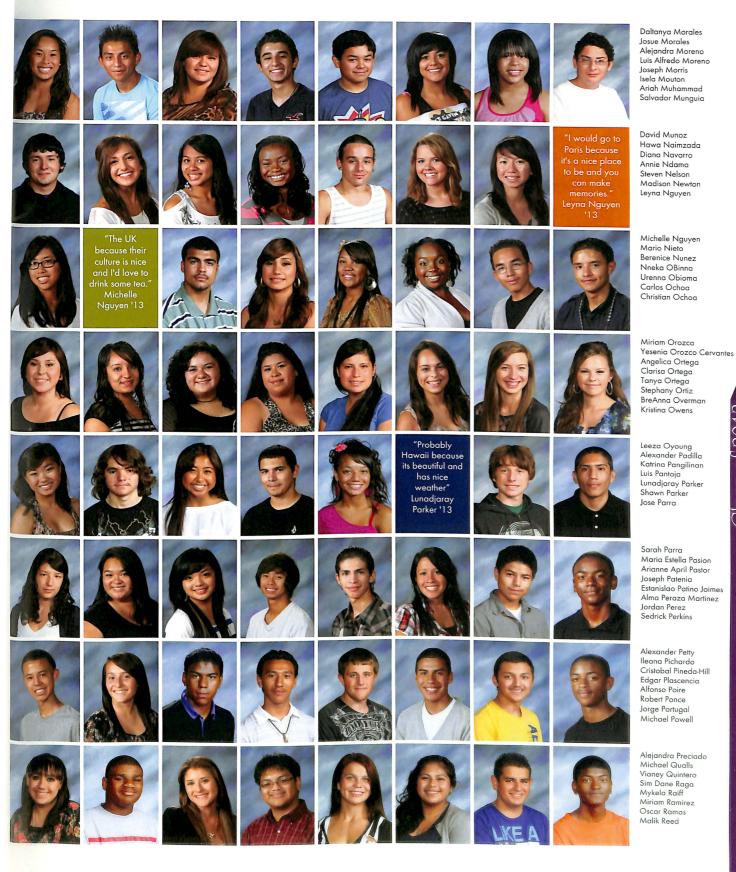

Tyler Fuston '12, shown to the left, plans to become a Motor Transport Operator in the future while serving in the Marines. He plans on taking his General Education wherever he is stationed on base.

Sometimes the people you admire most have an influence on your future plans. In Tyler's case he says, "My brother and grandfather are my motivation. My brother served in the Marines and my grandfather served in the Air Force." It has always been a dream of Tyler's to serve our country and he feels that it is the best choice for him.

for a math quiz. Lauren is taking I.B. classes in hopes of getting accepted to Stanford University. 2. Senior, Tateyana Hendricks '12, is caught putting her books away after class. Tateyana plans to attend Simpson University. 3. Zachary Clark '12 concentrates on building an earring holder in Woodshop. Clark says, "In the future I hope to become a successful Civil Engineer.

1. Lauren Seabrooks

The Life of a Hacky Sacker

Anthony Nelson '14 plays hacky sack for fun when he has time to with his friends.
 When we asked John Gumpapas '12 why he hacky sacks he responded with, "I do it to meet new friends and to have a good time."

 Paul Mooradian '13 hacky sacks because it kills time and is a fun hobby.

Alexander Boyce '13, Paul Mooradian '13, John Gumapas '12, and Anthony Nelson '14 all have one thing in common, they all hacky sack. Boyce '13 started playing his freshman year and enjoys hacky sacking today. He can also do some cool tricks. Mooradian '12 started to hacky sack just over the summer and has become good at it and enjoys playing around school. Gumapas '12 started to hacky sack because some kids in his class do it and decided he wanted to try it out. Nelson '14 plays when his friends are playing and enjoys passing around the hacky sack at school sometimes.

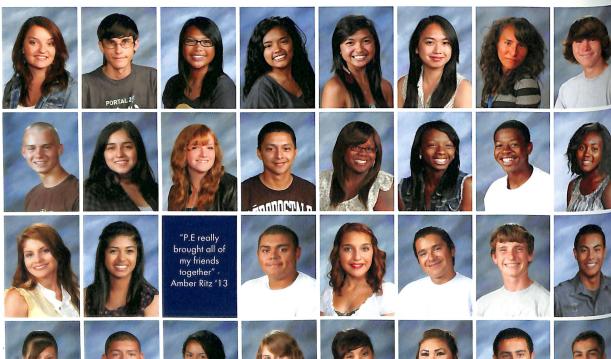

Hacky sack might seem like a easy hobby by just kicking around a hacky sack, but it takes skill to keep the ball in the air. One of the simplest games is called Hack. The players try to pass the hacky sack around to everyone with out dropping it.

Whether it's giving feedback for school activities or making suggestions for how things could be better, the House of Representatives are always representing the students of Armijo High School. Once a month, every month, one didnet from each fourth period class meets at the new school library to discuss some of the different issues that effect armijo and the students that go there. "We have already done so much," says Melissa Padilla '12, who is the ASB vice President, "The variety of students that come, have already been apart of feedback, how to improve things, and the \$10,000 challenge."

This year, being the second year of having this program, the students involved have really been trying to make it even more effective. Not only do they give their opinions about how things could be better but they also meet with heir fourth period classes and get the opinions of almost every other student. Making sure that the student body's voice is heard is one of the most important job for the House of Representatives. They truly are the voice of the Armijo love informing other people about occurring events, whats happened and sharing opinions of others," says Elijah alandanan '13, "it seems like this is just a stepping stone, we're still learning and figuring things out."

200 Sept. 10 Sept. 10

Throughout centuries people have expressed many things by using different types of body art. Senior Paisley Finley '12, pictured to the left, is showing off his moms name surrounded by angel wings. "My mom is the angel of my life," Paisley said. In addition to that, his right arm is dedicated to his dad, and his torso is all about himself.

If you were to ask Paisley to show you his tattoos, he wouldn't have a problem with it. He is very proud and confident with his angelic tattoos. When Paisley got his first tattoo, he knew it wouldn't be his last.

Some people get piercings for religious or spiritual reasons, while others pierce for self-expression. Ear piercings are the most commonly stretched piercings. Magdaline Wang '13 started with a simple stud earring, and over time she has gotten her ear to a size 5/8 gauge.

"Yes, if it's on your body, a tattoo should

mean

something."

New School vs. Old School

Have you ever wondered what the difference is between newer cars and older cars? It's not only the appearance that's different, but also what's built inside. Everything from how it runs, to how much gasoline is needed, is different.

Which one is better? Well to start off, Paul Mooradian's '13 2010 Camaro (left) is simply an outstanding car. It has extraordinary acceleration, capable handling, head-turning looks, and a unique interior design. I asked Paul why he likes his car so much and he responded with "It reminds me of Bumblebee from Transformers.
Yeeaah Buddy!"

The car on the opposite side (right) is an older model and it belongs to Jordan Perez '13. This is a 1987 Camaro RS and what's so unique about it is that it can withstand years on the road and still be in good condition. It has great gas mileage and is a very reliable car.

Tell me, which would you choose?

the ladies, always gets compliments from strangers, and is a smooth ride."
2. Austin Liddicoat
'12 leaning back on his 2010 Mustang. What he likes so much about his car is that "it's an American car and it's 2010."
3. "I can use this car for anything" is what Daniel Lavell '12 has to say about his

Toms

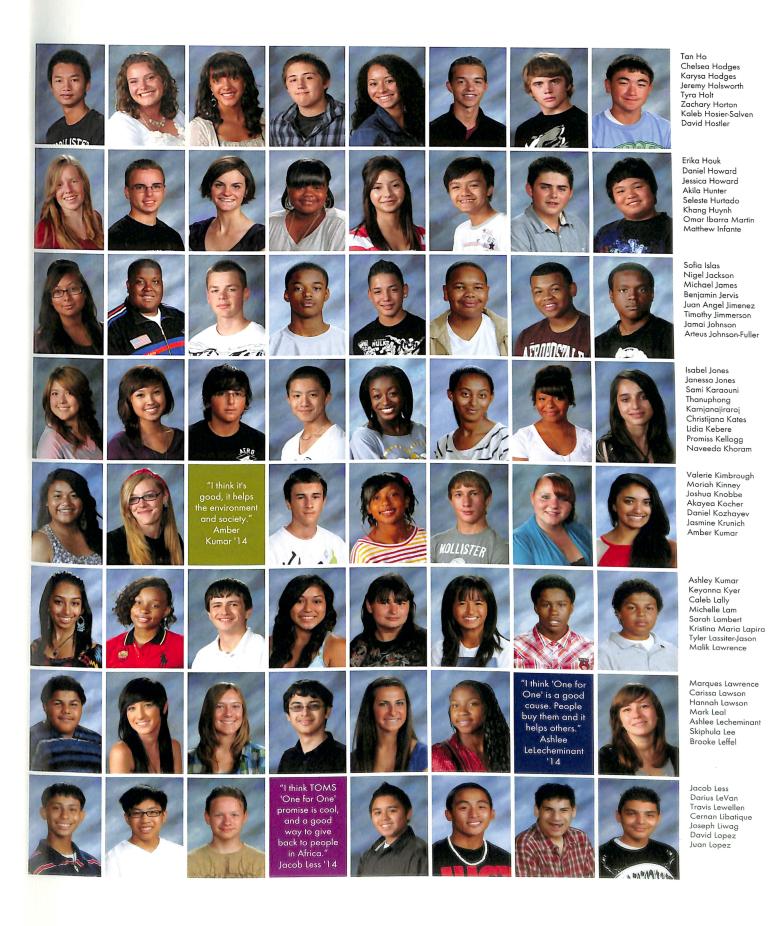

1.Sophomore Jai-Nice Robinson '14 wears one of her two pairs of Toms. "Toms give you style," she says. 2."It's good to know I'm giving to someone else, and also getting something for myself," said senior Daniel Garcia '12. According to Sarina Rodriquez '13, Toms are the most comfortable shoes ever. "They are so cute, and they go with just about any outfit!"

"One for One"

Toms shoes is a for-profit company located in Santa Monica, California. The company was founded by Blake Mycoskie, an entrepreneur from Arlington, Texas. With every product sold, Toms will donate a pair to a person in need. Over 1,000,000 pairs of shoes have been given to children under the One for One movement since TOMS launched in 2006.

Senior Rachel Williams '12 owns three pairs of Toms, and one Toms shirt. "They are really cute and comfortable. I love their products and they are made very well!" Rachel says. Rachel's favorite pair are her pink glitters, they are bright just like her personality.

<u>'If You Ain't First, You're Last"</u>

Every kid dreams about growing up to be something cool. Ever since Travis Lewellen '14 was 6, he didn't just dream of racing sprint cars, he actually lived his dream and raced. After Junior division, racing older drivers with more experience was no problem for him. Travis races a Yamaha sprint car with a R-6 engine, on a 1/8 mile clay track. The number of laps he races ranges from 20 to 50 depending on the event and how many drivers there are. Travis '14 shocks everyone in the racing community because you wouldn't think that he can compete with more experienced drivers, but in the past 2 years alone he has won 13 championships! When asked who his biggest supporter was, he said his family. They are always there for him and cheer him on at every race. Travis '14 lived out his dreams, and inspires us to try to live out ours.

- 2)Today at lunch leadership is hosting lunchtime activity you're:
 - Right in front ready to go play, you love lunchtime activities
 - Watching from the crowd, you enjoy them
 - At your normal lunch spot with your friends
- 3)Spirit weeks coming and the days are announced, you're going to:
 - Dress out every day, you think they are so fun a)
 - Dress out only on the days you like
 - Don't dress up at all you really have no interest c)
- 4) Friday night lights are on. It's game time. Where are you sitting?
 - Right next to A-Team, you like to be live in the action and excitement
 - With your close friends talking and watching the game b)
 - Your standing by the snack bar not paying much attention
- 5) Purple and gold day arrives time to show your Indian Pride you:
 - Paint your hair and face purple and gold
 - Wear an A-Team shirt you received
 - You wear Black and Red, you forgot

Directions and Purpose: This quiz is designed to see how much Indian pride you contain. Taking it is simple, you simply read the question the select the one that fits best with you. At the end see which letter you have the most of. Then find that letter and read the results and find out how much Indian pride you have.

Dancers

Different styles of dance are all recognized in D-Hall including: turf dancing, break dancing, bone breaking, and many more. D-Hall dancers are a very diverse group of students that dance to diverse types of music. The dancers also have different styles of expressing their talents. D-Hall is the place to be; every lunch, and before school and after school on Wednesdays and Thursdays. George Blackman '13 has been a D-Hall dancer since the beginning of his freshman year. Since he goes to D-hall everyday, his dancing has improved a lot over time. He says that dancing everyday only makes him a better dancer than he was the day before. D-Hall president, Chadd Verano 12' says, "D-Hall inspires

me to keep my grades up because if my grades are bad then I will no longer be able to attend D-Hall." Dhall continues to be a place for students to express themselves daily

1. Senior Chadd Verano '12, D-Hall dance president, shows off his tutting skills finding new angles in order to express how he feels" and to perfect his dancing style. 2. Junior Melvin Timtim '13, break dancer, expresses himself through sliding into position after an impressive glide. 3. A multi-cultural group of dancers with a lot of different styles of dance come together everyday to form the D-Hall

dance group.

Unknown Talents

1. Stephan Benjamin '15 "bone breaks" as he shows off his unique dance. Benjamin's capability to bone break distinguishes him among his freshman peers and helps identify him as an individual

3. Tateyana Hendricks 12 utilizes her duct tape binder that she created through her patient and artistic abilities. Her talent not only allows her to create unique school supplies, but saves her money as well.

It's always striking to find out something new about a classmate. Usually, we only see fellow classmates in a classroom environment, which makes it difficult to know what hidden talents they could possess. Though some students may appear to be quite ordinary, they are much more than that. For Ramanpreet Benipal '13 and Rajpreet Sidhu '14, dancing is not just a talent, but a way to keep their culture alive. They dance Bhangra, an energetic Indian dance. Though it is tiring, they can still see themselves performing for years to come. "This shows Armijo is diverse," says Benipal. Sidhu agrees, and says "Armijo students are different and participate in a variety of activities." Certainly, it can be said that Armijo is composed of a variety of elements because of the diversity in the student body. From duct tape artists to Bhangra dancers, Armijo students offer a variety of talents that make our school unique.

The Sem Yeto Leadership class is a class full of personality! Though this is the program's first year, his class has created their own family, and have made their own mark into Armijo's history. This leadership class has worked hard to develop a positive view about who they are, to lead within in the class, and has grown so much in the year to be able to lead their entire school. They have worked hard io join their campus with Armijo's campus by promoting and participating in AHS events, like Student vs. Staff. However, they collected 574 jeans for their Teens for Jeans drive! Not only did they collect from Sem Yeto but they expanded their community service project into Armijo.

Above all, the class itself has an element of pride and fun. Pride in themselves, for what they have accomplished, and for everything that they will do; and fun, because they can make any situation to smile and laugh about. Sem Yeto Leadership class has been fearless and courageous in paving the path for the future of their program, and that, is true leadership. With everything that they have accomplished this year, they have done more for the future of the Leadership program, and even though it has been tough, they never gave up. We can all expect great things from this Leadership class in the future and that gives Sem Yeto an important element; the element of surprise.

FRESHMEN

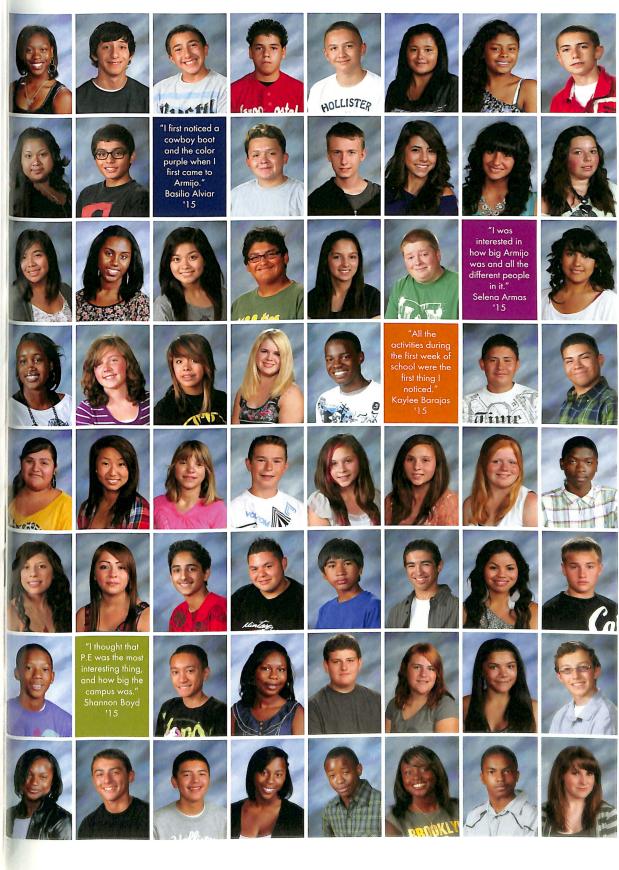

Being us and having fun Class of 2015 is how it's done.

Freshmen year is a year of new experiences, new memories, and new people. Armijo offers a lot of new events and obstacles that the class of 2015 took in stride. Every student first noticed something different and interesting about their new school, but there is so much left to discover

in the depths of Armijo. From getting used to the big campus, to participating in Lunch Time Activities, and getting involved with different clubs, sports, and band, the freshmen have started to figure out everything that Armijo is about. The Class of 2015 has started to get a feel for the classes and have made their own mark on Armijo. This freshmen class always keeps people on their toes and always makes the best out of any situation! There is no doubt that this class will continue to grow and make an impact on Armijo for the years to come.

Malik Price '12 Said his pet peeve is when people are overly obnoxious.

A pet peeve, while only a small something, can lead to major annoyance. Everybody has a pet peeve, whether it be loud people or pets that do their business on the rug. One of Mr. Brandt's main pet peeves is when students do not pay attention in class during a lesson and just don't seem to care about learning. But the amount of pet peeves is definitely not limited to only these. While common pet peeves could be clingy people or when people don't text back quickly, there are many unusual pet peeves too: Dirty keyboards, when people ask "Can I ask a question?", the noise Styrofoam makes when rubbed together, motel pillows- the list is endless. Do any of these sound familiar to you?

Obsessions

Obsessions. Everyone has them whether they realize it or not. Some can be small and concealed, but others are a lot bigger and noticeable.

If you know sophomore Andrea David'14, then you can tell that she's burning up with the Beiber Fever. Sometimes called "Biebs" by her friends, Andrea is said to be obsessed with him because "he's amazing and he's unlike any artist." Not only does Andrea plaster pictures of Justin in her locker, but she also owns countless items pertaining to him including his perfume, nail polish, toothbrush, and of course, more than 70 posters. When asked if she'll ever stop loving Justin Beiber, Andrea responded with: "After five years of true love and dedication, I don't think I'll stop for a long time. Possibly even forever."

Obsessions are one of the many elements that make up Armijo High School. From obvious things to withheld things, whether you know it or not, you are obsessed.

Brianne Holmes Eric Homer Erin Homer Eron Home Dakota Howard Gabriella Huerta Jessica Ignacio Louie Ignacio

Embarrassing Moments

Chardonai Rose '12 remembers her embarrassing moment during a softball game at Vacaville High School. She fell after flipping over a fence to catch the ball, allowing the opponent to score a homerun. 2. Kristina Vigil '14 recalls running to the bathroom to throw up, and not making it to the stall. After an embarrassing mess, she learned it is better to stay at home when you are sick. 3.Roland Lubin's '15 'split" resembles the time when his accidental split

resulted in his pants

ripping. He was attempting to jump

and landed in a

"split" position.

high over a bench

Embarrassing things can happen at school, and these moments are forever remembered. Though they can be accidental, some embarrassing moments come from our mistakes and instances in which we should have used our brains. Looking back at embarrassing moments brings laughs as we reminisce on times in which our faces turned bright red and we felt completely humiliated. Alexandria Castañeda 12 recalls an embarrassing moment during lunch, in which she fell on rocks while chasing a friend. "I was chasing my friend around a lunch table and was going to attack her with my love when I slipped and fell," says Castañeda. Though she was just goofing around, she ended up scraping her knee and gained the attention of several witnesses. just laughed along with everyone else. It's good for the soul," she says, which is really the best thing you can do.

<u>From Singer to Student</u>

1. Joseph Thompson '15 accepts a first place award for winning a singing contest. 2. As Joseph Thompson '15 poses for the camera he thinks deeply about the performance he is about to give. 3. .Every kid has to keep busy, but Joseph Thompson '15 stays occupied after traveling to several cites and states by

texting and playing

games.

Armijo is filled with all kinds of talents whether it's dancing, skateboarding, or other artistic abilities.

At this school talent is not hard to find especially if you are freshman Joseph Thompson '15. He is a very talented gospel singer that has been all over the US performing different selections of gospel songs. He says, "I have been strongly influenced by gospel music's positive message and inspirational uplifting sound." His parents encourage him to pursue his goal of becoming a recording artist and gospel singer. He explains, "My mom takes me where ever I need to go and books my performances." He began to sing at the age of four and stuck with it because it has been his passion ever since. Singing means a lot to him because it has a positive effect on his everyday life. Joseph, also known as Jojo, doesn't just dream, he lives up to his dream.

One Size Doesn't Fit All

They say high school is for the big dogs, but the freshmen are making a whole new statement! Small is the new way to go here at Armijo. Nevertheless, no matter how tall they are, nothing stops any of these freshmen. The sky is the limit!

Two freshmen in particular are on the opposite ends of the spectrum. Randy Gipson '15 stands at just 4'7", but that doesn't mean anything to him standing next to Jansen Smith '15 who's a whopping 6'4". The only limitation for Jansen, that comes with height, is not being able to ride Vertical Velocity at Marine World.

Besides connecting with height extremes, both are involved in sports. Randy participates in AAU, Around the World Basketball, and Jansen plays on a team outside of school also. The competition is on at the basketball courts as both claim the game and are trying out for Armijo's team. No mater the size, all the freshman are big dogs

with full confidence. 3. Being 4'6" Eddie

Serving up Love for Tennis

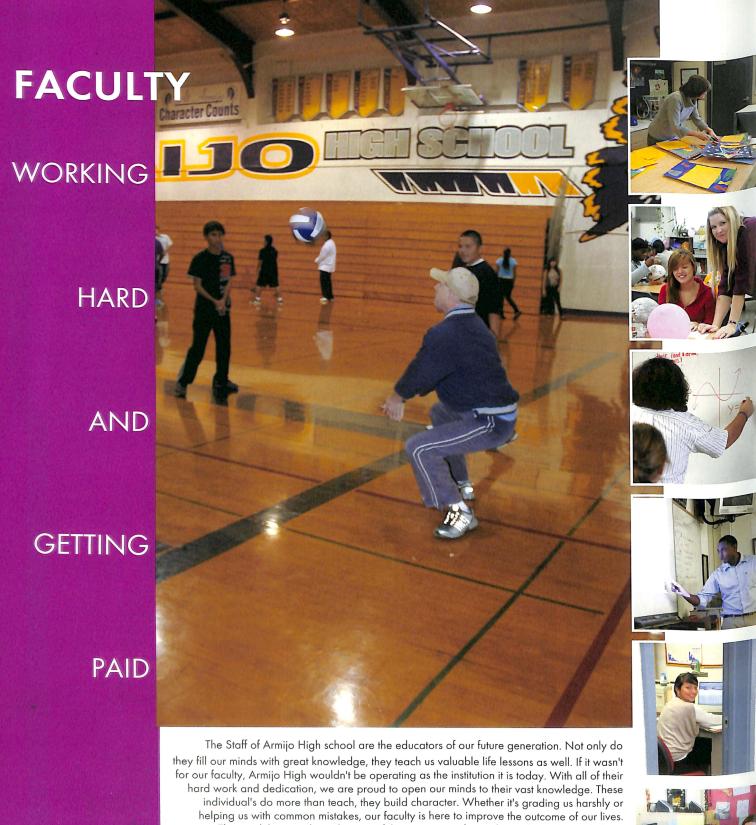

Isabella Heidenreich '15 is a freshman that eats, lives and breaths tennis. All of her hard work that she puts into he training for tennis has paid off. Bella is now currently ranked 13 in the nation for tennis!

Bella started playing tennis when she was six years old, her mother had signed her up for lessons to give it a try and then Bella fell in love. Out of her family Bella and her mom both play. She currently plays at the Green Valley country club.

In eight years or so Bella says she would like to be graduating from college, hopefully Duke. A friend of Bella, Kylee Webster '15, says that she supports her 100%. Even though the two can't hang out as much as they would want, because of Bella being so busy with tennis, Kylee says that she wants to be friends with Bella for a long time and will hang out with her whenever she can.

1. Bella was in homeschooling for quite a long time but now she comes to Armijo and going through school just like your average teen. 2. During tennis matches, Bella plays on court one which is for the most gifted player. 3. Even though Bella may not practice with the other girls, she is excepted and plays well with the rest of

Armijos tennis team.

they fill our minds with great knowledge, they teach us valuable life lessons as well. If it wasn't for our faculty, Armijo High wouldn't be operating as the institution it is today. With all of their hard work and dedication, we are proud to open our minds to their vast knowledge. These individual's do more than teach, they build character. Whether it's grading us harshly or helping us with common mistakes, our faculty is here to improve the outcome of our lives.

These adults went through some of the same struggles and now their job is to help us understand why we need to overcome these obstacles, and how we can achieve this goal. Students, teenagers, kids, all share common ground, the adults that care for their future. With the right educators anything can be achieved. Some people believe that teachers are our only educators, but truly, everyone of the faculty can teach the students of Armijo High School, one way or another. Educators, teachers, staff, they all share common ground, the students.

Work and Play

Just like students, teachers enter the halls of Armijo High School and go through daily rituals. Teachers have good friends who help make the everyday norms a little bit easier. When it comes to teachers and their best friends, there have been strong relationships made over the past years while working here

at Armijo.

In 1986, both Mr. Clark and Mr. Summers began working here at Armijo High, Clark taught drivers training, while Summers taught German. Today you can find these two pals right in H-hall teaching photography and multimedia. Their friendship over these last 25 years has grown into something very strong. They both have a heart for teaching, and show love and support to the students and staff here at Armijo High. These unique guys always leave an impression, the fools of H-Hall, and proud!

bugs together.

Teachers;

Then and Now

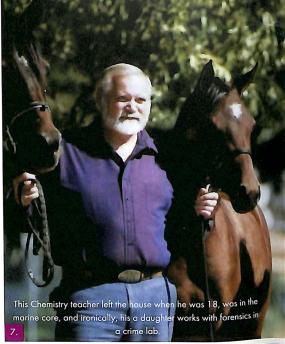

Believe it or not, Teachers were teenagers too. Between the breakouts, crushes, grades, and friends, they were trying to figure out what to do with their future. The fashions they looked up to when they were in high school have changed dramatically and kids today would never have thought to wear anything like they did. The music genres are not what we would usually listen to now a days, but back then it was the best music they had ever listened to because it was brand new.

Things have changed since then. Television for some teachers was still black and white, High Definition television wasn't even thought of! There was no Internet and our beloved Facebook didn't even exist. This meant that these teachers received mail through the mailbox. Many, believe it or not, talked to their friends face to face rather than using technology.

Everything has changed since the time most of our teachers were in High School. Before you judge too quickly, remember that we will look at our High School Yearbook and compare ourselves to a later time.

Just for fun, match your favorite teachers to the pictures on the bottom. Who is Who? Need help? Read the hints that were numbers accordingly to the pictures. Good Luck!

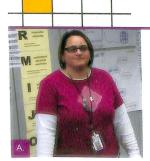

4. This teacher has her placed all the way back in the portables, located in the annex. Her room number is E-8. She teaches history and loves it.

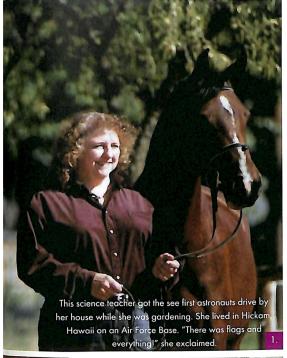

6. We usually don't see her around campus but can find her in the front office here at Armijo. She graduated in 1972 from Yqnaciu Valley High School. During High School, her daily wardrobe included bell bottom pants and pheasant blouses. Her favorite music was rock and soul.

2. This English teacher was mainly in honor classes while attending Irving High School in Texas. She remembers not being able to attend the arrival of President Kennedy because of tests she needed to take that day, but later saw on television that he was assassinated. She dropped out of high school at the age of 16, but gravely regrets it and encourages her students to, "be cool and stay in school!"

Chelsea Oanes, Leilandra Mariano, Jennifer Kaump, Mary Salvani, Sofia Tang, Rochelle Calabiao, Robert Kim The Asian Crew, Class of 2012! I wish to say what awesome friends you are, it's so hard to thank you enough for your friendship over the years, we never got to thank each other properly. We've made so many friends over these last 4 years, and for as long as we can remember we've got each others backs. Even if we act like we don't care, we each know deep down we really do. Even though we don't know everything that's going to happen, In the future, we'll meet and hug, and bump. I bet you look like a million bucks, You guys have truly become a gift. I will catch up with you all soon.

Chelsea Hubbard

Congratulations Ladybug!

We love you and are so proud of the young lady you've become. You're so beautiful, compassionate, and loving. God truly blessed us with you. Keep praising God and watch how He blesses your life. As you step toward your future.... it is bright & full.

We love you Mom, Dad, Delana, Courtney, Taylor, Grammy, Pop-Pop, Grandmama, & Grandpa

Congratulations Kristin on all you have accomplished. Keep your inner happiness shining through your smile and have fun on your continued journey after high school. We love and appreciate you. Love, Mom & Dad (Jonathan & Matthew too!)

Vanessa Villanueva

Watching you grow and turn into an intelligent and beautiful young woman makes us so proud. You have worked so hard and should continue to follow your dreams. Remember we will always be there for you whenever you need us. Stay as sweet as you are.We love you very much, Mom, Dad, Bubb, Nina Reese, Syl&Ang

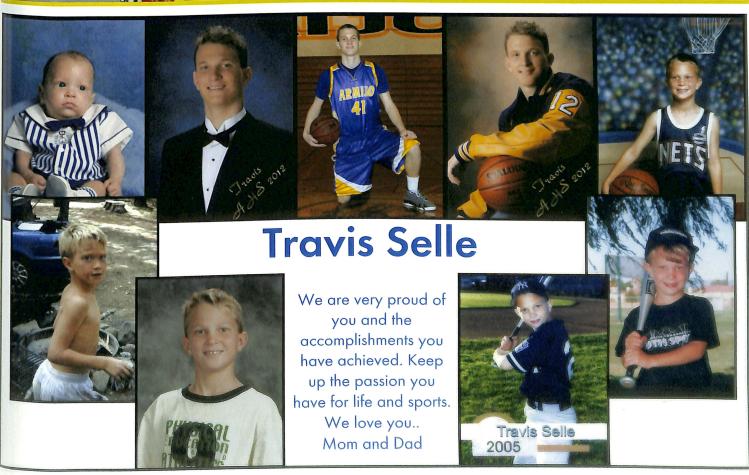

Jennifer Kaump We are very proud of you & the beautiful young woman you've grown to be. Your bright and intelligent & can do anything you put your mind to just stay focused & believe in yourself. Love, Dad, Mom, and Ashley

Michelle&Michaela

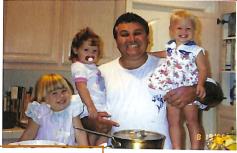

Yvette 3012 Cl Lacey

Lacey...

You have been independent since you were a little girl, always choosing to march to your own drummer. You made friends with people or animals with ease. You quietly accomplished what you set out to do: Prom Princess, Homecoming Queen, Anchor Woman,

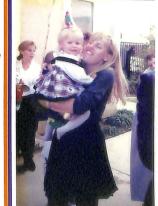

cheerleading, and much more.You have a bright future a head of you, so dream big!!

We love you, Mom, Alexis, John, Oscar, and Felix

Yvette
You know we love you from here to infinity
and back. You are Gods gift to us!
You have made us sooo proud from your
success with school, friends, sports & always
putting family first.

Keep your Greek attitude in life, it's a plus! We Love You.... Mom & Dad

Austin Liddicoat, Tim Smithson, Danny Lavell

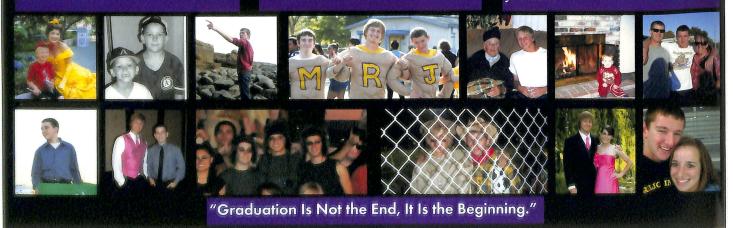

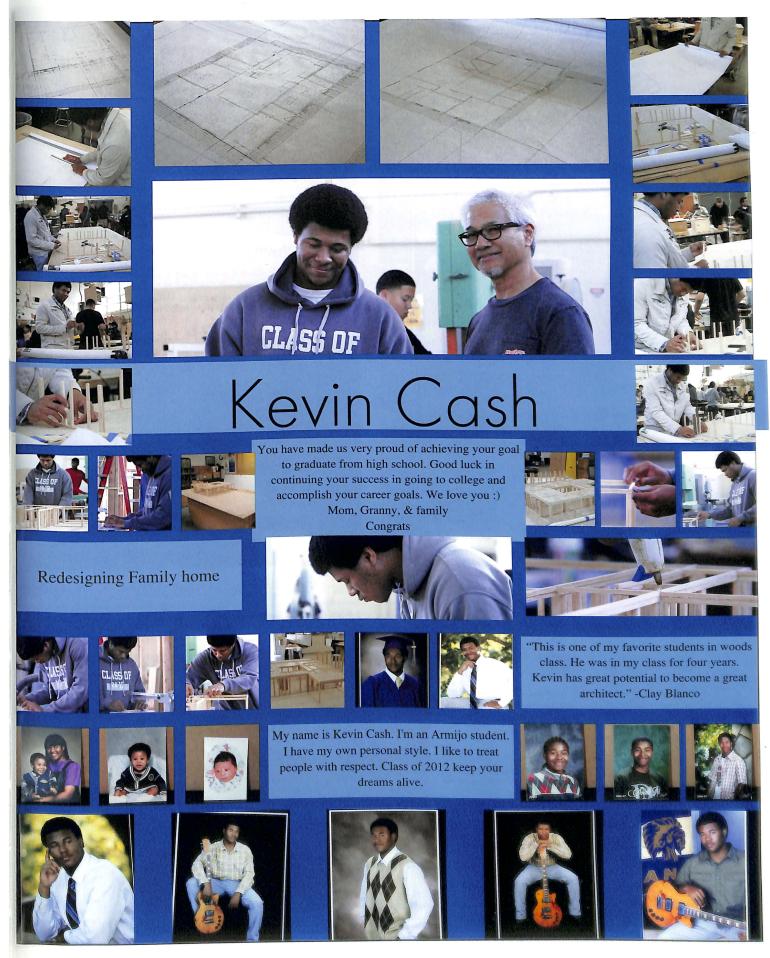

"We hope all your dreams take you to the corners of your smiles, to the highest of your hopes, to the window of your opportunities, and to the most special place your heart has ever known."

Congratulations!

I hope you never look back or never forget all the ones who love you and the place you left. We are very proud of the young men you have become in this journey of life. As this chapter closes and another one begins, keep believing in yourselves and stay focused on your dreams. Keep your values strong and always stay true to yourself.

Andrew, Congratulations on making it this far. Though it is an ending to one chapter, it is a beginning to another. We look forward to celebrating your future accomplishments with you. Stay focused, keep your eyes on the prize and remember to keep God first in all you do. We love you!

Love always. Uncle Dan, Aunty Sina, and your cousins Nathan, Eliana, and Faauiao Wellington

Andrew Fuimaono

Congratulations son. We are very proud of you. Thank God for his blessings. This is the ending and the beginning of new roads for you to take. Choose wise, concentrate, and stay focused. Pray always and God will guide your way. It will be rough and a lot of bumps, but don't give in just stay strong and keep on. Take one step at a time and you will eventually get to where you want. Be good and always remember the Lord in all you do. Know what you want to be. Honor is by doing what is right even if you have the power to do wrong.

> Love you always, Mom and Dad

The Golden Element

There are so many different elements of Armijo: Student Life, Academics, Clubs, Sports, and all the Students. When you think about the past year at Armijo, you think about the family you've made here and the memories you created.

Everyone has different experiences at Armijo and will remember different things; it may be the walk from English to Chemistry in the crazy, windy rain, participating in a big Lunch Time Activity, or having a potluck in your favorite club. Armijo becomes a huge part of our lives the four years we are here and whether you realize it or not, every single one of us are a part of Armijo; together, we make The Golden Element.
